Water & sanitation department. This department seeks to address africa biggest challenge of access to safe water is a big challenge in africa annually claiming innocent lives of millions of people and livestock. Amazingly research has shown existence of huge water aquifers that exist underground that can be accessed by digging boreholes and through seasonal floods harvest water. Trillions of litres of water trickle down from water catchment hills through rivers, lakes to the sea. We seek to drill boreholes and establish reserves along with spot treatment points and plants, construct dams for water harvesting to harvest water as reserves for dry seasons, revive water catchment areas reforestation areas that have been depleted some are private and others with government partnership. Other communities have access to rivers and lakes but no water treatment plants so that exposes communities to diseases. We have envisioned establishing of water treatment plants in partnership with communities and local government also renewing the ancient technologies that are not effective in some of them. Many towns in africa had not envisioned growth in design and determination of sewer and sanitation capacities. In certain areas we have confirmed through feasibility that sewage can be converted to energy and fertilizers through modern technology. We shall also do indigenous water harvesting through water tanks for every house hold in drought areas with spot regulated chlorination for boreholes.

Slum upgrade & eradication department. Many slums exist because of poverty our business seminar training on entrepreneurship will target slums as one of the areas of focus to empower people for business start ups and development. Some slum don't have reconstruction structure because of land ownership being so you can only upgrade the houses to better semi-permanent and provide water, electricity, sewerage and infrastructure along with establishing structured trade centers to provide for more business facilities, jobs and improve the livelihood of the people. Entrepreneurship training, micro financing to school drop outs & job seekers to stimulate self-employment. This will reduce poverty and crime. Many seminars that were done have been fruitful. Training curriculums all set. Business start-up & development financing structures all set, for men, women and youth empowerment. Catherine mwangi also a visionary of helpers for africa is qualified banker to manage micro finance project along with partnerships with those institutions on the ground in slums to boost their capital base to activate rending capacity.

Charity buses department, we are acquiring buses to be in our custody in kenya phase 1 to serve 1000 children homes & special schools for holidays , education trip as many children have never had to tour local holiday centers and hotels for education and vacation. These buses will also serve our other missions, programs and projects also like minded institutions / projects. The launch of the champion's chariots will be on in the good Samaritan festival at kasarani as we commission containers for food to various children homes and hunger stricken regions.

Youth, men & women empowerment department - designated to offer packaged programs for the cluster of youth, men & women highlighting education for all, it skills, career, entrepreneurship, family matters, parenting skills, life skills, gender issues, financial empowerment, serving others & patriotism, joint sports & team building , life coaching and other empowerment and mentorship programs .

Environmental conservation department - designated to ensure preservation and betterment of environment by improving and programs that entails to game parks & national reserves, water for animals through dams, endangered species preservation of plants & animals, cleanliness of cities and garbage management, re forestation in water catchment regions and any other projects to avoid environmental degradation and other programs in line with this vision.

Scholarship school bursaries department, -to support ensure no orphans / vulnerable and needy children are denied the opportunity for studies ensuring they receive all basics uniform, books and school fees from pre- school primary, secondary, college university in our schools and others through this program. Our network of children homes/ special schools, community leaders, churches provide bases for such evaluation and selection of needy children to benefit from this project and programs.

Education & training for church ministers & community leaders department -through building of universities & vocational colleges hundreds of designs ready and land available in various towns and counties across the country extending to the continents. We shall also continue to do short refresher courses which we have experienced a very big impact of empowering thousands of community leaders and religious leaders who are impacting the community in various spheres of socio-economic fronts to be the gate keepers and agents of sustainable development for our valuable projects and others

Welfare of community leaders department. -when you empower the leader's socio economic status you are empowering him to be stable to be a blessing to others. We seek to disburse support in training leaders on entrepreneurship and empower them with ideas of income generation, business plan writing, carrying out feasibility and launch them to business start ups with repayable loans to create sustainable income for socio economic welfare for families and to be empowered to lead various churches, community groups with ease and without stress. This will be a strong base to aid them manage payment of home loans, education fund for their children, mobility project to loan for purchase of motorbikes and cars according to each economic status to repay to sustain a revolving fund. This can be achieved in groups since through our training we were able to cluster many into groups and units.

Outreach & advocacy missions department, -we have a strong focus to engage & support existing valuable missions some can be seasonal depending on current needs in the community and some continuous. Such programs include advocacy program on health campaigns, hiv reduction and stigma reduction, peace campaigns in war torn regions, conflict resolutions. Other missions include prayer, good news campaigns/ festivals / conferences seminars, festivals on peace & integration and caravans

Media ministry & missions department, -establishing media stations tv/ radio/ print & publications that provides positive virtues to community in mentorship, education on all spheres, entrepreneurship, empowerment, positive advocacy, publicity of our programs, guidance & counseling. We have smart teams of professional personnel to roll out strong media across africa, asia & middle east to become the platform of promotion of our projects and programs across the designated regions. We have set teams to roll out this across africa and asia along with supporting the existing organizations that have similar virtues and vision.

Special missions department, -we have engaged with many fruitful special missions for sometimes on peace building, gospel, talents and we seek to do much more in mobile and stationed projects which including mobile education video programs for communities, mobile libraries, mobile clinic, rotational or stationed it computers training to schools, running and sponsoring sports & talent search & competitions, community tournaments, promotion sports & talents in schools colleges / university, sourcing for potential businesses to fund, free medical checks & vaccination programs, research for solutions on various community challenges on medical such us jigger infection in communities, pest control, & many more. Under the special missions we are open

Investment & business division.

This arm will provide sustainability for humanitarian giving throughout. **Micro finance department**
We seek to establish a bank to provide savings and loans to millions that we have trained on business and to provide a financial base for all the funds for the projects that we shall be undertaking. We have full proposal, trained personnel then through the funds fulfill the deposits needed a full proposal, personnel and networks in place for ufalme capital meaning Helpers Of Africa International.

Real estate building department,
This department will provide housing and infrastructure development to package real estate projects to sustain missions. We seek to be involved in building cities & housing in thousands of locations in various nations identified with many design concepts in place. This will generate jobs, infrastructure, capital formation, and increase in trade; improve security, poverty eradication, enterprise development, utilization of resources, career development. Slums upgrade and eradication through electrification, sanitations, water, infrastructure, education and healthcare projects and programs. Hundreds of housing designs ready and need assessments done to begin. Profit making real estate ventures also packaged Kenya & African countries have big housing deficit of millions. We have vision to build and provide mortgages for sustainability not just free housing. Some will be based on industrial concepts because of minerals surrounding, while others based on tourism potential and agriculture and livestock. We have ready 7 cities ready to kick off taita international mining and industrial city, Turkana industrial park, runda dream city, seven city, champion's city and many more. Dr luke mwangi is a professional and consultant in architectural designs, building and civil engineering with a lot of experience in project management from childhood. Alongside promote solar energy generation throughout the continents it is cost effective.

Food production department -seeks to boast food production by owning model farm & livestock to produce own food for our charity programs, disaster relief, improve health and livelihood owning our lands for farming, poultry, livestock for donations & income to support charity programs. We shall also venture in advising farmers on better productive skills, support research and advisory support services to ensure better utilization for land use for appropriate crops and livestock to boast production. We have identified model farms to acquire for this including horticulture, floriculture and all manner of cash & food crops.

Mining, technology, value additions & marketing support department Africa is endured with trillions of dollars worth unexploited minerals and on top people dying in poverty. Over 100 types minerals in some regions totally. We seek to fund & conduct geo-survey in mineral potential areas to verify quality and quantities as basis of planning for potential industrial sites. In kenya we have the first 7 regions, providing funding for mining licenses by packaging lands into mining concessions, providing machinery /skills & technology to boast mining production, providing international markets for mineral good prices, improving welfare of miners housing/ schools/ vehicles, hospitals as a win win situation . This will be revolving funds since we project big incomes from joint venture projects. We have reports of all mineral potential nations and areas 2000 page report done and like kenya, congo, zambia mines that do potential need above. Establishing industrial parks & mining cities in this regions for

Industries department -will create a platform of job creation & job training platform for school leavers, job seekers, production and service providers in various sector improving welfare/ livelihood/ utilization of resources/ opening up closed up communities, forster international & regional corporations, boasting foreign exchange, access to markets & goods, infrastructure around region, opening regions for settlement & trade hub among many other benefits.

Education & schools department -this department will buy and build and run well built and furnished primary, secondary, colleges, and universities. We have envisioned buying and constructing schools to both bring income from able learners and establish bursaries to sponsor needy children in a sustainable structure. We shall also use these facilities for our special missions, distribution or relief, feeding programs, sports, training, sports, talents centers, community programs, partners and stakeholders. These schools will also bursaries to needy children, orphans and Vulnerable students at all levels. It will also run and support governments in informal education programs for adults, special education and research support throughout africa . We have been actively involved in empowerment in education through informal sector adult literacy classes, life skills mentorship and coaching, leadership training in all sectors etc. With your partnership many life champions will be raised in professional, talents and business sector

Health department - will own & run hospitals to be source income from able families and charity offering help to the needy for sustainability. This will include buying & constructing new hospitals hundreds of designs ready, mobile health services, base of all medical services to people, high referral and tutorial hospitals along with rural areas clinics and mobile health units. These hospitals will be bases of all medical special missions & disaster uptake of victims there have been incidents of victims who cannot be admitted because nobody can secure them in prime hospitals.

Job creation companies department. -we have registered and ready business plans for hundreds of companies that will established model companies in all sectors for people to learn and offer job opportunities and job exposure to school leavers as per website with over 1000 business ideas & opportunities and over 100 registered already this will work alongside entrepreneurship innovation department thinking / research centers for entrepreneurship opportunities in town and rural areas to fund like maasai handcrafts, water projects, women groups, fruits companies, milk plants for livestock, leather yards for skins, etc conducting feasibility of new products then fund to begin and employ. We believe the best services and products are to yet to come initiatives in africa, asia, middle east and the rest of the world.

Hospitality and conferencing department- we have envisioned buying & building hotels, lodges, conference and conventional centers. This is both for income & hosting our many conferences, festivals mentorships and all stake holders of our programs above including hosting orphans and Vulnerable children for vocational along with hosting our local and international guests & donors/ partners, facilitators in various strategic locations. We shall also promote africa's tourism is the biggest asset of africa natural heritage to promote Africa as a tourist and investors destination highlighting the sounds, sights and hospitality of africa. This will create more jobs, improve infrastructure, trade for suppliers and stakeholders, foreign currency exchange, enterprise development, international relationship, boost economy. The visionary of Helpers Of Africa International dr luke has produced a book dubbed kenya the dreamland to tour and invest which has invited many tourists and investors to kenya. We have seen the potential of promotion of this sector especially through our vast networks more missionaries, investors and tourist visit.

26) Pastors resource centers and libraries/ Sections in existing libraries in counties
27) Link up pastors to technology through IT herbs.
28) Sensitize on cults and sects through promoting sound teaching.
29) Wholistic support of Pastors children network venues, outings, and areas of need assessment etc.

Importance of commitment in a Community work through churches and religious institutions.

1) Facilitates a true bond and commitment to unity.
2) God works through committed and united people. (early church revival)
3) God recognizes and honors the prayers of united people. Act chp 4
4) The co-operate blessings and revival is released to people in unity. Ps 133
5) Both the pastor and the members feels obliged to each other to bring accountability (just like marriage vows) and brings seriousness in church relationship.
6) There is spiritual and physical protection among the parties involved in a covenant relationship, which comes in praying, taking care and living together in defense for each other. (peter released from prison, my prayer rescue for a church sisters husband)
7) There is greater achievement of work and accomplishment of purpose for those who are united in purpose. (building of the tower of babel by united people under nimrod, finishing of the rebuilding of the walls of jerusalem under nehemiah)
8) A commitment moves the hand of god to work. (vow of hannah brought forth samuel, vow of jacob brought blessings, and vow of japheth brought deliverance). Our commitment to each other in this covenant of blessings will cause god to partner with us in raising kingdom champions.
9) God does not delight in double mindedness, if you commit yourself to god and his church do it with all your might with full commitment (a double minded person does not get blessings from god)
    - Nobody sets his hands to plough and looks back is worthy
    - If you shall **diligently** obey the god through his church blessings will come and overtake you

Mission:
Empowering communities globally
Exalting the saviour
Equiping and empowering the believer
Evangelizing the world
Prosperity of body, soul and spirit.
Making christianity relevant

Jba – missions and ministry global agency (apostolic mandate)

1) covering of other 4 ministries of evangelist, prophets, pastors and teachers. The senior pastor having mentored over 1000 ministers in various schools has many of the four office holders above receiving guidance for ministry from him and the church providing a model for this.
2) planting, establishing and founding the local churches on the sure foundation christ jesus. The senior pastor has planted many churches and supported others to do so and we seek to plant many churches in the country and internationally i corinthians 3:9-16, romans 16:20, i corinthians 9:!, ephesians 2:20-22.
3) apostolic office involves preaching and teaching the word of god. I timothy 2:7, ii timothy 1:11. This is our priority in jba.
4) the apostolic office is followed by great signs and wonders through the operation of many of the spiritual gifts. Acts 4:23, 5:12, ii corinthians 10:18, 12:12, romans 11:13. We have witnessed many miracles and we are open to experience more by the grace of god
5) the apostolic involves overseeing of churches through appointments and ordination of ministries and ministers. Acts 6:1-6, acts 14:23, i timothy 1:18. We have many ministers connected to us.
6) the apostolic office involves guarding doctrines for the local church. (acts 15:22-29). We are very keen with doctrines and focused to teach and preach. Jba members will be provided with doctrine manuals.
7) apostolic office involves preparation and placing other potential ministries. Ii timothy 2:2, acts 16:1-, acts 13:5. At jba we give opportunities for people to discover their potential in ministry and we encourage them in doing so.
8) apostolic office involves church judgment and disciplines. Acts 5:1-11, acts 13:11, i corinthians 4:21, 5-13, ii corinthians 2:6-11, 13:2, 10, i timothy 1:20, romans 16:17, i peter 4:17, matthew 16:16-19, james 5:9, proverbs 19:29, 13:23. At jba we believe in ethics and order and we are not slothful in maintaining disciplines.
9) the apostolic office bears the vision for the whole body of christ. Ephesians 3:1-9, 4:1-16, revelations 2:1-6. We pray and network with members of the whole body and participate in the events of the body of christ
10) the apostolic office affects the entire body of christ not one denomination.. Through literature and media we seek to equip the entire body not just the local church
Ii corinthians 11:28, i corinthians 9:1-2, 7:17, 11:34, ii thessalonians 3:14.
11) the apostolic office is tested and proven by the ministry. The pastors having served under others have been tested and proven
12) the apostolic office is involved in national spiritual and social –economic impact.

JBA – MISSIONS AND MINISTRY GLOBAL AGENCY (PROPHETIC MINISTRY) MANDATE

1) Prophetic office speaks revelation, the mind of god and the will of god. Matthew 5:6-7, acts 3:32, john 17:8, 4:25. The jba pastoral staff seeks the will and the mind of god before preaching.
2) Prophetic office together with apostles establishes and proclaims the law. Ephesians 2:20-22. At jba we have established laws and order for the church to function.
3) Prophetic office is god's spokesmen and speaks his message to the people
(Uproot, pull down, destroy, plant and establish). Jeremiah 4. At jba the ministers are not slack to do the prophetic of confronting evil
4) Prophets have a directed message to the people to stir up, to build up, to bind up, and to open up the people. I Corinthians 14:3. We are motivators in spiritual, economic and marriage matters.
5) Prophetic office work together in submission for the purpose of testing their utterances. I Corinthians 14:29, 30, Deuteronomy 19:15, ii Corinthians 3:11. (We don't allow manipulation from within and without of finances or false miracles or manipulative teachings to defrauded and scatter the sheep.
6) Prophetic office exposes and speaks out against sin. (We are not slack in exposing sin and restoring people in love and correcting where it is necessary)
7) Prophetic office flows in many gifts of the Holy Spirit in revelation, power, inspiration, in signs and wonders. The pastoral staff in jba are graced in many gifting's for ministry.
8) Prophetic office warns people of god's judgments upon wickedness and calls people to repentance. Jonah 1-4. The senior pastor has written a book on bible prophecy warning people on judgments to come.
9) Prophetic office deals with deception and false preachers in the body of Christ. (We are not slack to correct and rebuke people and false preachers where it deserves).
10) Prophetic office foretells future events in god's plans. The senior pastor has written a book on bible prophecy warning people on judgments to come.
11) Prophetic office involves preaching and teaching the word of god through prophetic insight under the control of the Holy Spirit not with emotions but in sober mind by the fruit of the Holy Spirit.
12) Prophetic office operates in the knowledge and wisdom of god in bringing divine revelation and instruction to the church.

JBA – MISSIONS AND MINISTRY GLOBAL AGENCY (EVANGELISTIC MINISTRY) MANDATE

1) enters into new territories to proclaim the message of Jesus. (we have a great focus in reaching nairobi even into homes through tracts, then other cities, then the world etc)
2) to bind and heal the brokenhearted.
3) to stir up the church for the work of winning souls. (we always require our members to evangelize)
4) to proclaim and preach deliverance to the captives. (we believe in the power of the holy spirit that sets the captives free, we have witnessed great deliverances taking place) luke 14:33.
5) evangelists operate with the local churches so that the harvest and the fruit remain through discipleship. (we are not just keen in reaching out but also that the fruit will remain through discipleship and pastoral care)

JBA – MISSIONS AND MINISTRY GLOBAL AGENCY (PASTORAL MINISTRY) MANDATE

A) spiritually feeds the flock by leading them in green pastures of the word always searching. (we love to feed the people with the word of god)
B) co-ordinates and gives order the ministry of other members in the fivefold ministry in a local church. (all ministers operating in the church
C) to serve the people. (we are ready to serve the people)
D) exercises the authority of the leader in the church government. (we believe in visionary leadership through the pastor peter
E) he protects the congregation from false teaching, from enemies, from the stranger, thief, robber, hireling, and the wolf. (john 10:1-13). He always signals danger.
F) he is a gatherer of the flock and does not allow things that scatter the flock.
G) the pastor searches and restores the wounded and the fallen back to god. He has a heart to bind up the broken, heal the sick and strengthen the weak.
Luke 11:23
H) he ensures that all the gifts, ministries, talents in a local church run in order.
I) the pastor is supposed to balance doctrine (diet) within the local church as many teachers
J) the pastor leads and guides through example the vision of a local church.

JBA – MISSIONS AND MINISTRY GLOBAL AGENCY (TEACHING MINISTRY) MANDATE

A) teaching involves building and establishing the believer in doctrine.
B) teaching involves communicating the word of god in knowledge, wisdom and understanding. Proverbs 1:1-6
C) teaching involves being a student of the word of god and other members of the fivefold ministry.
D) teaching involves releasing a spirit filled word.
Ii corinthians 3.
E) teaching involves presenting the whole counsel of god in a balanced manner.
F) teaching involves presenting the truth in a progressive and understandable manner.
G) teaching involves unveiling great spiritual truths and hidden mysteries of the word of god.
H) teaching involves bringing the word of god as a reality to the believer through practical application of spiritual truths.
I) teaching involves producing other teaching ministries and aids as part of his fruit - writing books and other material. Ii timothy 2:2
J) teaching involves stirring up believers to the work of the ministry through presentation of the word of god.

JBA – MISSIONS AND MINISTRY GLOBAL AGENCY CARE FOR COMMUNITIES

We have a special concern for our members to feel loved and cared for. We rejoice with our when they are rejoicing and we morn with them when they are morning in the community and we shall seek to be good to our communities. Every member must have the heart the Good Samaritan. Good Samaritan concept is not promote welfare mentality, dependency, laziness / lack of planning, the poor or the unfortunate of house, parasite mentality.

It is not only physical resources but concern, love, attention, company, listening ear, encouragement.

- God created first an environment then relationship , then work (we must take care of relationships)
- Stinglyness is a curse affects even self (build a house not live in it, plant a field not its fruit etc)
- Parable of the Good Samaritan the hearten like good Samaritan was considered to have done better than the priest. (good Samaritan administered emergency help (dressing the wounds, follow-up & long term (in an inn & meeting the need) luke 10 : 25-37
- Mixing faith with works by showing physical act to a wounded person or needy james 2:14 -26).
- The assignment given to us by jesus is to set captives free (not only demonic), good news to others,
- Taking care of the seed of god of destiny. Jesus born in a major of a hospitable person, david preserved by jonathan , moses received from the sea as a strange child later became the deliverer, encouragement from annanias & barnabas kept pauls vision on through encouragement, they spared a seed of destiny. (elijah & john the baptist lacked motivators that is why they were depressed)
- Rahab was favoured and spared for her generosity (welcoming strangers attending to angles) abraham welcomed angles through a heart of hospitality and heard a message.
- Don't be stingy / enclosed/ (business ideas, jobs, tenders, marriage partnerships important information will come through interactions) business teas, after church meetings, etc
- Any form of charity or concern you show is a seed. (a generous soul will prosper those who water others will be watered pvbs 11:24-25) do not grow wearily to do good especially those in the house hold of faith.
- God hears the prayers of those who show concern and bless others
  Whoever ignores the needy, hurting he himself will cry god and god will not hear
  Pvbs 21:13 (cornelius was heard unsually because of his generosity to others acts chpt 10: 12)
  > one of the reasons for your blessing (blessed to blessing abraham genesis 12)
  Children of israel were instructed not to be selfish in the land of blessings
- Proper relationships and interaction is a fruit of the spirit more superior than gifts, you can fake gifts but not the fruit of the spirit, galatians 6:
  Kindness, goodness (generosity), gentleness, peace, love, long suffering.
- The test of stewardship is not how we treat others but how we treat others. Paul worked hard for himself and those that were with him. Ist thes 5:15, 2:17. Paul exhorted the blessed not to be proud but be generous and show concern to others (riches is not only money – smile, attention etc.
- A sign of loving god. You cannot clame to love god and you are unconcerned or hate a brother that you see. Deep spirituality is intimidation not a sign of loving god.
- Key to prosperity ---- majority of the rich who enjoy their wealth they are generous people (top billionaires run charity)
- Early church gave generously and attended to each other (no one had need they sold land to give that the ministry had no need that the overflow was felt by all others act 2, when peter was arrested the people prayed vigoulosly at night denying themselves sleep. Act send food to Judea when there was a draught
- Protection and long life. Dorcas was raised from the dead because of her concern for others. Mourners displayed her works of mercy that she did (Acts 9:36)
- You will be raised in time of illness, preserved from trouble, deliverance from god in times of affliction ps 41:1-6
- Banking with god to be refunded or withdraw in time of need (tangible or emotional gifts). Pvbs 19:17
- We demonstrate Christ to the people with tangible fruit of love. You shall know them by their fruits, john 17 the world will know that they are mine when they live in love and unity.
- Key to evangelism evangelism—cults have been able to win people for being available in disaster regions to win peoples heart.

- Fulfilling righteousness --- the rich young ruler was obedient in many areas but was stingy about the needs of others mark 10: 17-23
- Gifts of the Holy Spirit are given, released and maintained by love. 1 Corinthians 13: 1-9
- Paul instructed the church in Galatians to take care of the hurting/ and the poor and he was very eager to do so himself. (gal 2:10)
- A prudent wife has a law of kindness pvbs 31: 26
- Jesus was generous to feed 4,000 / 5,000 people respectively showing the acts of a Christian not sending them away.
- The early church appointed 7 leaders to take care of the widows acts 6
- Moses appointed 70 and other leaders to attend to the needs of peoples. You are your brothers/ sister keeper

How to administer grace to others as a good samaritans

- Encouraging
- House to house visits
- Provide for the need of others. Weddings, emergency bills etc.
- Uniting those in problems
- Healing the hurting.
- Celebrating with those blessed (don't be the elder brother of the prodigal son who does not attend fist) what you celebrate will love you. Weddings, dedication of houses, graduations,
- Giving directly to a needy in the church
- Giving through alms session of the giving for the church & Good Samaritan smart team to administer help
- Counseling and free professional business and professional advice to bring progress and excel in life issues. (sustainable charity)
- Progressive plan support --- education, business start –ups etc
- Indirectly through others being careful not to build unnecessary or unpronounced relationships or unwarranted relationships through gifts.

Good Samaritan mercy ministry (Barnaba's, Dorcas)

1) 7 leaders appointed to minister care and concern take care of the needy acts chapter 6,
2) Moses appointed 70 leaders to attend to people,
3) The ministry of disciples and a team of women who were in the early church

Jba good samaritan team is open for all the members to attend to specific need their work is to
Co-ordinate as a "smart team"

- He champions appointed by the leadership
- She champions appointed by the leadership
- Youth champions appointed by the leadership

led by pastors and group leaders.

All appointed are available, willing , talented, skilled, burdened, blessed to attend to show acts of mercy, care, counseling, and material support, encouragement along with offering prayers through the pastors and group leadership above. This team accompanies the pastoral team, group leadership and zonal stewards and other steward's centers leaders to

- Visit those who are admitted in the hospital or sick at home, or close relatives of members of the family.
- Together with the pastors be the first to arrive incase of any emergency affecting any members of the church and follow up until the distress is relieved.
- Work together in organizing meetings , planning, leading services, prayers etc for funerals of members or close relatives (parents / brother / sister)
- Attend to any emergency or crises affecting our church member in any area of life.
- Provide counseling & guidance for business start –up, business development or career placements & development as a way to empower any body that has been affected or attacked economically.
- To organize visits to children homes , rehabilitation centers for ministry , training, distribution of aid etc,
- To silicate and keep custody of donations from church members, community or other to parties and ensure that all go to the viable benefiatiarries.
- To organize for community charity activities free clinics, cleaning activities, etc

Importance and blessings of attending to each other's needs communities

Financial assistance – the church does not forsake a member when there is a calamity or any disaster affecting their lives. However the support is evaluated according to the issue at hand through church, group or zonal stewards (leader). Some of the issues that warrant church attention include.

- Financial emergencies (medical bills, funeral supports, wedding supports etc) not for a distance relative or friend of a member (brother, sister, parent). The church does not own the bills, together with relatives, family members and friends the church member does an initiative to raise the money and the church supports in logistics of such a function (e.g. Venue) and gives a donation. We encourage church members to be well connected with family members, workmates and friends, so that you are not isolated in the time of need. Other principles as tithing, living in wisdom and knowledge, good planning, good financial planning and management, insurance and securities, self-help groups, viable saving and investment schemes, health schemes, work place allowances, cdf funds and self-help groups & networks would help in personal crises management. The church so far has been very faithful and generous towards genuine needs. This needs extend to house rents, school fees, power bills, water bills, development capital, issues from extended family along with domestic depts to relieve pain especially JBA Church members who were the foundation . Note any other eventualities and emergencies that deserve attention will be handled accordingly through pastoral, group or zonal leadership.

(extend of support evaluation will be based on investment of that member to the church in terms of finances (giving of tithes / offerings / projects) , ministry, networking, sowing to others people needs. Monies or help in a church comes from members, you reap where you sow, people come in the time of your need to pay you for the good you have done) my wedding

Supporting families in sorrows and disasters in giving and prayers that all our church members reach out to communities to do good will live long and none will sleep. However sorrows and disasters in the communities of a will be involved in supporting as our brothers and sisters keepers.

1) Praying and consoling the church member and their family by being with them.
2) Sending representation (pastoral staff or group / zonal stewards) to attend meetings especially if they are within the city.
3) Assist in programs and logistics of funeral
4) Give donations accordingly jointly with other family members and friends. (a joint responsibility)
5) Provide church facility for meetings or gathering point for planning such.
6) Provide other church facilities such as sound equipment, cars etc.

Building economic and leadership capacity

Our vision focused on raising champions and leaders we have special empowerment forums such us

- Children/ youth/ candidates career guidance
- Guidance towards excelling in examinations (candidates day).

- Teachings on Holy Spirit, healing and deliverance.
- Exhibits on how the church should operate in power.
- Ministrations for healing & deliverance upon the sick.
- Praying for people to be filled with the Holy Spirit.

Holy Communion service > partaking of the holy communion together in remembrance and obedience. Covenant meal, release of blessings, healing, unity, favor, focus on our salvation.

Child dedication service > dedicating children to the lord.

Spiritual growth and development focus for community

JBA Helpers Of Africa International Agency is a church that is focused to have her members mature, sober, balanced, victorious and with the right connection with god. This we achieve through

- Teaching and preaching of balanced word of god from pastors and other guest ministers
- Motivating members to live a prayerful life by granting prayer services and sessions in church.
- Providing doctrine manual.
- Motivating members to read the word.
- Motivating members to live in integrity and model lives.
- Administration of church ordinances (holy communion, water baptisms, children dedications)
- Emphasizing on a spirit filled life, led and controlled life.
- Providing an environment and guidance to prayer and worship in our services.

Groups to Be Empowered by JBA- Missions and Ministry Global Agency

The church emphasizes on networking of believers who share common interests and challenges in gender and age. These networks are very important in making friendships, sharpening each other, helping each other, and serving god together. The fellowships networks that exist include.

1) He-champions married men network---- this is a married men's fellowship network that has a vision of empowering men to be better husbands, better parents, better business men, better professionals and useful in the church and in the church and in the work of building and expanding the kingdom of god.(whether your spouse is fellowshipping with us or not)
2) She- champions ladies network---- this is a married women's fellowship network that has a vision of empowering women to be better wife's, better parents, better business men, better professionals and useful in the church and in the work of building and expanding the work of god.
3) Youth champions --- this is for those who have not married or are not married networking in various levels and age groups. (teenagers, youth and prime youth)

3) **Young champions ---** children aged from 2 years to 13 years.

5) widows, widowers and single parents champions group---
All this networking groups operate under the leadership and there meetings announced through church announcements and bulletin. They all have a vision of uniting singles, organizing fun fares, educational forums, and career development forums, spiritual empowerment forums, seizing opportunities and forums of serving god together and marriage preparation forums for the prime singles club.

Jba – missions and ministry global agency family

Personal development
JBA Helpers Of Africa International Agencyseeks to raise champions and create an empowerment forum for people to develop and fulfill their dreams and visions as you develop the church. This is done through.

- Motivational and empowerment seminars to business, employment and career discovery and development.
- Educational tours to development sites, towns, nations and exhibitions.
- Personalized counseling forums on all issues of life.
- Empowerment training through teaching and preaching
- Practical guidance on how to undertake projects and tasks (construction consultancy, business training consultancy, proposal writing, building plans, investment consultancy, career orientation programs, professional development forums etc
- Guidance in all life issues family life, parenting, career, finances, handling crises.

Ministry devlopment

The pastors of this church are all graduates of school of ministry and mentors in ministry development and the senior pastor has mentored through various schools over 1000 ministers who include pastors, evangelists, missionaries who are impacting the world therefore anybody with a calling to serve god is in the right environment and mentorship. This is achieved through

- Exposure to minister through church departments and ministries.
- Ministerial training through leadership forums
- Guidance , counseling and motivation towards further training in schools of ministry
- Exposure through outside missions to schools, colleges, universities, hospitals, prisons, slums, and other elite and other nations.

Family empowerment- At JBA Helpers Of Africa International Agency we value families as the base that full enjoyment and purposes is drawn. Our focus is that every member of the church enjoys family life. This is achieved through

> counseling sessions available with the pastor as you book appointments.

- J.b.a members can be involved in all the other general ministries and departments both those that are open for all and the selected (indicated “s”) according to talent, experience, burden, ability, availability, sacrifice and commitment that each demands.
- J.b.a members can be in more than one department or ministry.
- All departments and ministries work without competition, superiority, inferiority, strives or divisions focused towards one vision. (i cor 12: 12-18, 3:6)
- All departments and ministries need to be accountable and give victory reports for the church to celebrate and document.
- Events need to be covered through photography etc for documentation and filling and church newsletters.
- All members of respective ministries and departments must be submissive to their leaders, leaders also submissive to pastoral authority. (roman 13 : 1-9)
- Ministries and department can have initiative to raise funds to meet their objectives in line with church vision. Such funds should be well managed and in liaison with pastoral leadership.

JBA- Missions and Ministry Global Agency

Available and accessible to listen and serve the people gladly and with devotion

1 Integrity in holiness, speech, honesty, keeping time, keeping your word.
2 Not hungry for money – no leader should take advantage of members in borrowing money and everybody should plan well and work hard and eat their own bread. 2 thess
3 Submissive to authorities—rebellion is as the sin of witchcraft and witchcraft is not entertained in church. Leaders lead others to submit to obey and not to disobey.
4 Leading by example in all areas – commitment, keeping time, giving, prayer, knowledge, wisdom, spirit filled life,
5 Love and serve the people

Maintaining our greatest strength "unity" forstering it in the community and nation

Ethics of relating with other members in the communities and nations forstering peace building

- Love one another (john 13:34-35; john 15:12,17; 1 thes 3:3:12; thes.4:9; 1pet 1:22;1john3:18;1john4:7, 11-12)
- Encourage one another (1thes.4:18;heb.3:13;heb.10:25)
- Stir up one another on towards love and good deeds (heb 10:24)
- Build one another up (1thes. 5:11)
- Edify one another (rom 14:19)
- Admonish one another (col. 3:16)
- Instruct one another (rom 15:14)
- Serve one another gal 5:13; 1peter4:10
- Bear with one another (eph 4:2; col l3:13)
- Forgive one another (eph 4:32; col 3:13)
- Be kind to one another eph 4:32)
- Be compassionate to one another (eph 4:32; 1pet3:8)
- Be devoted to one another (rom 12:10)
- Honour one another (rom. 12:10)
- Live in harmony with one another(rom. 12:16;1pet3:8)
- Be sympathetic with one another(1pt 3:8)
- Be gentle with one another (eph.4:2;1pt3:8)
- Be patient with one another (eph.4:2)
- Accept one another (rom. 15:7)
- Submit to one another (eph5:21)
- Clothe yourselves with humility towards one another (eph4:2;1pt5:5)
- Teach one another (col.3:16)
- Live at peace with one another (mark 9:50; rom.12:18)
- Confess your sins to one another (james 5:16)
- Pray for one another (jam 5:16)
- Offer hospitality to one another (1pet 4:9)
- Greet one another (rom 16:16; 1pet 5:14)
- Have fellowship with one another (1john 1:7)

- Agree with one another (1cor 1:10), Carry one another's burdens (gal6:2)

Peace building and Conflict Resolution in Communities and Nation Capacity building using biblical teachings

- Do not backbite or devour one another (gal 5:15)
- Do not provoke or envy one another (gal 5:26)
- Do not hate one another (tit 3:3)
- Do not judge one another (rom.14:13)
- Do not lie to one another (col 3:9)
- Do not slander or speak evil about one another (jam4:11)
- Do not grumble against one another (jam5:9)
- Do not go to the law against one another (1cor.6:1-8)
- Do not defile yourself or disobey god
- (the whole body suffers and penalized for the disobedience of one sin of achan)
- do not live a life of shame, strife and disgrace in the family, community and work place you bring us all into that disaster and christ himself

Keep off from some of the things that destroy fellowship, unity and teamwork in church

1. A competitive or a comparative spirit (matthew 18:1-4)
2. A dictatorial spirit, or lordship(1peter 5:1-5; matthew23:11)
3. A proud self-exalting spirit (luke 22:24) that bring strife. Pride brings contention (proverbs 13:10)
4. Party spirit (1corinthians 1:10)
5. A diotrephes spirit loving the pre-eminence (111john 9,10). The fruit of such is evil deeds, malicious spirit, rejection of others, forbidding fellowship and excommunicating others
6. Lack of communication
7. Lack of transparency, dishonesty with each other cf. (ephesians 5:8-14) light.
8. Lack of divine love
9. Lack of tolerance. Cf. The twelve apostles.
10. Lack of forgiving spirit (ephesians 4:32; matthew 18:21,22)
11. Lack of spiritual maturity; carnality manifested (1corinthians 3:1-4)
12. Lack of true humility (matthew 18:1-4; mark 9:33-37)
13. Lack of wisdom, doing a thing the right way, time, place, words.
14. Lack of submissive, servant spirit (1peter 5:3; mark 10:42-45; 1kings 12:7-11)
15. Lack of confidence in each other (philippians 4:13)
16. Lack of concentration or wrong priorities (matthew 6:33)
17. Lack of organization in the team; misdirected efforts.
18. Lack of spiritual concern for others (matthew 23)
19. Lack of knowledge (hosea 4:6; proverbs 3)
20. Lack of mutual respect for each other (ephesians 5:29,30)
21. Lack of co-operative efforts
22. Lack of appreciation for one another; taking one another for granted
23. Lack of maintaining vision (proverbs 29:18)
24. Lack of involvement in the work (haggai 1:4)

25. Lack of pure motive. Beware of judas or simony spirit (1timothy 6)
26. Lack of teachable spirit; leaning to own understanding

Hospitality and conferencing department- we have envisioned buying & building hotels, lodges, conference and conventional centers. - Link up pastors to technology through IT herbs.
- Sensitize on cults and sects through promoting sound teaching.
- Wholistic support of Pastors children network venues, outings, and areas of need assessment etc.

Importance of commitment in a Community work through churches and religious institutions.

Facilitates a true bond and commitment to unity.
God works through committed and united people. (early church revival)

2. God recognizes and honors the prayers of united people. Act chp 4
3. The co-operate blessings and revival is released to people in unity. Ps 133
4. Both the pastor and the members feels obliged to each other to bring accountability (just like marriage vows) and brings seriousness in church relationship.
5. There is spiritual and physical protection among the parties involved in a covenant relationship, which comes in praying, taking care and living together in defense for each other. (peter released from prison, my prayer rescue for a church sisters husband)
6. There is greater achievement of work and accomplishment of purpose for those who are united in purpose. (building of the tower of babel by united people under nimrod, finishing of the rebuilding of the walls of jerusalem under nehemiah)
7. A commitment moves the hand of god to work. (vow of hannah brought forth samuel, vow of jacob brought blessings, and vow of japheth brought deliverance). Our commitment to each other in this covenant of blessings will cause god to partner with us in raising kingdom champions.
8. God does not delight in double mindedness, if you commit yourself to god and his church do it with all your might with full commitment (a double minded person does not get blessings from god)
    - Nobody sets his hands to plough and looks back is worthy
    - If you shall **diligently** obey the god through his church blessings will come and overtake you

Jba – missions and ministry global agency (apostolic mandate)

1) Covering of other 4 ministries of evangelist, prophets, pastors and teachers. The senior pastor having mentored over 1000 ministers in various schools has many of the four office holders above receiving guidance for ministry from him and the church providing a model for this.
2) Planting, establishing and founding the local churches on the sure foundation christ jesus. The senior pastor has planted many churches and supported others to do so and we seek to plant many churches in the country and internationally i corinthians 3:9-16, romans 16:20, i corinthians 9:!, ephesians 2:20-22.
3) Apostolic office involves preaching and teaching the word of god. I timothy 2:7, ii timothy 1:11. This is our priority in jba.
4) The apostolic office is followed by great signs and wonders through the operation of many of the spiritual gifts. Acts 4:23, 5:12, ii corinthians 10:18, 12:12, romans 11:13. We have witnessed many miracles and we are open to experience more by the grace of god
5) The apostolic involves overseeing of churches through appointments and ordination of ministries and ministers. Acts 6:1-6, acts 14:23, i timothy 1:18. We have many ministers connected to us.
6) The apostolic office involves guarding doctrines for the local church. (acts 15:22-29). We are very keen with doctrines and focused to teach and preach. Jba members will be provided with doctrine manuals.
7) Apostolic office involves preparation and placing other potential ministries. Ii timothy 2:2, acts 16:1-, acts 13:5. At jba we give opportunities for people to discover their potential in ministry and we encourage them in doing so.
8) Apostolic office involves church judgment and disciplines. Acts 5:1-11, acts 13:11, i corinthians 4:21, 5-13, ii corinthians 2:6-11, 13:2, 10, i timothy 1:20, romans 16:17, i peter 4:17, matthew 16:16-19, james 5:9, proverbs 19:29, 13:23. At jba we believe in ethics and order and we are not slothful in maintaining disciplines.
9) The apostolic office bears the vision for the whole body of christ. Ephesians 3:1-9, 4:1-16, revelations 2:1-6. We pray and network with members of the whole body and participate in the events of the body of christ
10) The apostolic office affects the entire body of christ not one denomination.. Through literature and media we seek to equip the entire body not just the local church
11) Ii corinthians 11:28, i corinthians 9:1-2, 7:17, 11:34, ii thessalonians 3:14.
12) The apostolic office is tested and proven by the ministry. The pastors having served under others have been tested and proven
13) N) the apostolic office is involved in national spiritual and social –economic impact.
14) Jba – missions and ministry global agency (prophetic ministry) mandate
15) Prophetic office speaks revelation, the mind of god and the will of god. Matthew 5:6-7, acts 3:32, john 17:8, 4:25. The jba pastoral staff seeks the will and the mind of god before preaching.
16) Prophetic office together with apostles establishes and proclaims the law. Ephesians 2:20-22. At jba we have established laws and order for the church to function.
17) Prophetic office is god's spokesmen and speaks his message to the people
18) (uproot, pull down, destroy, plant and establish). Jeremiah 4. At jba the ministers are not slack to do the prophetic of confronting evil
19) Prophets have a directed message to the people to stir up, to build up, to bind up, to open up the people. I corinthians 14:3. We are motivators in spiritual, economic and marriage matters.
20) Prophetic office work together in submission for the purpose of testing their utterances. I corinthians 14:29, 30, deuteronomy 19:15, ii corinthians 3:11. (we don't allow manipulation from within and without of finances or false miracles or manipulative teachings to defrauded and scatter the sheep.
21) Prophetic office exposes and speaks out against sin. (we are not slack in exposing sin and restoring people in love and correcting where it is necessary)
22) Prophetic office flows in many gifts of the holy spirit in revelation, power, inspiration, in signs and wonders. The pastoral staff in jba are graced in many giftings for ministry.
23) Prophetic office warns people of god's judgments upon wickedness and calls people to repentance. Jonah 1-4. The senior pastor has written a book on bible prophecy warning people on judgments to come.
24) Prophetic office deals with deception and false preachers in the body of christ. (we are not slack to correct and rebuke people and false preachers where it deserves).

25) Prophetic office foretells future events in god's plans. The senior pastor has written a book on bible prophecy warning people on judgments to come.
26) Prophetic office involves preaching and teaching the word of god through prophetic insight under the control of the holy spirit not with emotions but in sober mind by the fruit of the holy spirit.
27) Prophetic office operates in the knowledge and wisdom of god in bringing divine revelation and instruction to the church.

Jba – missions and ministry global agency (evangelistic ministry) mandate

1) Enters into new territories to proclaim the message of jesus. (we have a great focus in reaching nairobi even into homes through tracts, then other cities, then the world etc)
2) To bind and heal the brokenhearted.
3) To stir up the church for the work of winning souls. (we always require our members to evangelize)
4) To proclaim and preach deliverance to the captives. (we believe in the power of the holy spirit that sets the captives free, we have witnessed great deliverances taking place) luke 14:33.
5) Evangelists operate with the local churches so that the harvest and the fruit remain through discipleship. (we are not just keen in reaching out but also that the fruit will remain through discipleship and pastoral care)

Jba – missions and ministry global agency (pastoral ministry) mandate

1) Spiritually feeds the flock by leading them in green pastures of the word always searching. (we love to feed the people with the word of god)
2) Co-ordinates and gives order the ministry of other members in the fivefold ministry in a local church. (all ministers operating in the church
3) To serve the people. (we are ready to serve the people)
4) D) exercises the authority of the leader in the church government. (we believe in visionary leadership through the pastor peter
5) He protects the congregation from false teaching, from enemies, from the stranger, thief, robber, hireling, and the wolf. (john 10:1-13). He always signals danger.
6) He is a gatherer of the flock and does not allow things that scatter the flock.
7) The pastor searches and restores the wounded and the fallen back to god. He has a heart to bind up the broken, heal the sick and strengthen the weak.
8) Luke 11:23
9) He ensures that all the gifts, ministries, talents in a local church run in order.
10) The pastor is supposed to balance doctrine (diet) within the local church as many teachers
11) The pastor leads and guides through example the vision of a local church.

Jba – missions and ministry global agency (teaching ministry) mandate

1) teaching involves building and establishing the believer in doctrine.
2) teaching involves communicating the word of god in knowledge, wisdom and understanding. Proverbs 1:1-6
3) teaching involves being a student of the word of god and other members of the fivefold ministry.
4) teaching involves releasing a spirit filled word.
5) Ii corinthians 3.
6) teaching involves presenting the whole counsel of god in a balanced manner.
7) teaching involves presenting the truth in a progressive and understandable manner.
8) teaching involves unveiling great spiritual truths and hidden mysteries of the word of god.
9) teaching involves bringing the word of god as a reality to the believer through practical application of spiritual truths.
10) teaching involves producing other teaching ministries and aids as part of his fruit - writing books and other material. Ii timothy 2:2
11) teaching involves stirring up believers to the work of the ministry through presentation of the word of god.

Jba – missions and ministry global agency care for communities

We have a special concern for our members to feel loved and cared for. We rejoice with our when they are rejoicing and we morn with them when they are morning in the community and we shall seek to be good to our communities. Every member must have the heart the Good Samaritan. Good Samaritan concept is not promote welfare mentality, dependency, laziness / lack of planning, the poor or the unfortunate of house, parasite mentality.

It is not only physical resources but concern, love, attention, company, listening ear, encouragement.

- God created first an environment then relationship , then work (we must take care of relationships)
- Stinglyness is a curse affects even self (build a house not live in it, plant a field not its fruit etc)
- Parable of the Good Samaritan the hearten like good Samaritan was considered to have done better than the priest. (good Samaritan administered emergency help (dressing the wounds, follow-up & long term (in an inn & meeting the need) luke 10 : 25-37
- Mixing faith with works by showing physical act to a wounded person or needy james 2:14 -26).
- The assignment given to us by jesus is to set captives free (not only demonic), good news to others,
- Taking care of the seed of god of destiny. Jesus born in a major of a hospitable person, david preserved by jonathan , moses received from the sea as a strange child later became the deliverer, encouragement from annanias & barnabas kept pauls vision on through encouragement, they spared a seed of destiny. (elijah & john the baptist lacked motivators that is why they were depressed)
- Rahab was favoured and spared for her generosity (welcoming strangers attending to angles) abraham welcomed angles through a heart of hospitality and heard a message.
- Don't be stingy / enclosed/ (business ideas, jobs, tenders, marriage partnerships important information will come through interactions) business teas, after church meetings, etc
- Any form of charity or concern you show is a seed. (a generous soul will prosper those who water others will be watered pvbs 11:24-25) do not grow wearily to do good especially those in the house hold of faith.
- God hears the prayers of those who show concern and bless others
  Whoever ignores the needy, hurting he himself will cry god and god will not hear
  Pvbs 21:13 (cornelius was heard unsually because of his generosity to others acts chpt 10: 12)
  > one of the reasons for your blessing (blessed to blessing abraham genesis 12)
  Children of israel were instructed not to be selfish in the land of blessings
- Proper relationships and interaction is a fruit of the spirit more superior than gifts, you can fake gifts but not the fruit of the spirit, galatians 6:
  Kindness, goodness (generosity), gentleness, peace, love, long suffering.
- The test of stewardship is not how we treat others but how we treat others. Paul worked hard for himself and those that were with him. Ist thes 5:15, 2:17.
  Paul exhorted the blessed not to be proud but be generous and show concern to others (riches is not only money – smile, attention etc.
- A sign of loving god. You cannot clame to love god and you are unconcerned or hate a brother that you see. Deep spirituality is intimidation not a sign of loving god.
- Key to prosperity ---- majority of the rich who enjoy their wealth they are generous people (top billionaires run charity)
- Early church gave generously and attended to each other (no one had need they sold land to give that the ministry had no need that the overflow was felt by all others act 2, when peter was arrested the people prayed vigoulosly at night denying themselves sleep. Act send food to Judea when there was a draught
- Protection and long life. Dorcas was raised from the dead because of her concern for others. Mourners displayed her works of mercy that she did (Acts 9:36)
- You will be raised in time of illness, preserved from trouble, deliverance from god in times of affliction ps 41:1-6
- Banking with god to be refunded or withdraw in time of need (tangible or emotional gifts). Pvbs 19:17

- We demonstrate Christ to the people with tangible fruit of love. You shall know them by their fruits, john 17 the world will know that they are mine when they live in love and unity.
- Key to evangelism evangelism—cults have been able to win people for being available in disaster regions to win peoples heart.
- Fulfilling righteousness --- the rich young ruler was obedient in many areas but was stingy about the needs of others mark 10: 17-23
- Gifts of the Holy Spirit are given, released and maintained by love. 1 Corinthians 13: 1-9
- Paul instructed the church in Galatians to take care of the hurting/ and the poor and he was very eager to do so himself. (gal 2:10)
- A prudent wife has a law of kindness pvbs 31: 26
- Jesus was generous to feed 4,000 / 5,000 people respectively showing the acts of a Christian not sending them away.
- The early church appointed 7 leaders to take care of the widows acts 6

How to administer grace to others as a good samaritans

- Encouraging
- House to house visits
- Provide for the need of others. Weddings, emergency bills etc.
- Uniting those in problems
- Healing the hurting.
- Celebrating with those blessed (don't be the elder brother of the prodigal son who does not attend fist) what you celebrate will love you. Weddings, dedication of houses, graduations,
- Giving directly to a needy in the church
- Giving through alms session of the giving for the church & Good Samaritan smart team to administer help
- Counseling and free professional business and professional advice to bring progress and excel in life issues. (sustainable charity)
- Progressive plan support --- education, business start –ups etc
- Indirectly through others being careful not to build unnecessary or unpronounced relationships or unwarranted relationships through gifts.

Good Samaritan mercy ministry (Barnaba's, Dorcas)

4) 7 leaders appointed to minister care and concern take care of the needy acts chapter 6,
5) Moses appointed 70 leaders to attend to people,
6) The ministry of disciples and a team of women who were in the early church

Jba good samaritan team is open for all the members to attend to specific need their work is to
Co-ordinate as a "smart team"

- He champions appointed by the leadership
- She champions appointed by the leadership
- Youth champions appointed by the leadership

led by pastors and group leaders.

All appointed are available, willing , talented, skilled, burdened, blessed to attend to show acts of mercy, care, counseling, and material support, encouragement along with offering prayers through the pastors and group leadership above.

This team accompanies the pastoral team, group leadership and zonal stewards and other steward's centers leaders to

- Visit those who are admitted in the hospital or sick at home, or close relatives of members of the family.
- Together with the pastors be the first to arrive incase of any emergency affecting any members of the church and follow up until the distress is relieved.
- Work together in organizing meetings , planning, leading services, prayers etc for funerals of members or close relatives (parents / brother / sister)
- Attend to any emergency or crises affecting our church member in any area of life.
- Provide counseling & guidance for business start –up, business development or career placements & development as a way to empower any body that has been affected or attacked economically.
- To organize visits to children homes , rehabilitation centers for ministry , training, distribution of aid etc,
- To silicate and keep custody of donations from church members, community or other to parties and ensure that all go to the viable benefiatiarries.
- To organize for community charity activities free clinics, cleaning activities, etc

Importance and blessings of attending to each other's needs communities

Financial assistance – the church does not forsake a member when there is a calamity or any disaster affecting their lives. However the support is evaluated according to the issue at hand through church, group or zonal stewards (leader). Some of the issues that warrant church attention include.

- Financial emergencies (medical bills, funeral supports, wedding supports etc) not for a distance relative or friend of a member (brother, sister, parent). The church does not own the bills, together with relatives, family members and friends the church member does an initiative to raise the money and the church supports in logistics of such a function (e.g. Venue) and gives a donation. We encourage church members to be well connected with family members, workmates and friends, so that you are not isolated in the time of need. Other principles as tithing, living in wisdom and knowledge, good planning, good financial planning and management, insurance and securities, self-help groups, viable saving and investment schemes, health schemes, work place allowances, cdf funds and self-help groups & networks would help in personal crises management. The church so far has been very faithful and generous towards genuine needs. This needs extend to house rents, school fees, power bills, water bills, development capital, issues from extended family along with domestic depts to relieve pain especially JBA Church members who were the foundation . Note any other eventualities and emergencies that deserve attention will be handled accordingly through pastoral, group or zonal leadership.

(extend of support evaluation will be based on investment of that member to the church in terms of finances (giving of tithes / offerings / projects) , ministry, networking, sowing to others people needs. Monies or help in a church comes from members, you reap where you sow, people come in the time of your need to pay you for the good you have done) my wedding

Supporting families in sorrows and disasters in giving and prayers that all our church members reach out to communities to do good will live long and none will sleep. However sorrows and disasters in the communities of a will be involved in supporting as our brothers and sisters keepers.

1) Praying and consoling the church member and their family by being with them.
2) Sending representation (pastoral staff or group / zonal stewards) to attend meetings especially if they are within the city.
3) Assist in programs and logistics of funeral
4) Give donations accordingly jointly with other family members and friends. (a joint responsibility)
5) Provide church facility for meetings or gathering point for planning such.
6) Provide other church facilities such as sound equipment, cars etc.

Building economic and leadership capacity

Our vision focused on raising champions and leaders we have special empowerment forums such us

- Children/ youth/ candidates career guidance
- Guidance towards excelling in examinations (candidates day).
- Education success ethics.
- Preparation to high school & university life
- Economic and investment empowerment summits.
- Guidance to business star-ups ,business plan writing and link ups/ recommendation to micro-finance
- Exhibitions for members during seminars and summits

Rejoicing with those rejoicing

We view the joy and victory of our church members as our own. Therefore we take pleasure in celebrating and rejoicing with you in occasions such as;

- Graduations
- Dedications of houses
- Car dedications
- Business dedications
- Visiting of newborn children
- Wedding anniversaries
- Birthday celebrations (the church celebrates birthdays together with those born in every particular month of the year)

➢ Gifts – we take pleasure to celebrate victory of our church members and rejoice together when they are celebrating the goodness of god with gifts in areas such us.

6) Wedding gifts from church groups and ministries.
7) Shopping's to celebrate and visit new born babies.
8) Gifts during graduations accordingly.
9) Gifts to successful candidates who pass exams to motivate as we send them to secondary schools & universities
10) When opening and dedicating houses

Building esteem and networking forums

- Outings for the he's , youth, she's champions
- Opportunity to serve in various ministries, groups and departments as per the church structure.
- Free exhibitions in our annual business and investment summits.
- International networking on business locally through internally and internationally kenya/ usa christian business network etc
- Recognition of mothers, fathers, children's day
- Exhortations during anniversary celebrations and services
- Specials songs presentations during group meetings / services
- Networking and meeting through ministry groups (He's, she's, youths, yong, ushering, outreach to schools, prisons, hospitals, worship team and choir network)
- Self building service
- Visitors new members recognition and appreciation
- Church visitors gifts books & cocktails.

Our services All services all focused towards creating an environment for jesus to build his church of champions in all areas.

Sunday services highlights

- Praise and worship
- Balanced word of god
- Healing ministration
- Deliverance ministration
- Market place empowerment
- Equipping for ministry
- Social networking
- Celebrating each other
- Time before god in prayer.
- Praying for the needs of people.
- Ministration of the sick , bound, hurting etc
- Counseling after the service (from the pastor)

Prayer plan in our sessions and centers

Prayer is the priestly ministry of every believer. Therefore prayer services are for all believers not for a "special intercessory group". Personal, family, church, national and global blessings are released through prayer.

4) Individual devotion
5) Joint & united prayer

Highlights

- Thanks giving
- Worship
- Prayers for Helpers Of Africa International Donors and partners.
- Prayers for Helpers Of Africa International 37 agencies and 77 department operations
- Spiritual warfare
- Praying for church needs (pastors , leaders, groups, revival, growth, facilities, members prosperity and needs etc)
- Praying for body of christ (other churches, ministries preachers/ programs & media, crusades, conferences etc)
- Praying for nations (peace, salvation, revival, blessing, repentance, leaders, national events & issues etc)

Holy ghost, healing and deliverance service

- Teachings on Holy Spirit, healing and deliverance.
- Exhibits on how the church should operate in power.
- Ministrations for healing & deliverance upon the sick.
- Praying for people to be filled with the Holy Spirit.

Holy Communion service > partaking of the holy communion together in remembrance and obedience. Covenant meal, release of blessings, healing, unity, favor, focus on our salvation.
Child dedication service > dedicating children to the lord.

Spiritual growth and development focus for community

Jba missions and ministry global agencyis a church that is focused to have her members mature, sober, balanced, victorious and with the right connection with god. This we achieve through

- Teaching and preaching of balanced word of god from pastors and other guest ministers
- Motivating members to live a prayerful life by granting prayer services and sessions in church.
- Providing doctrine manual.
- Motivating members to read the word.
- Motivating members to live in integrity and model lives.
- Administration of church ordinances (holy communion, water baptisms, children dedications)
- Emphasizing on a spirit filled life, led and controlled life.
- Providing an environment and guidance to prayer and worship in our services.

Groups to Be Empowered by JBA- Missions and Ministry Global Agency

The church emphasizes on networking of believers who share common interests and challenges in gender and age. These networks are very important in making friendships, sharpening each other, helping each other, and serving god together. The fellowships networks that exist include.

1) He-champions married men network---- this is a married men's fellowship network that has a vision of empowering men to be better husbands, better parents, better business men, better professionals and useful in the church and in the church and in the work of building and expanding the kingdom of god.(whether your spouse is fellowshipping with us or not)
2) She- champions ladies network---- this is a married women's fellowship network that has a vision of empowering women to be better wife's, better parents, better business men, better professionals and useful in the church and in the work of building and expanding the work of god.
3) Youth champions --- this is for those who have not married or are not married networking in various levels and age groups. (teenagers, youth and prime youth)

5) widows, widowers and single parents champions group---
All this networking groups operate under the leadership and there meetings announced through church announcements and bulletin. They all have a vision of uniting singles, organizing fun fares, educational forums, and career development forums, spiritual empowerment forums, seizing opportunities and forums of serving god together and marriage preparation forums for the prime singles club.

Jba – missions and ministry global agency family Personal development
Jba missions and ministry global agencyseeks to raise champions and create an empowerment forum for people to develop and fulfill their dreams and visions as you develop the church. This is done through.

- Motivational and empowerment seminars to business, employment and career discovery and development.
- Educational tours to development sites, towns, nations and exhibitions.
- Personalized counseling forums on all issues of life.
- Empowerment training through teaching and preaching
- Practical guidance on how to undertake projects and tasks (construction consultancy, business training consultancy, proposal writing, building plans, investment consultancy, career orientation programs, professional development forums etc
- Guidance in all life issues family life, parenting, career, finances, handling crises.

Ministry devlopment
The pastors of this church are all graduates of school of ministry and mentors in ministry development and the senior pastor has mentored through various schools over 1000 ministers who include pastors, evangelists, missionaries who are impacting the world therefore anybody with a calling to serve god is in the right environment and mentorship. This is achieved through

- Exposure to minister through church departments and ministries.
- Ministerial training through leadership forums
- Guidance , counseling and motivation towards further training in schools of ministry
- Exposure through outside missions to schools, colleges, universities, hospitals, prisons, slums, and other elite and other nations.

Family empowerment At jba missions and ministry global agency we value families as the base that full enjoyment and purposes is drawn. Our focus is that every member of the church enjoys family life. This is achieved through

> counseling sessions available with the pastor as you book appointments.

- Training and outing sessions for couples with family in hotels and retreat centers for marriage building lessons, exercises, disciplines etc
- Model life of pastors and leaders of the church.
- Mentorship through home visitations in times of celebrating birth of children etc
- Strong and intense foundational teaching for those entering in marriage through 21 relevant topics on marriage to facilitate good beginning.
- Certification of existing marriages to give them a good legal and social base.
- Fun and sports days for families.
- Prayers for families during our church prayer meetings and other meetings.
- Networking and therapy outings (goat eatings " nyama choma outings, team building exercises and sports, motor sports)
- Attending and presenting good moral movies with good family virtues, education and fun in our facility and other places.
- Domestic tours to prominent parks, wildlife sites, orphanages, museums and sites in kenya and abroad eg israel and other countries to enjoy life
- Hosting regular investment seminars and summits for family investment packages.

Youth empowerment At jba missions and ministry global agency we value families as the base that full enjoyment and purposes is drawn. Our focus is that every member of the church enjoys family life. This is achieved through

Counseling sessions available with the pastor as you book appointments.

- Training and outing sessions for youth in hotels and retreat centers for marriage building lessons, exercises, disciplines etc.
- Mentorship through home visitations in times of celebrating birth of children etc
- Strong and intense foundational teaching for those entering in marriage through 21 relevant topics on marriage to facilitate good beginning.
- Fun and sports days for families.
- Prayers for personal development and future aspirations.
- Networking and therapy outings
- Attending and presenting good moral movies with good family start up, healthy courtships, education and fun in our facility and other places.
- Domestic tours to prominent parks, wildlife sites, orphanages, museums and sites in kenya and abroad eg israel and other countries to have fun and enjoy life.
- Investment seminars and summits for investment packages.
- Ministerial services that offer networking and stewardship in cleaning church and seats, setting banners, sound systems, ushering and protocol, parking management, security.
- Networking and empowerment service in the morning on sunday before main services.
- We provide a strong foundation through guidance and teaching to marriage life.

Children empowerment (young champions)

- Dedication ceremonies and certification for children.
- Sunday school special lessons, videos during service time and other organized sessions.
- Special prayers for them during services.
- Special spiritual, academic, entertainment, networking, education and career/ talent development sessions during holidays.
- Outings and games days (weekends & holidays).
- Educational and entertainment tours during sunday services.
- Access to counseling from pastors, other parents and church leaders on morality, career etc (at request and during holiday special sessions)

Families Empowerment and Unions for Youth - At jba missions and ministry global agency weddings are taken with Esteem and value. We believe good start in marriage is very important. We take time to ensure that those entering in marriage are well prepared and are supported through various ways.

- Officiating – jba missions and ministry global agency has a legal license for its ministers to officiate weddings and has certificates from the government to issue on satisfaction that all needs are met
- .as part of church support we pay for the certificates for those who are wedding.
- We have a beautiful facility to conduct weddings; members of the church are privileged to use it with no charges. This venue can be used for both the service and reception.
- Praise, worship and music back up during the wedding.
- Ushering services through the youth , committee department and church ushers.
- Bridal showers through she – champions for both home start up facilities gifts and counsel.
- Groom mentorship from the he – champions for both counseling and gifts.

Free counseling lessons for Community Youth on Family Life

Such activities can also involve the whole church.
Media department	➢ To keep, set-up, and maintain all church electronic equipments sound system, cameras etc ➢ Production of tapes, cds, d.v.ds, videography, photography and maintaining records of the same.

Leadership Ethics For All Jesus Breakthrough Assembly Leaders

Available and accessible to listen and serve the people gladly and with devotion

1) Integrity in holiness, speech, honesty, keeping time, keeping your word.
2) Not hungry for money – no leader should take advantage of members in borrowing money and everybody should plan well and work hard and eat their own bread. 2 thess
3) Submissive to authorities—rebellion is as the sin of witchcraft and witchcraft is not entertained in church. Leaders lead others to submit to obey and not to disobey.
4) Leading by example in all areas – commitment, keeping time, giving, prayer, knowledge, wisdom, spirit filled life,
5) Love and serve the people.

Maintaining our greatest strength "unity" forstering it in the community and nation

Ethics of relating with other members in the communities and nations forstering peace building

- Love one another (john 13:34-35; john 15:12,17; 1 thes 3:3:12; thes.4:9; 1pet 1:22;1john3:18;1john4:7, 11-12)
- Encourage one another (1thes.4:18;heb.3:13;heb.10:25)
- Stir up one another on towards love and good deeds (heb 10:24)
- Build one another up (1thes. 5:11)
- Edify one another (rom 14:19)
- Admonish one another (col. 3:16)
- Instruct one another (rom 15:14)
- Serve one another gal 5:13; 1peter4:10
- Bear with one another (eph 4:2; col l3:13)
- Forgive one another (eph 4:32; col 3:13)
- Be kind to one another eph 4:32)
- Be compassionate to one another (eph 4:32; 1pet3:8)
- Be devoted to one another (rom 12:10)
- Honour one another (rom. 12:10)
- Live in harmony with one another(rom. 12:16;1pet3:8)
- Be sympathetic with one another(1pt 3:8)
- Be gentle with one another (eph.4:2;1pt3:8)
- Be patient with one another (eph.4:2)
- Accept one another (rom. 15:7)
- Submit to one another (eph5:21)
- Clothe yourselves with humility towards one another (eph4:2;1pt5:5)
- Teach one another (col.3:16)
- Live at peace with one another (mark 9:50; rom.12:18)
- Confess your sins to one another (james 5:16)
- Pray for one another (jam 5:16)
- Offer hospitality to one another (1pet 4:9)
- Greet one another (rom 16:16; 1pet 5:14)
- Have fellowship with one another (1john 1:7)

- Agree with one another (1cor 1:10), Carry one another's burdens (gal6:2)

Peace building and Conflict Resolution in Communities and Nation Capacity building using biblical teachings

- Do not backbite or devour one another (gal 5:15)
- Do not provoke or envy one another (gal 5:26)
- Do not hate one another (tit 3:3)
- Do not judge one another (rom.14:13)
- Do not lie to one another (col 3:9)
- Do not slander or speak evil about one another (jam4:11)
- Do not grumble against one another (jam5:9)
- Do not go to the law against one another (1cor.6:1-8)
- Do not defile yourself or disobey god
- (the whole body suffers and penalized for the disobedience of one sin of achan)
- ➢ do not live a life of shame, strife and disgrace in the family, community and work place you bring us all into that disaster and christ himself

Keep off from some of the things that destroy fellowship, unity and teamwork in church

- A competitive or a comparative spirit (matthew 18:1-4)
- A dictatorial spirit, or lordship(1peter 5:1-5; matthew23:11)
- A proud self-exalting spirit (luke 22:24) that bring strife. Pride brings contention (proverbs 13:10)
- Party spirit (1corinthians 1:10)
- A diotrephes spirit loving the pre-eminence (111john 9,10). The fruit of such is evil deeds, malicious spirit, rejection of others, forbidding fellowship and excommunicating others
- Lack of communication
- Lack of transparency, dishonesty with each other cf. (ephesians 5:8-14) light.
- Lack of divine love
- Lack of tolerance. Cf. The twelve apostles.
- Lack of forgiving spirit (ephesians 4:32; matthew 18:21,22)
- Lack of spiritual maturity; carnality manifested (1corinthians 3:1-4)
- Lack of true humility (matthew 18:1-4; mark 9:33-37)
- Lack of wisdom, doing a thing the right way, time, place, words.
- Lack of submissive, servant spirit (1peter 5:3; mark 10:42-45; 1kings 12:7-11)
- Lack of confidence in each other (philippians 4:13)
- Lack of concentration or wrong priorities (matthew 6:33)
- Lack of organization in the team; misdirected efforts.
- Lack of spiritual concern for others (matthew 23)
- Lack of knowledge (hosea 4:6; proverbs 3)
- Lack of mutual respect for each other (ephesians 5:29,30)
- Lack of co-operative efforts
- Lack of appreciation for one another; taking one another for granted
- Lack of maintaining vision (proverbs 29:18)
- Lack of involvement in the work (haggai 1:4)

- Lack of pure motive. Beware of judas or simony spirit (1timothy 6)
- Lack of teachable spirit; leaning to own understanding

Summary of the importance, blessing and benefit of covenant membership

The blessings and benefits of being part of us in both the main church and zonal fellowships

Jba missions and ministry global agency church will create a forum for you to have friendship and fellowship with those who are saved like you. You will have good friends to encourage you at all times (acts 2:42)

1) Jba missions and ministry global agency church will create another opportunity for you to praise and worship god together with others for your blessings (god inhabits in the praises and worship of his people)
2) Jba missions and ministry global agency church will create opportunity for prayer and joining together with others to pray for your needs (acts 12:5-14, acts 4) disciples prayed for peter in the house of mary)
3) Jba missions and ministry global agency church will create network for you to be known to us closely forming a base to recommend or give a report about you when required by the church, employees, government (incase of visas, passports employments letters, bursaries, business contracts, hospitals e.t.c. (acts 6:3)
4) Jba missions and ministry global agency church will create opportunities for you to discover and grow in serving god through gifts, talents and responsibilities because of the many aspects of ministry that exist in its operations. (evangelism, follow up, singing, preaching/teaching etc such opportunities will always come up.) This will also facilitate the giving of recommendation for further ministry (acts 13:1-5)
5) Jba missions and ministry global agency church will build a good base in showing you god's love and care in the time of need through prayer and sharing of material things in the fellowship of the saints(acts 4:33-34, acts 6:1-7)
6) Jba missions and ministry global agency church will create a forum for us to minister governmental, social and spiritual responsibilities (e.g weddings, burials, baptisms, counseling) ex 18:1-27 just like the children of israel under moses, were administered in groups of 50s, 100s, 1000s and had leaders over them for fast and effective ministry.
7) Jba missions and ministry global agency church will create a forum for discipleship through close encouragement from the mature believers and also through the teaching of the word/bible study. (matthew 28:19-20)
8) Jba missions and ministry global agency church will create opportunity to worship god through our substance through giving of tithes and offerings. The more you sow the more you reap and the more you are blessed (mal 3:10)
9) Jba missions and ministry global agency church will create an opportunity for you to do good and become a blessing to others emotionally, spiritually and physically (gal 6:9 as you have opportunity do good to all especially to the brethren)
10) Jba missions and ministry global agency church will create a network that will facilitate your protection spiritually and physically because of the unity of the brethren in prayers and accountability. (eccl4:8 two are better than one)
11) Jba missions and ministry global agency church will create an opportunity for you to be guided and counseled in all aspects relating to life through the leaders and for further counseling by the pastor.
12) Jba missions and ministry global agency church will create an opportunity for you to eat together and share the joy of the lord. (acts 2:42-47)
13) Jba missions and ministry global agency church will give you access to a leader at all times near you who can attend to your need and who can also communicate to the pastor where necessary just like the 70 elders assisted in meeting the needs and judging the people under moses, only difficulty matters reached moses and the people were satisfied.
14) Jba missions and ministry global agency church will enable you to be a daily worshipper to gather daily just like the early church who were not sunday worshippers but gathered daily (acts 2:42-47) do not forsake the gathering of saints.
15) Jba missions and ministry global agency church will create for you an environment for you to serve thus facilitating the work of god to progress as we serve god in evangelism, prayer, follow-up in building the kingdom just like nehemiah built the wall in families spread along it given specific responsibilities.

16) You will be perfected and made complete through the unity of the church since you are a member of the body and it is only through unity that you will be made complete to function as a complete unit (1cor12:12-14)

Practical services- These are supportive ministries which refer to those who give themselves unselfishly in serving others, performing physical tasks in the church. This includes cleaning and preparing the sanitary or meeting grounds, ushering, taking care of gardens advertising meetings, assisting in transportation or ministry material where necessary. In the early church this ministry was with phoebe, priscilla and aquilla (rom 15:1-4) "we then who are strong ought to bear with the scruples of the weak, and not to please ourselves. {2} let each of us please his neighbor for his good, leading to edification. {3} for even christ did not please himself; but as it is written, "the reproaches of those who reproached you fell on me." {4} for whatever things were written before were written for our learning, that we through the patience and comfort of the scriptures might have hope."

This level of ministry does not require skills or preparation. It just requires us to be available to serve go with our strength.

Exhortation- Special inspiration speech in wisdom, knowledge and presentation of the councils of god to lowly spirit to bring life to a believer upon the will of god. This ability is applied in counseling, follow-up of new believers and it easily confused with pastoral call. In the early church this ministry was effective in barnabas life.

Praise and worship- Special ability upon a believer through the natural talent to minister in singing, praise and worship in the church. It is revealed in different levels basically leading worship in church or ministry meetings, leading or being in a choir, playing different kinds of instruments, composing hymns and songs or any other aspect of worship in the church. It is important to realize that worship is not for special people but for all just like praying.

Giving- God has given certain members of the body of christ special abilities that enable them to minister in giving without limitation. This does not exclude the other people from giving. Giving of tithes and offering is for all believers yet in special way god has blessed people and given divine ability or grace of giving to give to the work of the ministry. This ministry was operating in cornelius and barnabas in the early church. (acts 10:1-2) "there was a certain man in caesarea called cornelius, a centurion of what was called the italian regiment, {2} a devout man and one who feared god with all his household, who gave alms generously to the people, and prayed to god always." (acts 4:36-37) "and joses, who was also named barnabas by the apostles (which is translated son of encouragement), a levite of the country of cyprus, {37} having land, sold it, and brought the money and laid it at the apostles' feet."

Supporting the minister of the gospel and their ministries in giving finances, house, cars, land, equipment and other physical facilities for building the kingdom of god.

Showing Mercy- This refers to those members within the body whose ministry is showing acts of mercy towards the poor, sick and suffering, this is revealed through visiting the sick in hospitals, children homes, streets, slums, refugee camps, special schools, prisons and to minister to the needy both physically and spiritually. Any act of mercy without evangelism is incomplete because it does not affect the spiritual status of the people, the church is not only a physical structure but also a spiritual structure. In the early church this ability was with dorcas. This also does not exclude the other part of the body of christ but is a general call to meet the needs of others.

Being a witness for jesus

This is a call for every believer in the body of christ to share the gospel to all and make disciples. We preach by sharing our testimony, preaching the word of god, by our lifestyle and by giving. (mat 28:19-20) ""go therefore and make disciples of all the nations, baptizing them in the name of the father and of the son and of the holy spirit, {20} "teaching them to observe all things that i have commanded you; and lo, i am with you always, even to the end of the age." amen."

Ministry of hospitality

This refers to the ministry god has given to believers to open up their homes and provide lodging for the saints and homeless. This includes ministering to the physical needs of saints at different times of the ministry. This includes providing transport for missionaries, ministers and equipment. This ministry was with mary magdalene. (mat 27:55-56) "and many women who followed jesus from galilee, ministering to him, were there looking on from afar, {56} among whom were mary magdalene, mary the mother of james and joses, and the mother of zebedee's sons."

In the ministry of jesus and lydia in the early church.

Leadership administration
This refers to those that have special abilities of leading people in small units within a ministry. This may not be bearers of any office in the fivefold offices but they have supportive role in different groups which may include home bible churches (home call), Christian union leadership, deacons, elders, youth group leaders , choir leaders worship leaders, administrators and other supportive responsibilities in local church or ministry. In the early church, peter ordered the selection of seven men of good report would oversee the physical responsibilities in the church as the apostle concentrate on prayer and word, stephen and philip among others were chosen who later became mighty witnesses for christ through the co-operate anointing in the early church.

Those that are called to leadership in supportive activities should not operate independently but should support and submit to the vision supreme leadership who are vision carriers. Those that have the gift of leadership have a great temptation to being misplaced by aspiring to occupy an office in the fivefold ministry. Such people cannot succeed alone because they measure of grace in the gift of leadership is less than those that are called to minister in fivefold offices. I have met associate pastors and evangelists supporting a man of god in office who are doing very well at that level, but cannot be able to hold the full responsibility of the entire office demands. However, those in leadership in this level being faithful and submissive are mostly lifted to be vision bearers in the offices through discipleship and impartation by the men of god they are serving in the fullness of time.
Community Special and Life Skills
The physical skills are also needed in building up the kingdom of god on earth which comes up with physical and spiritual aspects. These special skills may be developed or acquired through schools or may be inborn talents that need to be recognized and utilized.
Professional abilities
Secretaries, acountants, caretakers, gardeners, cleaners, editors, engineers (building media) technicians, interpretors, drivers, cooks (chefs), administrators, auditors, clerks, teachers, and other related activities that support the ministry. In the time of moses, god required the people to serve in the building of the tabernacle with their skills.
Natural talents
Music, drama. These are very important supportive services in the house of god and those who are called to serve in this level should also count themselves not as just mere workers but should recognize they are servants of god. Anointing is needed to be able to serve in this capacities of appointment of this group of people should not be overlooked because they can contribute to the success or failure of a ministry as partners. The devil has destroyed many ministries through casual employees who are not called to be partners in the work of god especially those who are not saved or lukewarm christians. Many people called to serve in this level feel worthless and aspire to do other things because of ignorance of the importance of these activities. Many faithful workers at this level end up flowing in a high ministering anointing and they can carry on with both placements.

Helpers Of Africa International

Dr Luke Foundation

Strategic Plan 2020 to 2050

Mission:

A Refreshed & Empowered World

Dr Luke Foundation is Family and Christian based as a legacy organization to the good will of the founder of Helpers Of Africa International that will be funded by Community Social Responsibility fund of 7% of Helpers Of Africa International and other charity donations from individuals, organizations, international development agencies along with all like-minded private stakeholders Christian organization providing spiritual and physical aid to hurting people around the world. We shall seek by the grace of God and His help to meet needs of Charity, Empowerment and Development with a humanitarian focus to help people who are victims of war, poverty, natural disasters, disease, and famine with the purpose of sharing God's love through His Son, Jesus Christ. The organization will serves the Church and global citizens worldwide to promote the Gospel of the Lord Jesus Christ. Dr Luke Foundation will do our utmost to follow Christ's command by going to the aid of the world's poor, sick, and suffering. They are an effective means of reaching hurting people in countries around the world with food, medicine, shelter, emergency help and other assistances in the Name of Jesus Christ. This, in turn, earns us a hearing for the Gospel, the Good News of eternal life through Jesus Christ. Through our emergency relief programs provide desperately needed assistance to victims of natural disaster, war, disease, and famine. As we offer food, water, clothing, temporary and permanent shelter the people need to meet critical needs and give people a chance to rebuild their lives. This foundation will also will run businesses in many sectors and income projects and programs to sustain it Charity, Empowerment and development such us schools, hospitals, companies, real estate, mining and oil, airline, industries, manufacturing , banking and finance, technology among many others. We shall seek to empower the Job seekers through entrepreneurship training and financing through repayable loans to sustain livelihood beyond charity for sustainability of communities, churches, religious institutions. Our community development and vocational programs will reach the impoverished people in the villages and neighborhoods help people break the cycle of poverty and give them hope for a better tomorrow. We shall seek to lift the lives of Orphans, vulnerable children, widows, elderly through educational, feeding, clothing, and shelter programs that let them know they are not forgotten. They also provide first-class treatment in the Name of the Great Physician through medical projects, as well as supplying mission hospitals with much needed equipment and supplies. As Helpers Of Africa International engages with Nations and countries on bigger scale Dr Luke Foundation, JBA-Helpers Of Africa International and JBA Missions and Ministries will engage at community, faith based, private institution levels in different locations and scopes they will coordinate the small and middle level engagements on Charity , Empowerment and Development through the projects, areas of focus , objectives and programs highlighted as follows.

1. Dr Luke Foundation will engage and fund projects, objectives and programs in the areas of aiding people who are suffering as victims of armed conflict, famines, and natural disasters both in relief and settling.

WE INVITE YOU TO SUPPORT DR LUKE FOUNDATION TO HONOR THE FOUNDERS LEGACY

"There is no exercise better for the heart than reaching down and lifting people up." — John Holmes
"You give but little when you give of your possessions. It is when you give of yourself that you truly give." — Kahlil Gibran, the Prophet
"Generosity is giving more than you can, and pride is taking less than you need." "You have not lived today until you have done something for someone who can never repay you." — John Bunyan
"The most truly generous persons are those who give silently without hope of praise or reward." — Carol Ryrie Brink, Caddie Woodlawn's
"A kind gesture can reach a wound that only compassion can heal." — Steve Maraboli, Life, the Truth, and Being Free
"Give a bowl of rice to a man and you will feed him for a day. Teach him how to grow his own rice and you will save his life." — Confucius
"That's what I consider true generosity: You give your all, and yet you always feel as if it costs you nothing." — Simone de Beauvoir
"When will our consciences grow so tender that we will act to prevent human misery rather than avenge it?" — Eleanor Roosevelt
"I care not for a man's religion whose dog and cat are not the better for it." — Abraham Lincoln
"For it is in giving that we receive." — Francis of Assisi
"Give what you have. To someone, it may be better than you dare to think." — Henry Wadsworth Longfellow
"Generosity is not in giving me that which I need more than you do, but it is in giving me that which you need more than I do." — Kahlil Gibran, Sand and Foam
"Do not neglect to show hospitality to strangers, for by doing that some have entertained angels without knowing it." — Hebrews 13.2
"Be practical as well as generous in your ideals. Keep your eyes on the stars, but remember to keep your feet on the ground." — Theodore Roosevelt
"Silence the angry man with love. Silence the ill-natured man with kindness. Silence the miser with generosity. Silence the liar with truth." — Gautama Buddha
"Every sunrise is an invitation for us to arise and brighten someone's day." — Richelle E. Goodrich, Smile Anyway
"I come in a world of iron...to make a world of gold" — Dale Wasserman, Man of La Mancha
"You make all kinds of mistakes, but as long as you are generous and true and also fierce, you cannot hurt the world or even seriously distress her." — Winston S. Churchill
"You can't live a perfect day without doing something for someone who will never be able to repay you." — Debbie Macomber,
"But I give best when I give from that deeper place; when I give simply, freely and generously, and sometimes for no particular reason. I give best when I give from my heart." — Steve Goodier
"[Giving yourself some loving attention is not selfish. It is sensible. If you feel loved and cherished--even if it is only by yourself--then you will have more love to give to others, too. (83)" — Penelope Quest,
"If truth doesn't set you free, generosity of spirit will." — Katerina Stoykova Klemer
"Generosity is the most natural outward expression of an inner attitude of compassion and loving-kindness." — Dalai Lama XIV
"When it comes to giving, some people stop at nothing." — Vernon McLellan
"Generosity needs no logrolling." — Toba Beta, My Ancestor Was an Ancient Astronaut
"Be generous with your kindness, with your love" — Akiroq Brost
"Happiness is the ultimate inner experience of living with generosity, love, kindness, compassion, and gratitude." — Debasish Mridha
"Your wealth is measured by your ability to give not your ability to receive." — Avina Celeste
Here's where the real power of generosity comes in. Often, the more we give, the more we receive. Author: Debbie Macomber
Cultivating the habit of good deeds will not only affect those around us, it will improve our own emotional well being. Author: Debbie Macomber

BIBILICAL BLESSINGS AND COMMANDS FOR SUPPORTING THE NEEDY & THE VULNERABLE

- *God created man to care in Eden; we need to care for others and the environment.*

- *"Giving frees us from the familiar territory of our own needs by opening our mind to the unexplained worlds occupied by the needs of others." -Barbara Bush*
- *"Remember that there is no happiness in having or in getting, but only in giving. Reach out. Share. Smile. Hug. Happiness is a perfume you cannot pour on others without getting a few drops on yourself." -Og Mandino*
- *"Give what you have. To someone, it may be better than you dare to think. -Henry Wadsworth Longfellow*
- *"Minds, nevertheless, are not conquered by arms, but by love and generosity." -Baruch Spinoza*
- *"Real generosity toward the future lies in giving all to the present."- Albert Camus*
- *"The best way to find yourself, is to lose yourself in the service of others." -Mahatma Gandhi*
- *"The wise man does not lay up his own treasures. The more he gives to others, the more he has for his own."- Lao Tzu*
- *"True generosity is too frequently eaten up by prosperity and riches." -Ellen G. White*
- *"Humanity is the virtue of a woman, generosity that of a man." -Adam Smith*
- *"Generosity is not giving me that which I need that you do, but it is giving me that which you need more that I do." Kahlil Gibran*

- *"We should give as we would receive, cheerfully, quickly, and without hesitation; for there is no grace in a benefit that sticks to the fingers." -Seneca*
- *"Listen with regard when others talk. Give your time and energy to others; let others have their own way; do things for reasons other than furthering your own needs." -Larry Scherwitz*
- *"Unless we think of others and do something for them, we miss one of the greatest sources of happiness."-Ray Lyman Wilbur*
- *"Generosity could be as contagious as the zombie plague as long as enough people were willing to be carriers- Jonathan Maberry*
- *"It takes generosity to discover the whole through others. If you realize you are only a violin, you can open yourself up to the world by playing your role in the concert. -Jacques-Yves Cousteau*
- *"Being generous often consists of simply extending a hand. That's hard to do if you are grasping tightly to your righteousness, your belief system, your superiority, your assumptions about others, your definition of normal. -Patti Digh*
- *"Sometimes when we are generous in small, barely detectable ways it can change someone else's life forever- Margaret Cho*
- *"What we have done for ourselves alone dies with us; what we have done for others and the world remains and is immortal. -Albert Pike*
- *"He who cannot give anything away cannot feel anything either. -Friedrich Nietzsche*
- *"Be generous with kindly words, especially about those who are absent.- Johann Wolfgang von Goethe*
- *"Every man must decide whether he will walk in the light of creative altruism or in the darkness of destructive selfishness. -Martin Luther King, Jr.*
- *"Generosity consists not the sum given, but the manner in which it is bestowed -Anonymous*
- *"One would give generous alms if one had the eyes to see the beauty of a cupped receiving hand- Johann Wolfgang von Goethe*
- *"Many men have been capable of doing a wise thing, more a cunning thing, but very few a generous thing -Alexander Pope*
- *"It is through generous giving, that we affirm before the world, our nation's faith in the inalienable right of every man, to a life of freedom, justice and security. -Harry S. Truman*
- *"Giving is God's way. It is the way that I now understand is the truth of the Universe. Giving multiplies me and makes me feel complete and fulfilled. Giving makes me feel that I make a real and important difference. -Mark Victor Hansen and Robert G. Allen*
- *"Too many have dispensed with generosity in order to practice charity-Albert Camus*
- *"It is a powerful practice to be generous when you are the one feeling in need- Allan Lokos*
- *"As desire abates, generosity is born. When we are connected and present, what else is there to do but give? -Jack Kornfield*
- *"Generosity during life is a very different thing from generosity in the hour of death; one proceeds from genuine liberality and benevolence, the other from pride or fear. -Horace Mann*
- *"Never measure your generosity by what you give, but rather by what you have left behind. -Bishop Fulton J. Shee*
- *"Generosity is the flower of justice. -Nathaniel Hawthorne*
- *"The most powerful thought is a prayerful thought. When I'm praying for you, I am praying for my own peace of mind. I can only have for myself what I am willing to wish for you." -Marianne Williamson*
- *"People can copy anything; your mode of dressing, the way you talk, walk, dance, sing, cry, but they will find it very hard to imitate the way you donate money."- Michael Bassey Johnson*
- *"Generous leaders are servant leaders. They always come with open hands and an open heart." Farshad Asl, The "No Excuses" Mindset: A Life of Purpose, Passion, and Clarity*
- *"The heart is a generous muscle." -Sharon Salzberg, Real Love: The Art of Mindful Connection*
- *"If you're in a position to lift someone off the ground; Say nothing about what it cost you to Don't remind them that they were once on the ground. Don't be the one to take them back to the ground" -Chinonye J. Chidolue*

- *"One of the effects of the gospel going deeper into our souls is that it frees our fingers to loosen their grasp on our goods." -David Mathis,*
- *"He who is not liberal with what he has, does but deceive himself when he thinks he would be liberal if he had more" William Swan -Plumer*
- *"If we stretch ourselves to open our minds, to see our shared humanity with others, we allow ourselves to see the existence of community and generosity in unexpected places." -Sharon Salzberg, Real Love: The Art of Mindful Connection*
- *"If we have nothing material to give, we can offer our attention, our energy, our appreciation. The world needs us. It doesn't deplete us to give." -Sharon Salzberg,*
- *"Love is defined by difficult acts of human compassion & generosity." -Sharon Salzberg, Real Love: The Art of Mindful Connection*
- *"Sacrifice" and "self" both begin with the same letter, but the spelling is way different after that." -Craig D. Lounsbrough*
- *"God commands both individuals and the society in which they live to be generous and always take care of the poor. In such a community, shalom has a chance to thrive. In such a community, God will actually be glad to assign his name and dwell." - Randy S. Woodley*
- *"Remember to be your brother's keeper Always" - Ernest Agyemang Yeboah*
- *"I am selfish by habit, but sacrificial by nature. Therefore, I'd be wise to develop the habit of following my nature." Craig D. Lounsbrough*
- *"I don't play head games... I come from a family that could easily be called Generous to a fault." -Genereux Philip*
- *"Generous leaders have faith in others to succeed. In turn, they receive tenfold loyalty, commitment, and a positive outcome." Farshad Asl, The "No Excuses" Mindset: A Life of Purpose, Passion, and Clarity*
- *"If you are truly concerned about helping people and creating value for them in your business and life. God will take care of you, and the universe will reward you." Bernard Kelvin Clive*
- *"Give to others whatever you need to receive. At the very least, you'll be making the world a better place for whoever you grace with your gifts. I bet that will feel wonderful and fill your heart. A full and rich heart will cure almost anything." -Akiroq Brost*
- *Never worry about numbers. Help one person at a time and always start with the person nearest you. Mother Teresa*
- *The poor are great! The poor are wonderful! The poor are very generous! They give us much more than what we give them. Mother Teresa*
- *Kind words can be short and easy to speak, but their echoes are truly endless. -Mother Teresa*
- *If you can't feed a hundred people, then feed just one.-Mother Teresa*
- *Give your hands to serve and your hearts to love. -Mother Teresa*
- *Riches, both material and spiritual, can choke you if you do not use them fairly. For not even God can put anything in a heart that is already full- Mother Teresa*
- *"The Dead Sea in the Middle East receives fresh water, but it has no outlet, so it doesn't pass the water out. It receives beautiful water from the rivers, and the water goes dank. I mean, it just goes bad. And that's why it is the Dead Sea. It receives and does not give. In the end generosity is the best way of becoming more, more, and more joyful." -Desmond Tutu,*
- *"Stars shine even for those who refuse to look up." --Matshona Dhliwayo*
- *"If I am not touching a life, I am not touching life." - Craig D. Lounsbrough*
- *"...The happy Warrior... is the generous Spirit, who, when brought among the tasks of real life, hath wrought upon the plan that pleased his boyish thought: whose high endeavors are an inward light that makes the path before him always bright." William Wordsworth,*

- *"The greatest dividends in life are those that we give away." - Craig D. Lounsbrough*
- *"If sacrifice is not the theme of my life, there's no sense telling the story." - Craig D. Lounsbrough*
- *"To calculate sacrifice is to attempt to sacrifice safely, and safe sacrifice is one of the most outrageous oxymoron's I can think of." Craig D. Lounsbrough*
- *"Abundance in life comes from generosity."- Debasish Mridha*
- *"Humility, gratitude, and generosity – three things you can never go wrong with." Kevin J. Donaldson*
- *"Generosity is a strength, not a weakness." -Farshad Asl,*
- *"Society's collective fear of love must be faced if we are to lay claim to a love ethic that can inspire us and give us the courage to make necessary changes." - bell hooks,*
- *"Generosity does not come from wealth. Wealth comes from the flowers of Generosity." -Debasish Mridha*
- *"It's important that the satisfaction of our giving be our giving." -Kelly Corbet,*
- *"Abundance of life does not come from having a great job. Abundance comes from generosity." --Debasish Mridha*
- *"My reason to live is to love, my reason to get is to give. - The Lord is my witness." -Nurudeen Ushawu*
- *"When you begin to overlook the routine act of kindness given by a generous & caring soul, you unwittingly halt your blessings" -Bernard Kelvin Clive*
- *"I cannot live my life striving only for my own security, I can only feel secure when I see myself useful in other people's life." -Nurudeen Ushawu*
- *"The Bible consistently and directly indicates that when we give generously, we're serving, honoring, and glorifying God. After all, generosity is fundamental to God's nature." - Craig Groeschel,*
- *"We can give away all that He entrusts to us in the same spirit of generosity." -Craig Groeschel,*
- *"No amount of money can fill your heart up with what kindness and compassion can."- Eileen Anglin*
- *"Creative people depend on the generosity and graces of strangers." -Wayne Gerard Trotman*
- *"Giving when you can is generosity, Giving when you can't is sacrifice." -J.R. Rim*
- *"Generosity opens the windows of heavenly blessings." -Lailah Gifty Akita*
- *"You will only have what you give away." -Debasish Mridha*
- *"Generous people are likely to receive more respect from their peers." -Arthur P. Ciaramicoli,*
- *"The Universe blesses a generous heart." -Eileen Anglin*
- *"I love the tranquility, serenity, generosity, and the beauty of the ocean." -Debasish Mridha*
- *"We appreciate things not for their beauty but for how they kindle our minds' generosity." -Debasish Mridha*
- *"Quality depends on kindness. Beauty depends on simplicity. Joy depends on generosity."- Debasish Mridha*
- *"Good deeds are seeds of generosity." -Lailah Gifty Akita,*

- *"If you want to live forever, give yourself away for others." -Debasish Mridha*
- *"He who accumulates has little. He who gives away has much." -Debasish Mridha*
- *"Generosity is love." -Lailah Gifty Akita*
- *"To give to others is but sowing seed for ourselves." Charles Haddon Spurgeon,*
- *"May we find more grace to do good deeds." -Lailah Gifty Akita*
- *"Generosity is also marked by doing what one says one will do. Saadi teaches: 'when the generous promise, they perform" Idries Shah,*
- *"He that enjoys the ocean may rejoice, though some drugs may be taken from him." -Charles Haddon Spurgeon,*
- *"Even Karma rewards generosity. The good that you do must surely catch up with you!"- Chinonye J. Chidolue*
- *"Every gift you give, will multiply a hundred-fold." -Lailah Gifty Akita,*
- *"The only wealth that mattered was affinity and generosity. Affinity towards oneself and generosity towards the world itself." Soroosh Shahrivar,*
- *"Love is an active word."- Lailah Gifty Akita,*
- *"Show your compassion to people in their life time; no amount of your tears can serve as compensation when their coffins are lowered!"- Israel more Ayivor,*
- *"I have noticed that most times, the least that you give out is the best that someone really needs. So, don't always wait till you have something big to give before you do so! Someone's "big" is your "little"!" - Israel more Ayivor,*
- *"Generosity is a mark of bravery, so all Sioux boys were taught to be generous." -Luther Standing Bear,*
- *"True kindness is not necessarily giving something to someone who is down, but showing them that they still have something to give to get back up." - Charles F. Glassman,*
- *"Give today to get better tomorrow." -Ashish Patel*
- *"The rule for J.O.Y is Jesus, Others and You. You can't have a perfect joy if all you think about is about how to groom your life!" -Israelmore Ayivor,*
- *"When we face death with hope, we can live life with generosity." -Henri J.M. Nouwen*
- *"A man cannot own more than his heart can love." -Gabriele Corno*
- *"The giver is always worth more than the gift." - Matshona Dhliwayo*
- *"There aren't nearly enough worldly mansions for the kind folks who deserve them." -Bryant A. Loney,*
- *"It's not the depth of your intellect that will comfort you or transform your world. Only the richness of your heart and your generosity of spirit can do that" -Rasheed Ogunlaru*
- *"Give thanks to the earth for the hospitality and generosity Show gratitude for life, light and every little beauty."- Debasish Mridha*
- *"Greed harms you: generosity helps you. This is why it has been said:- Greed is the mother of incapacity'." Idries Shah, Learning How to Learn: Psychology and Spirituality in the Sufi Way*
- *"The best things to do with the best things in life is to give them away." -Dorothy Day*

THE ATITUDES AND GUIDELINES OF GIVING TO GOD THROUGH HUMANITY. (Principles of giving)

- *The principles of giving are seen in this reference:*
- *Give ourselves to the lord first (2 Corinthians 8:5)*
- *Give willingly (2 Corinthians 8:3, 12). Also (Exodus 25:2, 1Chronicles 29:9)*
- *Give hilariously, cheerfully (2 Corinthians 9:7)*
- *Give liberally (2Corinthains 8:2; 9:13). Also (James 1:5)*
- *Give proportionately (2 Corinthians 9:6; 8:14-15)*
- *Give regularly (1Corinthians 16:1-2)*
- *Give systematically (2 Corinthians 9:7)*
- *Give lovingly (2 Corinthians 8:24)*
- *Give thankfully (2 Corinthians 8:24)*
- *Give as a ministry to the lord and his saints (2 Corinthians 9:11, 12, 13)*
- *Give according to ability (Deuteronomy 16:17; Ezra 2:69; Acts 11:29; 2 Corinthians 8:12)*
- *Give as sowing the seed of faith (Galatians 6:7; proverbs 11:24; Jeremiah 48:10)*
- *Give with simplicity (Romans 12:8).*
- *Give freely as you have received (Matthew 10:8)*
- *Give as to the lord, not unto man (Matthew 6:3,33)*
    - *16. Willingly (1 Chronicles 29:3, 5, 9)*
- *Sacrificially (Luke 21:1-4)*
- *Joyfully (2 Corinthians 9:7)*
- *Obediently (2 Corinthians 9:13)*
- *Freely and cheerfully (2 Corinthians 9:7)*
- *Proportionately and regularly (1 Corinthians 16:2)*
- *Generously (2 Corinthians 8:2)*

Any many other that will arise to impact humanity and transform the world in many sectors of socio-economic welfare of community, nations and the world.

Helpers Of Africa International International Kingdom Global Gender & Groups Empowerment Agency

Helpers Of Africa International International Group through Kingdom Global Gender Empowerment Agency will seek to empower women, girls, youth, men, children, Teens and elderly in all areas of socio economic areas and shared prosperity. Our strategic approaches to implementation are demonstrating significant benefits for all this groups touching on all aspects of education, protection, development, business, career professional lives preparedness, life skills, talent developments, sport, mental and physical health, Addressing social norms, motivation, aspiration, rehabilitation, vocational, leadership, enforcement of laws, research, expanding women's economic opportunities, research on norms and agency drawing on data from women and men promising new approaches are programs that tackle norms and provide young women and girls with new information and opportunities, medical care, empowerment and Livelihoods for Adolescent program, which provides girls with life skills training and local market-informed vocational training. In addition to the economic benefits, participating girls have demonstrated much greater control over sexual and reproductive health. Social protection can be transformative. Programs that go beyond protection per se and include elements to tackle regressive gender norms have had promising results. Such elements have included addressing child care responsibilities; increasing access to finance and assets; increasing skills, self-confidence, and aspirations; incentivizing girls' schooling; and providing information and building awareness about gender issues and rights. Education has major significance in this story, with a focus beyond achieving basic levels to quality and content. Around the world, we see that better educated women are often better able to make and implement decisions and choices, even where gender norms are restrictive, educated mothers have greater autonomy in making decisions and more power to act for their children's benefit. Promising interventions targeting agency deprivations Promising interventions to tackle violence, enhance sexual and reproductive health, increase access to assets, and enable voice typically have multiple components and engage at different levels. They address norms and involve the wider community— engaging men, boys, women, and girls. And they reflect commitment over time—one-off or short-term interventions are less likely to be effective. As already indicated, a common factor of successful approaches across all of the domains explored in the report is an acknowledgment of the powerful role of gender norms. Effectively engaging all in communities, and traditional authorities to change norms around violence, marriage, reproduction, household gender roles, and the roles of women and men in public life have helped to promote women's agency in countries as diverse. Several types of interventions have been shown to expand women's and girls' sexual autonomy and control over reproductive decisions. They include programs that promote more gender-equitable communication and decision-making and improvements in access to and quality of information and health services. Interventions to expand life opportunities for women and girls offer promise when they include provision for safe spaces, life skills, and job skills. Women's sexual and reproductive can also be supported through more equitable laws related to marriage and property, among others, provided such legislation is coupled with strong implementation and enforcement. Reform of discriminatory laws, particularly in the realm of family, inheritance, and property law, is an important first step for advancing women's access to land and housing. But legal reform must be coupled with actions to improve implementation and enforcement, gender-sensitive land administration, collection of richer sex-disaggregated data, and monitoring of results.

Our strategic plan has shown that empowering this seven groups will go far in the collective action and autonomous movements of women, men, youth, children, teens and elderly which is the focus of investment in our Kingdom Global Gender Empowerment Agency will play a pivotal role in building the momentum for progressive socio development of Nations and global transformation of our valuable projects. We shall partner with other agencies and partners to enable change, including through knowledge distilling an array of data, studies and evidence to shine a spotlight on the pervasive deprivations and constraints that face women and girls worldwide—from epidemic gender-based violence to laws and norms that prevent women from owning property, working, making decisions about their own lives and having influence in society. We shall identify some promising programs and interventions to address these deprivations and constraints. Policymakers and stakeholders need to tackle this agenda, drawing on evidence about what works and systematically tracking progress on the ground. This must start with reforming discriminatory laws and follow through with concerted policies and public actions, including multi-sectoral approaches that engage all this groups and challenge adverse social norms. There is much to gain. Increasing women's voice and agency is a valuable end in its own right. And it underpins achievement of the Helpers Of Africa InternationalGroup's twin goals of eliminating extreme poverty and boosting shared prosperity for girls and boys, women and men, around the world exchange, support for innovative and locally driven pilot programs to shift behaviors, and help in capturing and sharing good practices. Such support should embody large elements of local problem solving in communities nations and globally through this platform.

We shall seek to empower this groups with new information and communication technologies (ICTs) are opening up new spaces for collective action and all this groups in participation in public life, community and national development along with the media, ICTs that are shaping the aspirations and hopes of the next generation. These wider horizons can be especially valuable for women and girls whose mobility and opportunities are most restricted. We shall seek to establish profiles of to establish men voice, women voice, youth voice, children voice, children voice and elderly voice through our various projects and programs focusing on this groups in nations and globally. We shall seek to protect this genders and groups from exposure to violence, levels of unmet need for contraception, ownership, and representation in politics. But to better capture progress toward gender equality, greater investments are needed. We need to develop new measures and invest in higher-quality data that more accurately reflect constraints on and expressions of agency, hold governments and development agencies such as the Helpers Of Africa International International Group to account, and incorporate these findings into our everyday work and decisions. Empowering this groups are crucial for shared prosperity of people alive today and for the prospects of a better life for future generations. Many people in this groups are living longer and healthier lives, becoming educated, and having more access to goods and services. Today, 1.5 billion people live in extreme poverty; 774 million adults are illiterate; 783 million people have no access to clean water; and 2.5 billion lack adequate sanitation the same people face all of those deprivations simultaneously, and common markers of disadvantage include being a woman, being poor, and lacking education.

Our research shows many women and girls also are unable to own basic assets such as land, have no voice in their communities and governments, have limited control over their sexual and reproductive rights, and lack freedom from violence, even in their own homes. Youth have no jobs after schools leading them to extreme alcoholism, drugs and crime in developing countries. The Elderly have been neglected by their children after investing heavily in them in education and career they have been left to toil some in basic needs of food, shelter, clothing and medical care especially in developing countries where we few elderly care homes. Some children are challenged in access to education and health care, domestic violence through domestic challenges without basic needs of shelter, food, clothing all this are the areas of focus of our empowerment programs. One of the most alarming facts is that more than 800 million women alive today have experienced either physical or sexual partner violence or non-partner sexual violence during their lifetimes. Freedom from these kinds of deprivations is a fundamental aspect of well-being that is too often denied. Tackling these gaps matters—and expanding voice and agency is central—for reducing extreme poverty and boosting shared prosperity. The investment that this agency will do through expanded programs will be a universal blessing. Gaps exist in all countries, regardless of their level of income in this areas so our vision is valid globally across all this groups. This chapter starts by elaborating the case for strengthening agency and closing gaps.

Helpers Of Africa International International Kingdom Global Gender & Groups Empowerment Agency

Our strategic plan of empowering this genders and groups present a framework for understanding how they are affected by drivers of other gender and groups equality outcomes. We go on to present evidence on agency, looking at how deprivations in women's agency in certain domains overlap with other disadvantages that women experience, and we present new findings on the different ways in which women experience such deprivations and how they overlap. We shall work directly with community groups, institutions and organizations to ensure social norms and laws and legal institutions in greater depth are aligned to support this genders and group in our specific projects and programs for this groups. We shall highlight wide-ranging and unprecedented progress in important aspects of the lives of this genders and groups especially the vulnerable girls, women men, elderly, youth, teens and children over the coming decades by the grace of God. More countries than ever guarantee children, women and men rights under the law in such areas as property ownership, inheritance, and marriage. Gender gaps in primary schooling have narrowed in many countries. Globally, more women than men attend university, and women are now living longer than men in every region of the world it is also time to balance to focus on the boy child too because men have been left behind in other countries. All gender and groups' empowerment and Inclusive Growth will establish that even where such gaps are narrowed. We see that situation in economic opportunities, where there has been too little progress in closing key gaps as we focus on what we see as a key driver of persistent gaps, limited support in nations, to make effective choices and to transform those choices into desired outcomes.

1) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by funding projects and programs that give them security and freedom from violence.

17) . Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by Strengthen its work on policy coherence by identifying best practices for policies which go “beyond aid” to have sustainable ways empowerment to aid to promote wider finance for development projects continue to conduct regular assessments of trends in development cooperation (especially quantity, allocation and quality), and of progress on mutual accountability and transparency. Enhance its role in the development cooperation architecture as the legitimate apex for policy dialogue and norm-setting, by continuing to strengthen the multi-stakeholder nature of its work.
18) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by enhancing relevance and quality, include removal of financial barriers to education, particularly direct and indirect costs of education and bringing schools closer to marginalized communities provision of appropriate safety nets (school feeding options, cash transfers, etc) provision of gender-friendly basic services in teaching and learning environments (water, sanitation, safety), eradication of gender stereotypes in curricula and teaching practices and all aspects of education, recruitment of female teachers and educators and their deployment to rural areas as role models, provision and

expansion of relevant non-formal education opportunities for women and girls throughout their life-cycle, development of equivalency frameworks that enable women and girls to take advantage of formal and non-formal opportunities, ensuring that women's and girls' education is responsive to individual needs and supports their ability to exercise their economic, social, cultural, civil and political rights; and increased national and international funding for education, and better targeting of resources towards the most vulnerable.

19) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by Financing Genders and Groups towards education to minimize the impact of the financial crisis on education - successful policies/good practices and lessons learned from government, bi-lateral donors, private sector and private initiatives. Different levels of education and their contribution to women's empowerment - implementing holistic approaches to women's and girls' empowerment.
20) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by creating employment to keep natural resources and protect the environment in and around their communities (e.g. from nursing seedlings) developing and piloting innovative programs that demonstrate the potential for climate finance to contribute to gender and empowerment, and achievement worldwide.
21) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by increasing investment in research and analysis and ensuring that best practices, knowledge and information are widely available and shared ensuring that large-scale mitigation interventions in areas, such as energy, transport and construction - where a bulk of resources flow - adequately consider gender differences , increasing the financial resources and technology transfer available to developing countries focusing attention on population growth and advocacy for sexual and reproductive health and rights, increasing attention to gender-specific opportunities and leadership and a coherent institutional response is critical to making progress, more collaboration among sectors and institutions to develop support structures, incentives and accountability for improving the health and well-being of girls and women, identification of mechanisms to foster bold leadership and a coherent agenda for action, addressing gender discrimination, bias and inequality that permeate the organizational structures of governments and organizations - including health systems involvement and full participation of organizations, advocate and leader their meaningful engagement at all levels of assessment, priority setting and implementation championed and their ability to bring decision makers to account strengthened.
22) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by opening up opportunity economic prosperity promote international trade that benefits involvement in all entrepreneurship including export-oriented production has the potential for generating an improved operating environment with enhanced productivity and more efficient functioning of the value chain leading to reliable supply of inputs among other over 1000 business activities outlined in our capacity building agency.
23) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by expansion of access to productivity assets and economic opportunities for marginalized groups and for organizations of women are opportunities for women to create synergies, gain bargaining power and create a critical mass for the participation of women on an equal basis along with regional national continental integration and public-private partnerships enhanced as a means to better incorporate the genders and groups in global value chains through international networking.
24) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by funding economic empowerment move beyond the informal sector and microenterprises. It is important to create real opportunities to grant women's access to small and medium enterprises (SMEs) and other sustainable growth opportunities. Especially access to markets, including local and global procurement opportunities, should be increased providing with better access to business models for growth, including role models and mentors, as well as skills and tools to scale up their businesses, both for real job creation and for measurable economic impact.
25) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by fostering a private sector and civil society organizations One such suggestion involved "ranking" enterprises based on their compliance with labor standards. Successful examples from around the world have demonstrated that initiatives from civil society could make a big

difference in the lives of groups workers and vastly improve their ability to do business. Non-profit organizations and women's organizations are instrumental in providing support to women-owned businesses to compete in the global value chain, thereby improving sourcing options and facilitating sustainable economic growth. Through networking, all businesses are exposed to relevant information on target markets, financing options, business management tools, quality control resources and best practices for scaling up operations. The use of "state of the art" technology can compress the procurement cycle and overcome some of the traditional barriers to trade. Accountability is at the heart of a successful strategy. It is important to enhance the monitoring and evaluation mechanisms, in order to ensure that trade projects and trade strategies address gender issues, which would lead to the integration of women and other marginalized groups into global value chains and multilateral trading systems. Promoting political commitment to mobilize a large group of change agents at different levels within countries and international, national, regional, local institutions who seek to implement the vision of the world.

26) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by Ensuring technical capacity to implement change. Empowering institutional structure and processes to support the transformation, including structures that enable Genders and Groups to successfully claim their rights. Demanding adequate financial resources to sustain the change implementation. Demanding accountability and monitoring systems to ensure that fundamental changes are broad-based and lasting. We express our unwavering resolve to implement the present declaration.
27) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by advocating to ensure a genders and groups are included in the national development process by encouraging the creation of policies and specific measures for achieving this purpose to disseminate national and international normative frameworks in which women's rights are protected. To devise incentives that increase the participation in all levels of deciding processes to devise a national scientific agenda that prioritizes research in the gender and groups area, ensuring financing and the divulgation of the results especially among the creators of public policies. To establish public policies on complete health care that give priority and resources to gender and ethnicity issues, in accordance with the local needs, managing policies in the health area, in order to enforce their application in the national health system.
28) Helpers Of Africa International International though Kingdom Global Gender & Groups Empowerment Agency will seek to empower and support Men, Women, Youth & Teens, Children and Elderly in Nations by qualifying health professionals to deal with gender and ethnicity issues, ensuring appropriate assistance for women in the puerperium and for those who have suffered any form of sexual violence. - Engaging them in activities and mentorship to Men Development to stir up Leadership potential and abilities support without political division those who aspire leadership positions to be factored in the TOT.

- Supporting and motivating them to research and innovation in all field and scopes to be factored in the TOT.

- Promoted activities and experiences that help Men develop social, ethical, emotional, physical, and cognitive competencies.

- Inspire and motivate young Men leadership skills by appreciating great prefects and captains and other leaders from all schools to a join county and national dinners or outing to motivate and inspire them.

- To put Men to position of igniting ability to analyze his or her own strengths and weaknesses, set personal and vocational goals, and have the self-esteem, confidence, motivation, and abilities to carry them out (including the ability to establish support networks in order to fully participate in community life and effect positive social change);

- To empower Men to the ability to guide or direct others on a course of action, influence the opinions and behaviors of others, and serve as a role model

- Promote healthy Men development through programs and activities in schools and communities.

- Research and implement effective programs and interventions recognize Men strengths and seek to promote positive development rather than addressing risks in isolation.

- Engage Men on constructive involvement in learning and doing and who are connected to positive adults and peers to protect them from risky or self-defeating behaviors drugs, etc.

- Providing the conditions for positive Men development is a responsibility shared by families, schools, and communities. The conditions for healthy youth development reside in families, schools, and communities.

- Provide support ensuring needs are met through employment in our companies during holidays.

- In liason with Men & Men departments conduct joint parenting forums to mentor / coach parents on parenting skills to have positive family communication, get involved in their school, have clear rules and consequences and monitor their adolescent's whereabouts, provide positive, responsible role models for other adults, adolescents, and siblings, expect their adolescent to do well, spend time together, expect commitment from youth, have a caring school climate, have clear rules and consequences, provide positive, responsible adult role models, expect youth to do well, adults advocate for youth, neighbors monitor youths' behavior; adults model positive, responsible, and healthy behavior; youth model positive, responsible, and healthy behavior;

- Identify research, fund and launch local development projects to engage, network and use their skills and energy along with profitability.

- Identify research, fund and launch Men leader's initiatives, to increase the capacity of children, partner organizations, and communities to collectively participate in and benefit from community-driven development initiatives.

- Identify research, fund and launch inter-institutional capacity building and learning forums to strengthen community-level responses to basic health and environmental challenges through the sustained participation of children in local initiatives.

- Identify research, fund and launch various learning forums to Increase the capacity of children, with a focus on the inclusion of parents, to play meaningful roles in the sustainable development of their communities, including the protection and enhancement of basic health and the environment.

- Increase the capacity and support youth-serving organizations and institutions to design, implement, and evaluate programs of excellence for Men volunteering in the sectors of basic health and the environment activities such as tree planting , cleaning cities counties .

- Promote cooperation and collaboration among and between other Men-serving organizations and organizations working in the sectors of basic health and the environment across the country and nations and continents global networking after 3 National networks international festivals to be launched through our regional's and national offices and management. Sponsor and support network organizations.

- Promote linkages and networks among and between the Men nation / nations to collectively address key development challenges in the sectors of health and the environment.
- Evaluate school experience during holidays and where possible work with parents to transfer Men who may be abused or with extreme discomfort from certain school especially orphans to our schools to ensure they enjoy school life where possible. This can also work by engaging there teachers to sort certain problems that are bringing discomfort to effectiveness. .Especially for students who are economically disadvantaged.
- Providing technology exposure through our community / county / IT hurbs we shall launch through our IT department across the country to take care of Young whose schools are not equipped with IT facilities and libraries brimming with real-world equipment for students to use..
- Helping Men get an understanding and respect for diversity in our physical, social, and cultural environments.

- Mentorship on relationships and the importance of community and valuable culture, The power of respect for diversity in a world where this balance is currently threatened, could be one of the most important lessons we hope our teens learn.
- Package mentorships and coaching programs that are evidence-based that Shows effects on Men outcomes
- Comprehensive mentorship and coaching across learning domains
- Formulate Specific learning goals for various age groups within Children / Teen / Youth and senior groups within the Men department
- Formulate curriculums well-designed with learning activities for seminars and outings, team building activities
- Formulating policies and manuals with responsive teaching
- Create forums for Supports for individualized instruction and coaching.
- Package Culturally and linguistically responsive seminars to boast leadership acumen and improve child in all areas.
- Package mentorship and coaching that has ongoing assessments
- Offer a wholistic mentorship that has professional development opportunities
- Package mentorship with involvement materials
- Functional Objectives
- Incorporate a developmental program that helps Men at all levels develop attitudes more wholesome, healthy and rewarding
- Deal with the Men social disorientation and provide a course of readjustment rehabilitation from drugs , alcohol, smoking, dealing with sexual abuse and substance abuse.
- After assessment of potential, purpose and weakness develop personalized instruction for Men in camps for intensified coaching and mentorship.
- Package teachings and team building activity that encourage the development of character, including the skill of appropriate decision making, encompassing honesty, integrity and persistence in adversity.
- Mentor Teens and youth on how to combine school and work for those who must work because of personal and/or financial need and deployment in our companies so that they don't lose academic excellence for temporary work engagement.
- Mentorship & coaching in the development of parenting skills for our teen parents
- Increase access to and coordination of quality mental health care, AODA, and medical services through our hospitals to Teens and Youth
- Develop wholistic competence in a number of areas, including: physical, social and emotional health, employability, intellectual curiosity and learning, confidence and character education, and parenting skills.
- Offering career orientation mentorship and coaching in environmental Studies and Advanced Manufacturing, teens become prepared for a variety of careers in the sciences. Through hands-on experimentation, field and lab work, high-tech machinery operation, internships and college-level courses, they get an exciting taste of what their futures could be. They are provided with all the tools and guidance necessary to make their dreams a reality.
- Supporting the social and emotional growth of lady teens assign Adult men & Men counselors , advisors and advisees work together to create unique programming, while meeting grad level-specific benchmarks. The Advisory team explores values of awareness, diversity, and action while strengthening relationships with Teens, helping the whole learner in both the head and the heart.
- Evaluate school experience during holidays and where possible work with parents to transfer lady Teens who may be abused or with extreme discomfort from certain school especially orphans to our schools to ensure they enjoy school life where possible. This can also work by engaging there teachers to sort certain problems that are bringing discomfort to effectiveness. .Especially for students who are economically disadvantaged.

- Providing technology exposure through our community / county / IT herbs we shall launch through our IT department across the country to take care of Lady Children, Teens & Youth whose schools are not equipped with IT facilities and libraries brimming with real-world equipment for students to use.
- Developing manufacturing herbs, lab facilities as research vessel and learn about ecology and water sources as hands-on learning experiences to allow Men to engage with their social and biological communities as well as gain useful, career-based training with new technologies.
- Provide seminars to mentor Primary School graduate entering secondary life, Secondary graduates of University and College life transition and College to work place employability skills writing letters of job request, CVs, ethics of interviews, Work ethics to fit well into job markets with follow ups to ensure counseling in work cycles experience.
- Establish Career herbs and curriculums to direct Men to projects from studies in an area of self-directed interest, thesis-based research paper, a portfolio reflecting the scholar's growth over the course of their high school career, and a presentation in front of a panel of judges.
- Sponsoring and rewarding creativity that they are capable and that they are invested in their own progress – entering "life after school" with vigor and maturity.
- Helping Men gain an understanding and respect for diversity in our physical, social, and cultural environments.
- Mentorship on relationships and the importance of community and valuable culture, The power of respect for diversity in a world where this balance is currently threatened, could be one of the most important lessons we hope our teens learn.
- Through close instructors and mentors focus on nurturing the whole young adult, making for a truly "competitive" individual.
- Grounding Men in child development principles
- Package mentorships and coaching programs that are evidence-based that Shows effects on Men
- Comprehensive mentorship and coaching across learning domains
- Formulate Specific learning goals for various age groups within Men Children / Teen / Youth and senior groups
- Formulate curriculums well-designed with learning activities for seminars and outings, team building activities
- Formulating policies and manuals with responsive teaching
- Create forums for Supports for individualized instruction and coaching.
- Package Culturally and linguistically responsive seminars to boast leadership acumen and improve child in all areas.
- Package mentorship and coaching that has ongoing assessments
- Offer a wholistic mentorship that has professional development opportunities
- Package mentorship with involvement materials
- Functional Objectives
- Assist Men in achieving highest education level they can and skills essential for success in a technical college, career and work
- Incorporate a developmental program that helps Men develop attitudes more wholesome, healthy and rewarding
- Deal with the Men social disorientation and provide a course of readjustment rehabilitation from drugs, alcohol, smoking and substance abuse.
- After assessment of potential, purpose and weakness develop personalized instruction for Men in camps for intensified coaching and mentorship.
- Package teachings and team building activity that encourage the development of character, including the skill of appropriate decision making, encompassing honesty, integrity and persistence in adversity.

- Mentor Men on how to combine school and work for those who must work because of personal and/or financial need and deployment in our companies so that they don't lose academic excellence for temporary work engagement.
- Mentorship in the development of marketable job skills
- Mentorship & coaching in the development of parenting skills for Men parents
- Increase access to and coordination of quality mental health care, AODA, and medical services through our hospitals to Men especially the financially disadvantaged.
- Develop wholistic competence in a number of areas, including: physical, social and emotional health, employability, intellectual curiosity and learning, confidence and character education, and parenting skills.
- Package programs that boost Men's sense of self-worth.
- Mentor men on Men right to have and determine choices as they still remain submissive..
- Advocate on Men right to have access to opportunities and resources.
- Advocate on Men right to have the power to control their own lives, both within and outside the home; and
- Advocate on ability to influence the direction of social change to create a more just social and economic order, nationally and internationally.
- Expand Men economic opportunity; strengthen their legal status and rights; and ensure their voice, inclusion and participation in economic decision-making. means: more and better jobs for Men across a wider range of sectors; a business climate that supports Men in starting and growing businesses, and building their management and entrepreneurial skills;
- Establishing Men empowerment division in Ufalme capital to provide Men with effective access to a range of financial services and products tailored to their needs, including especially credit and savings instruments; and, in times of high food and fuel prices, greater livelihood security for Men, especially in rural areas and vulnerable environments.
- Establishment of baselines of Men micro entrepreneurs and workers in microenterprises
- Set-up or enhancement of service delivery mechanisms.
- Enhanced programs and services necessary for scaling up enterprises and/or improving productivity
- Conduct of community orientation/information sessions encouraging Men to avail of our empowerment programs and services
- Information dissemination on enhanced programs and services for Men economic empowerment
- Development of knowledge products
- Integration of gender mainstreaming , framework, indicators and tools

Helpers Of Africa International International

Kingdom Global Gender & Groups Empowerment Agency

Division of Elderly with many other departments

Kingdom Global Genders and Group Agency will run a Division to care for Elderly with many departments envisioned to own and run homes for the elderly. We seek to ensure the neglected elderly people are cared for and live in a life of honor to bless the coming generations. We conducted an Honor event for Spiritual Fathers and Mothers of Kenya and there was a great release of Gods blessings in the land. We have also been conducting this advocacy for the young to take care of there parents and Grannies to establish the blessings of long life as the bible commands us to do so. We have a vision of building homes to care for this people including freedom fighters some who are homeless and many who have served communities along with honoring them to depart gracefully from this life when God calls them home blessing the land and coming generations. Elderly Homes department Vision to set up homes for the elderly throughout the counties with feasible homes, games, light gyms, sports, games, livestock, pourtry, children homes, church and hospital to care for elderly for graceful care. Mandate is to carry out feasibility to build a fresh or convert existing buildings to vocational centres throughout the country in all counties Recent studies have proven that boredom and depression can have a very real effect on physical, emotional and mental health. This doesn't just apply to teens or thirty-somethings. Actually, for seniors, boredom and depression can be lethal. "Age-related declines in memory and cognition are often blamed on physical illnesses and disease processes, but did you know that depression is also a major cause of such declines?" Sure, we all slow down as we grow older, but we need to keep our parents and elders engaged in activities that help them maintain mobility and keep them engaged and interested in life. Depression is a treatable illness. Social isolation and loneliness are risk factors for depression and suicide. The National Strategy for Suicide Prevention (2002) has repeatedly advised health care industry caregivers that the generation of baby boomers is at increased risk for depression and boredom. The June 19, 2003, issue of the New England Journal of Medicine released results of a five-year study that found seniors who regularly joined in mentally stimulating activities enjoyed a reduced risk of dementia.

The facility should include

Mobilization to get elderly who need help.

- Gather and mobilize them through our annual meeting in Good Samaritan Festival through all promotion to gather them in our March kasarani meeting.
- Get list from Government elderly allowance network.
- Map out and get data bases of existing old people homes.
- Through the Men / Women / Youth / Children / churches Families networks and organize this network to visit them.
- Identify their needs and care givers arrange for help to reach them in every way.
- Through Events department bring them to our National Meetings through our county event officers

- **Social interaction activities such as**
- Senior centers, Card clubs, Volunteering, Talking with others and many more

- **Opportunity to exercise**
- Walking lanes and light exercise gym

- **Games- Light games and video games**
- Easy to play, they improve fine motor movement skills and increase brain stimulation, chess, solitaire, and other single-player games
- **Create a memoir, a memory book, or a family legacy**
- Scrapbooking is great for mental stimulation and fine motor skills
- **Hobby centres** For those who enjoy quilting or sewing, suggest yarn crafts or those that use larger tools and materials, Learning a new language or subject, Taking up photography or some hobby that offers mental, physical and emotional engagement for elderly activities

- **Music Center and Our schools** – Encourage a senior to play piano, sing or join a choir
- **Art Center & Our schools** – For any skill level, drawing, watercolors and oil painting are great for mental stimulation and fine motor skills
- **Storytelling** – Libraries and our schoolss are always looking for storytellers for children's groups
- There are three initial steps caregivers should take in establishing an in-home activity care plan:
- **Identify the problem(s):** This isn't, "What do we do today?" although that is a part of it, of course. This is: "What issues need to be addressed?" That incorporates any physical, cognitive, or emotional impairments and issues. This will help you move toward the next step. For our example, Queenie has had speech problems since the stroke and has difficulty walking. She's at risk for falls. These are both problems and obstacles in her attempt to live an independent life.
- **Identify the goal(s):** The goal has to come before the plan of action. For Queenie, there are two main goals: be able to communicate without much difficulty and be able to walk unassisted both inside of her house and outside.
- **Identify the plan of action:** The plan of action is exactly what it sounds like. It's figuring out how to structure your activities around therapy, but more than that, finding ways to combine fun and care, so that the days and weeks move toward an end-goal without being regimented around work.

In Genesis Chapter 1 God created man and gave him to be a custodian of garden of Eden that he had created to enjoy and to till it make the best out it taking control over the vegetation, the four rivers that fed Eden and over the animals in the land and the waters. On this mandate comes forth the vision, mission, mandate, focus of our projects and programs under Helpers Of Africa International International Group funded to be executed by our Kingdom Global Environmental Agency. However damage in environment in many areas of destruction of forest, air and water pollution, uncontrolled dumbing of waste in cities and poor waste management, soil erosion, land and hill slides, destructive weather of hurricanes, tornados, global warming, increased flooding and draughts among many other threats are becoming a big threat to the environmental future of nations and globally. Climate change impacts threaten to adversely affect economic growth of nations, and endanger the world becoming a prosperous world with a high quality of life for all its citizens. The cumulative impacts of climate change over the next two or three decades have the potential to reverse much of the progress made towards the attainment of the Millennium Development Goals (MDGs) and Vision 2030 along with our focus of 2020 to 2050 simultaneously. Climate change poses a serious challenge to countries social and economic development. This change will lead to major challenges in the economy, human life and on the environment. Many countries are vulnerable to climate change since the key drivers of the economy (agriculture, livestock, tourism, forestry, and fisheries) are climate-sensitive. Coupled with the country's low adaptive capacity to climate change, the country experiences a high level of vulnerability. In order to enhance investment that aims to reduce vulnerability and build resilience of the society, and in line with the provisions of global environmental conservation frameworks.

The Governments of the world are desperate to see support from donor community increased that is the space that many Helpers Of Africa International International Group through Kingdom Global Enviromental Agency seeks to occupy to add value in this sector. Our strategic plan is formulated to facilitate reflection and/or mainstreaming of climate change aspects in the country's Vision for environmental development and conservation. Our strategic plan also seeks to identify key elements of the country's low-carbon and climate resilient growth, Enabling Policy and Regulatory Framework. This aims to review international, regional and national policy and legislative instruments relating to climate change with a view of developing a policy and /or legislative framework that promotes coherence, coordination and cooperative governance of climate change issues at the national and county levels. It also involves National a Adaptation Plan that recognizes the adaptation is a priority, this sub-component aims to identify priority immediate, medium and long-term adaptation actions in order to develop a National Adaptation Plans. It also involves Nationally Appropriate Mitigations Actions that we seek to support and fund globally. On the understanding that national mobilization is key are to be undertaken in the context of sustainable development, this sub-component is designed to identify and prioritize that need to be internationally supported and enabled through technology development and transfer, financing and capacity building. In addition, the protection of forests is essential for reducing emissions from deforestation, this sub component Subcomponent for Provision of Consultancy Services for Development of a Conceptual Framework of will also address reduced emissions from deforestation and forest degradation – plus readiness activities as well as opportunities presented by compliance and voluntary markets.

Kingdom Global Research and Development Technology Transfer. It is widely recognized that technology development and transfer is essential to support adaptation and mitigation efforts. This subcomponent focuses on facilitating technology needs assessment with a view of developing a National Technology Plan that incorporates setting-up of technology innovation centers. National Performance and Benefit Measurement to develop national climate change monitoring, reporting and verification guidelines and performance indicators. Knowledge Management and Capacity Development Information on climate is critical in informing the design of appropriate adaptation and mitigation actions, support planning and choice of strategies including assessment of risk and early warning systems. Capacity development of institutions involved in the planning and management of responses in vulnerable sectors is one of the most pressing climate change need in the country. This subcomponent will address issues relating to institutional and technical capacity strengths and needs of the various actors ranging from government, private sector, civil society and communities. It also encompasses education, training, public awareness and networking. We seek subcomponent aims to position the country to access finances from the various sources by developing an innovative financial mechanism that includes a climate fund, investment strategy/framework and carbon-trading platform. Also identify tools and incentives that would enhance private sector investments in opportunities associated with climate change. Each of these subcomponents will be undertaken as separate consultancies within the broad framework of developing a Coherent Comprehensive National Climate Change Action Plan coordinated by the Ministry of Environment and Mineral Resources or equivalent working in collaboration with the relevant line ministries in the countries.

In this regard the Ministries of Environment and departments which is mandated to coordinate overall climate change issues will be the lead agency supported by an Inter-ministerial Task Force comprising to provide the technical support to the process. Therefore, these terms of reference are in respect of long-term national low carbon development pathway. Objectives of the Assignment the main objective of the consultancy is to develop a Long term National Low Carbon Development Pathway. The resultant outcome shall constitute the analysis of flagship projects, represented as a matrix of the projects and their risk rating represented as high, medium and low risk due to climate change. Key drivers and opportunities to support low-carbon and climate resilient development growth conceptual framework of low carbon and climate resilient development pathway at national and county levels. We shall seek to identify the risk rating (i.e., their influence/exposure to climate risk) and make recommendations for addressing climate change risk Identify opportunities to support low carbon, climate resilient growth in countries. We shall develop high-level conceptual framework for a long-term national low carbon and climate resilient development pathway and should set in the context of feeding into the next Medium Term Plan. Expected Output The expected output of this consultancy is to develop a long-term national low carbon and climate resilient development pathway. In particular, the consultancy shall deliver on the following an analysis of flagship projects identified to be implemented under the Vision 2030 and their risk rating recommendations for addressing climate change risk in the of the highest risk projects.

Our strategic plan is focused towards a conceptual framework anchored on a/the revised to support a long term national low carbon and climate resilient growth. Indicative cost matrix for (implementation of the flagship projects in the context of climate change constraints/assumptions Procurement and evaluation. We shall support and finance countries towards revision of Environmental Management and Co-ordination Act.

- Development of Solid Waste Management Policy;
- Formulation of a Research and Development Policy;
- Revision of the Forest Policy and its subsidiary legislations;
- Review of the Timber laws of countries.
- Development of the Charcoal Policy;
- Review of Water quality standards to ensure that they conform with the country's water situation and needs;
- Enact a policy on trans-boundary water management;
- Enact a policy on ground water protection;
- Operationalization of a national policy on mineral resources and mining;
- Formulation of a national policy on the establishment of a national geological survey;
- Development of implementation strategies for the National Environmental Sanitation and Hygiene Policy;

Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental programs including Global & National Green organizations , Global & National Enviroment Clubs in Schools / Communities/ work places, Global & National Youth Movements for Conservation especially those that live near parks and conserversies, Global & National Arid and Semi Arid Lands management boards, Global & National Enviromental Services, Global & National Biodiversity Strategy and Action Plan, Global & National Agricultural Sector Coordination Unit , Global & National Posts and Telecommunications Corporation to support communication, Global & National Agricultural Sector Development Strategy office to guide on Wildlife Conflict enviroment, Global & National Rural Development Strategy to guide on habitation in the rural areas, Global & National County and Counstuency leaders to guide engagments, Global & National Transparency Communication Infrastructure Programme, Global & National Convention of Biological Diversity, Global & National Enviromental Development Corporation, Global & National Development Authorities, Global & National Climate and Development Knowledge Networks, Global & National Clean Development Mechanism, Global & National Local Area Networks, Global & National Code Division Multiple Access, Global & National Lake Basin Development Authority, Global & National Community Development Trust Funds, Global & National Ministry of Environment and Mineral Resources, Global & National Ministry of Chemical Information Exchange Network, Global & National Ministry of Youth Affairs- Sports & gender, Global & National International Trade in Endangered Species, Global & National Marine Protected Areas , Global & National Common Market Agencies, Global & National Commission for Revenue Allocation office, Global & National Agricultural Sector Coordination Unit, Global & National Agriculture Sector Extension Policy offices, Global & National National Climate Change Activities Coordination Committee, Global & National Designated Authorities, Global & National Climate Change Response Strategy office, Global & National Disaster Risk Reduction, Global & National Environment Action Plan, Global & National Environment and Climate Change Unit , Global & National National Environmental Management Authority, Global & National units, Global & National Early Childhood Development and Education units, Global & National Environmental Policy unit, Global & National Education for All Units, Global & National Net Enrolment Ratio units, Global & National Environmental Management and Co-ordination units, Global & National Museums of Units, Global & National Poverty Eradication Plan units, Global & National Secondary Education units, Global & National Reproductive Health Strategy units, Global & National Social Protection Council units, Global & National Water Resources Management Strategy units, Global & National Government Common Core Network units, Global & National Public Private Partnerships units, Global & National Tourism Promtion boards, Global & National Government statistics and Data Centre units, Global & National Audit Units,

Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental programs including Global & National Regional Development Authorities Units, Global & National Rural Electrification Master Plan units, Global & National Hotels Keepers and Restaurant owners organizations, Global & National Tourist Industry Licensing Act units, Global & National Justice and Reconciliation Commission office, Global & National Inter-Ministerial Committee on Environment, Global & National Internet Service Providers units , Global & National Hydrological Observation cycle units, Global & National Agricultural Research Institute units, Global & National Water Resource Users Associations Units, Global & National Forestry Research Institute Global & National Forest Policy units, Global & National Ministry of Environment and Natural Resources, Global & National Forest Service Strategic Plan units, Global & National Tourism Trust fund units, Global & National Ecotourism Conference units, Global & National Ocean Marine Science Association Marine Science Country Units, Global & National Ministry of Agriculture and Ministry of Livestock and Fisheries Development, Global & National Forest Law Enforcement and Governance units, Global & National Africa Forest Law Enforcement and Governance units, Global & National Charcoal Survey and Monitoring units on deforestation, Global & National Environment Management and Coordination units, Global & National Biodiversity Strategy and Action Plan units, Global & National Industries in Sustaining Water Quality units, Global & National Arid Lands Resources Management Project units, Global & National Agriculture Sector Development Strategy units, Global & National Agriculture sector Policy units, Global & National Food and Agriculture Policy units, Global & National Agriculture Sector Extension Policy units, Global & National Electricity Access Investment Programme Unit, Global & National Power Development Program, Global & National Rural Electrification Master Plan Unit, Global & National Renewable Energy Unit, Global & National Water Master Plan unit, Global & National Water Services Strategy Unit, Global & National Water Resources Management Strategy Unit, Global & National Gamewatchers Institutional Partners Unit, Global & Africa Network for Animal Welfare Unit, Global & African Conservation Centre, Global & National Conservation Alliance Unit, Global & National Department of Resource Surveys and Remote Sensing, Global & National Wild Life Society International Unit, Global & National Union for Conservation of Nature, Global & National Beach Management Unit, Global & National Community Wildlife Association , Global & National Wildlife Conservation and Compensation Committee, Global & National Directorate of Resource Surveys, Global & National Remote Sensing Unit, Global & National habitat degradation and loss management project, Global & National illegal settlement management project, Global & National protected area management project, Global & National buffer zones management project, Global &

National over utilization management project, Global & National population growth management project, Global & National land use management project, Global & National species management project,

1. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally in engaging main social political pillars that affect enviromental development and conservation mainly Infrastructure, Information and Communications Technology, Science, Technology and Innovation, Land Reforms, Public Sector Reforms, Human Resource Development, Labour and Employment, Security, Peace Building and Conflict Resolutions, Drought Risk Management and Ending Drought Emergencies, Tourism, Agriculture, Livestock and Fisheries, Trade, Manufacturing, Business Process Outsourcing and Information Technology, Enabled Services Sector, Financial Services Sector , Oil and Other Mineral Resources, Education and Training, Health , Environment pollution, Water and Sanitation, Population, Urbanization and Housing , Gender, Vulnerable Groups and Youth for future generations.
2. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards countries adaptation of monitoring indicators that affect environment such us Human development index, Percentage of climate related national loss and damage in the public and private sectors , Population living below the poverty line , National vulnerability index , Number of sectors planning, budgeting and implementing climate change adaptation actions , National and county performance contracting systems integrating climate change adaptation targets , Amount of loss and damage from climate hazards per sector, Amount of private sector financing for adaptation , Number of counties that have integrated climate change adaptation, Number of counties budgeting and implementing adaptation programs, No of national and county level programmes /projects incorporating ecosystem-based adaptation and community based adaptation approaches, Number of households with timely access to climate information, Number of infrastructure development cases /application using climate smart designs (energy, ICT, transport) , Number of people reached through climate change adaptation public awareness campaigns , Number of public servants trained on climate change adaptation, Number of functional climate change coordination structures and Percentage of population requiring humanitarian assistance
3. Kingdom Global Environmental Agency will partner, fund to support nationally and globally the adaptation and resilience building actions in development of environmental pillars including Integratation of climate change adaptation into national and global level development planning and budgeting processes.
4. Kingdom Global Environmental Agency will partner, fund to support nationally and globally to enhance the resilience of public and private sector investment in the national transformation, economic and social and pillars of Vision 2020 to 2050 climate shocks to enhance synergies between adaptation and mitigation actions in order to attain a low carbon climate resilient economy and Enhance resilience of vulnerable populations to climate shocks through adaptation and disaster risk reduction strategies.
5. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally duties and functions to integrate and mainstream climate change actions, interventions and duties into Countrie Integrated Development Plans and designate a Country Executive Committees member to coordinate climate change affairs; submit a report on the implementation progress of climate change actions to the County Assembly for review and debate, with a copy to the environmental development and Climate Change Directorate for information.
6. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally in monitoring and enforcing compliance of environmental development and climate change interventions along with work with national curriculum developers to advice the Council, integrate climate change into various disciplines and subjects of the national education curricula at all levels; and advise public agencies responsible for regulating universities and tertiary institutions curricula on the integration of climate change into their curricula.
7. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally The National Drought Management Authority will continue to coordinate drought management and disaster risk reduction actions to report regularly on National environmental matters including the Climate Change Council on the status and progress of climate change adaptation and resilience.
8. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct participatory county level climate risk and vulnerability assessments and Increase awareness of climate change impacts to communities in counties along building the capacity of countries governments on environment and climate change adaptations.
9. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop countries adaptation plans along with developing countries climate financing mechanisms for adaptation.

Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop appropriate environmental adaptation financing tracking systems along with implementing county adaptation plans to upscale successful adaptation actions.

10. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally promote development of technology prototypes to ensure intellectual property laws protect climate innovation and technology along with promoting development of locally available technologies in support of adaptation towards environmental change.
11. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote and facilitate transfer of appropriate technologies to the most vulnerable along with strengthening science policy and practice.
12. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally Upscale successful technologies with responsibility for science, technology and innovations, countries governments, research institutions and academia, civil society and private sector.
13. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally raising to include environmental development and climate change adaptation as a cross cutting issue along with developing adaptation manual for public sector enforcement and compliance.
14. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally to ensure that climate change adaptation and resilience building is captured in performance contracting for government sectors along with adapting schools of government curricula and performance contracts as required with climate change adaptation issues.
15. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally for responsibility Ministry responsible for public sector reforms, Countries Governments, research institutions and academia, programme addressing financing, technology, capacity building.
16. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally conducting risk and vulnerability assessments of existing infrastructure along with conducting risk and vulnerability assessments of upcoming infrastructure (roads, railways, marine, aviation, buildings, ICT).
17. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally assessing whether existing and planned infrastructural assets are compatible with a low carbon climate resilient economy.
18. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct capacity building on infrastructure climate proofing along with weather resistant climate proof buildings, roads, railway, marine, aviation and ICT infrastructure through use of appropriate designs and building materials.
19. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally re-assess infrastructure vulnerability and upgrade infrastructure to withstand climate impacts with the latest technology along with undertaking a climate vulnerability and risk assessment of the impacts of climate change and variability on human health.
20. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Increase public awareness and social mobilization on climate change and impacts on health. Medium to design appropriate environmental climate changes related interventions for the health sector.
21. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards designing appropriate measures for surveillance and monitoring of climate change related diseases in order to enhance early warning systems, which includes enhancing existing databases on health sector indicators amongst others.
22. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to upscale results of pilot projects in climate change adaptation in the health sector responsible for health, Countries Governments, research institutions and academia, civil society and private sector along with enhancing climate resilience towards the attainment of Vision 2020 to 2050 and beyond building, financing, technology.
23. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Improve public outreach on environmental conservation and development issues coordinating institutions proposed in existing Environmental Impacts Assessment regulations with climate change adaptation considerations.

Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally enhancing the capacity to enforce and monitor compliance of adaptation actions to strengthen early warning and climate information services through improving the Climate Information Service Providers network and enhancing integration of local/indigenous knowledge into early warning systems.

24. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance participatory scenario planning with communities to undertake climate vulnerability and risk assessments on ecosystems and provide guidance on relevant adaptation actions along with implementing the wildlife adaptation strategy.
25. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop a forestry adaptation strategy to strengthen tree-planting and conservation initiatives.
26. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen the capacity of national and county institutions responsible for coordinating climate change adaptation along with improving and expanding existing climate change modelling work of Countries Meteorological Department.
27. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally provide guidance and improve access to climate resilient tree species and cultivars to integrate ecosystem and community based approaches in sector strategies in support of adaptation to reduce natural resource based conflicts.
28. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to continue the rehabilitation of water catchment areas in order to provide sustainable ecosystem services to enhance capacity of institutions and bodies responsible for water and sanitation on climate change impacts and the water sector.
29. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote awareness on climate change impacts and the water sector including promoting public awareness on water conservation (recycling, waste water management) and efficient water use.
30. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to mainstream disaster risk reduction measures in the water sector planning and service delivery, particularly in vulnerable, high risk regions along with promoting the use of efficient irrigation systems.
31. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance collaboration of trans boundary water resource management to strengthen water resource monitoring and assessment for early warning and planning along with promoting technologies that enhance water resource efficiency.
32. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards Implementing the National Water Master Plans in the countries to Increase awareness on impacts of climate change on population and housing.
33. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen the enforcement of building codes by national and countries governments along with Integrating the adaptation into relevant building and urban planning policies and regulations along with enhancing the adaptive capacity of the urban poor by increasing the number of affordable housing and related infrastructure.
34. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct a climate risk and vulnerability assessment environment in the tourism sector by building capacity to raise awareness on impacts of climate change on the tourism sector to relevant departments and partners on wildlife, health of tourist among many other sectors.
35. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop climate resilient action plans for the sector to enhance the diversification of climate resilient tourism products as we improve enviromental pillars such as conservancies, mine rehabilitation with environmental conservations such us tree planting, creation of safe dams for agriculture etc.
36. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to design pilot projects that enhance resilience in the tourism sector in projects and programs that promote environmental conservations.
37. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote indigenous knowledge on crops, trees and nature to increase awareness on climate change impacts on the agriculture value chain.

38. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct climate risk and vulnerability assessments of the agriculture value chain along with coordinating mainstreaming climate change adaptation into agricultural extension.
39. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote new food habits along with establishing, maintaining and promoting the uptake of climate change related information on agriculture.
40. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop and up-scale specific adaptation actions - promotion and bulking of drought tolerant traditional high value crops; water harvesting for crop production; index-based weather insurance; conservation agriculture; agro-forestry; and Integrated soil fertility management.
41. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop and apply Performance Benefit Measurement methodologies for adaptation and development for the sector along with support adaptation of private sector agricultural value chain actors through capacity building efforts.
42. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote and implement climate smart agriculture practices in increasing awareness on climate change impacts on the livestock sector along with strengthening land use management systems including rangeland management, fodder banks and strategic reserves.
43. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct capacity building in indigenous knowledge, livestock insurance schemes, early warning systems, early action, livestock management and breeding along with implementing the Medium Term Sub-actions, Develop new feeds, Promote livelihood diversification and market access (camels, indigenous poultry, beekeeping, rabbits, emerging livestock - quails, guinea fowls, ostriches etc.)
44. Kingdom Global Environmental Agency will collaborate; fund to support nationally and globally to establish price stabilization schemes and strategic livestock based food reserves along with restoration of degraded grazing lands with long term Sub-Actions to enhance selection, breeding and management of animals to adapt to climate change.
45. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally Promote climate smart agriculture that conserves environment maintaining forests and trees within farms .
46. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards responsible for livestock development through Countries Governments, research institutions and academia, civil society and private sector to enhance climate resilience towards the attainment of global environmental goals.
47. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally ongoing projects/initiatives livelihood diversification, economic Stimulus programs, Cage fishing projects along with undertaking risk and vulnerability assessment of the fisheries value chain.
48. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards enhancing capacity of the Ministries of Agriculture, Livestock and Fisheries Marine Fisheries Institute on the impacts of climate change on fisheries, fishing communities and the private sector.
49. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to upscale sustainable aquaculture initiatives to develop and implement a pilot project on climate resilient fish species and the related value chain.
50. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen monitoring capacity and capability to prevent overfishing and unauthorized exploitation in the inland waters and exclusive Economic Zone.
51. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote the up-scaling of climate resilient strategies/ technologies in fisheries and climate resilient fish varieties along with expand the fishing zones in both inland and coastal waters.
52. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally enabling policy to build the capacity build of the private sector (formal and informal) to enhance the resilience of their investments e.g. through identification of new products and services that are more resilient to climate change impacts.

53. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to demonstrate an operational business case for private sector investment in adaptation along with develop fiscal incentive measures to encourage businesses to undertake investment in adaptation and resilience building measures.
54. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to implement long term private sector investment in adaptation and resilience building measures along with building the capacity of the Mining, Health Safety and Environment division on climate change adaptation.
55. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conduct an assessment of impacts of mining, oil and gas exploration to ecosystems and communities with respect to climate change variability and future change.
56. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop the capacity of mining communities to integrate climate change in the community development agreements with private companies along with building the capacity of the actors in the oil and gas sector in climate change adaptation.
57. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to integrate climate change in the mining, policy and regulatory framework along with maintaining environmental friendly resilient oil and mineral resource exploitation considering ongoing projects/initiatives countries integrated climate risk management projects.
58. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally by raining partners for resilience- Climate Proof Disaster Risk Resilience Programmes and Adaptation at scale in semi-arid regions projects.
59. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to fill gaps of financing, capacity, technology to eliminate the conditions that perpetuate vulnerability.
60. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance the productive potential of the region to strengthen the institutional capacity for effective risk management along with attracting more international climate and environment financing.
61. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to evaluating adaptation policy, programme and project interventions that is the intended objectives and outcomes of the adaptation activities along with informing future adaptation policy development programs.
62. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally by mainstreaming adaptation in development through links with related indicators along with comparing adaptation achievements across sectors, regions or countries.
63. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally Communicating adaptation progress to stakeholders and the general public Informing political climate change negotiations in the international arenas and targeting, justifying and monitoring adaptation funding and programs.
64. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards enhanced climate resilience towards the economic pillar activities mainly involve building resilience of countrie's main GDP sectors, that is, tourism, agriculture, trade, financial services, and oil and mineral resources through conducting climate risk and vulnerability assessments and implementing adaptation actions prioritized under the assessments.
65. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards investments in pillars expected to increase environmental degradation and climate change adaptation knowledge and capacity within the sectors, strengthen climate smart public service delivery, and increase climate-proofed infrastructure. This will lead to enhanced resilience of the agriculture and tourism value chains and private sector investments.
66. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards enhancing climate information services and utilizing ecosystem and community based adaptation approaches are the main activities in the social pillar. These activities will lead to enhanced effective climate information services at the county level and ecosystem and community based adaptation integrated ultimately leading to climate resilient county development.
67. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards countries pillars focuses on devolution and mainstreaming of climate change adaptation into countries planning to enhance climate change adaptation that leads to climate resilient development at the county level. The outcomes of strengthened climate smart public service delivery and climate resilient county development will lead to the resilience of national agriculture (livestock development and fisheries and tourism value chains and hereafter climate resilient economic growth at a national level.

68. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards enhanced adaptive capacity towards the attainment of countries Vision 2020 to 2050 Knowledge, learning, capacity building and climate change coordination are viewed as continuous processes taking place across all the levels of results/changes in the theory of change. Increasing knowledge, learning and capacity building on climate change adaptation actions will be encouraged across all the sectors.
69. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards enhancing climate change coordination through the key institutions anchored in ensuring that climate change adaptation is mainstreamed at all levels.
70. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally assisting country government to demonstrate progress towards adaptation objectives and priority actions as outlined which in turn will assist it to access international finance for adaptation along with measuring progress towards increasing the resilience to climate change and environmental development of some of the most vulnerable in society as well as measuring progress at a national level by designing a system that can incorporate community level data.
71. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards emerging future requirements and the need for the Monitoring & Evaluation systems to be sufficiently flexible to enable compliance with future international regulations. The Monitoring & Evaluation systems should not add significantly to the workload and be a burden to the national and county government institutions that will be involved in adaptation Monitoring & Evaluation implementation.
72. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally empowerment of Monitoring and Evaluation systems that should reflect the planning hierarchy from national to local government levels.
73. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure high-level policy and institutional coherence on sustainable development, to reduce transaction costs for member states (and other groups) engaging in regional fora and to ensure common understanding of and approach to regional global priorities, challenges, implementation and reporting.
74. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to increase partnership its engagement in Regional governments in Sustainable Development and work closely with the regional and continental Commission secretariats to identify options to coordinate and input into these mechanisms, including convening major global led environment related meetings and also collaborate to increase the participation and profile of Ministries of Environment / Natural Resources in these regional forums.
75. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to offer more effectively and practically collaborate on the agenda and outcome to bridge the gap between major groups and stakeholders on environment and regional intergovernmental platforms and interagency mechanisms on the 2020 to 2050 agenda.
76. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally by routinely reviewing and synthesing environmental outcomes and priorities of sub-regional and regional intergovernmental outcome documents to inform the agenda and discussions of regional, continental and global Ministers of Environment meetings together with other global agencies to share with partners to forge a common understanding and voice on regional, continental and global environmental priorities.
77. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally In order to strengthen linkages between annual Regional, continental and global efforts in environment along with providing briefings on global priorities.
78. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to tailor and scale up the voluntary Environmental Performance Reviews including raising environment volunteers and champions to focus on the monitoring, reporting and implementation of environmental goals at the countries level and facilitate comparisons and exchange of lessons learned at regional forums.
79. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to support countries in their reporting system and promote knowledge sharing and lessons learned between countries as well as strengthen capacity of governments to implement the global goals.

80. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards an important role in providing guidance on global norms and standards for keeping the environment under review. This necessitates the development and use of adequate tools, follow-up on the link between science and policy, to alert and prompt action on emerging issues, and bringing together thematic follow-up and review processes.
81. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards sustainable development that requires strengthened capacities and building effective institutions to help to frame our role in this, as well as define our contribution for systemic change, in particular as catalyst for policy and institutional coherence, effective partnerships and accountability.
82. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to translate this guidance toward the environmental dimension, by ensuring effective linkages are made with the follow-up and review arrangements, including relevant global conferences and processes focusing on integrating the multiple outcomes related to these processes, ensuring a multidimensional and global perspective,
83. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to guide processes on the integration of the environmental dimension in accordance to preparations and outcomes including the potential cross-cutting themes that are likely to inform its annual global agendas review and follow-up.
84. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to facilitate sharing of experiences, including successes, challenges and lessons learned, and provide political leadership, guidance and recommendations for follow-up ensuring that the agenda remains relevant and ambitious and should focus on the assessment of progress, achievements and challenges faced by developed and developing countries as well as new and emerging issues.
85. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen the “science-policy interface,” including by considering the global sustainable environmental development report and support our contribution with relevant information and analyses with respect to the environmental dimension of sustainable development, and also consider the findings and recommendations in its deliberations and strategic guidance to in the environmental dimension of sustainable development, and in the context of our programme of work globally.
86. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure coherence and integration of recommendations and resolutions in the environmental dimension, including with other newly created arrangements such as the Multi-Stakeholder Forum on Science and Technology. In order to ensure a close linkage between the bureaus of intergovernmental bodies, such as the Multilateral Environmental Agreements.
87. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards exploring the option of having inputs to present to global forums to strengthen the interlinkages and informal exchanges between bureaus dedicated grants to bridge the gap between major groups and stakeholders on environment and regional intergovernmental platforms and interagency mechanisms on the 2020 to 2050 agenda at regional level with Major Groups and Stakeholders.
88. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to support existing governing bodies of agencies, funds and programs and give further opportunity to look for synergies and integration within the global agenda.
89. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally in delivering the environmental dimension of the global agenda through its inputs to in the form of outcomes and messages focusing the cycles of regular assessments and reports to be reviewed in light of decisions on global follow-up and review process.
90. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally in providing assessments, policy-analysis, and integrated analytics and –approaches, to deliver on the environmental dimension of the global agendas, including the follow-up and review process along with supporting countries, stakeholders and donor systems entities’ implementation global enviromental agendas through our technical expertise, knowledge systems and global partnerships and initiatives, including through joint programming at the country level.
91. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to align strategic planning to global agenda and strengthen collaboration with the rest of the global system, through the international system-Wide framework of Strategies on the Environment, to ensure coherence, knowledge sharing and capacity development, and in doing so embedding global normative frameworks and addressing emerging environmental issues.

92. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards environmental dimension in a sustainably managed environment is a prerequisite for socio-economic development and poverty reduction. The natural environment supplies ecosystem goods and services that provide income, support job creation, poverty alleviation, and contribute to safety nets and reduce inequity.
93. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to end hunger, achieve food security and improve nutrition and promote sustainable agriculture: Nature provides direct sources of food and a series of ecosystem services (e.g. pollination, soil formation, nutrient cycling, and water regulation) that contribute to food security and nutrition, supporting agricultural activities. Increasing world population and changes in consumption patterns put pressure on the environment creating the need to produce food for an additional two billion people by 2030, while preserving and enhancing the natural resource base upon which the wellbeing of present and future generations depends. This is important considering that unsustainable expansion of agriculture has created serious environmental problems such as soil erosion, water pollution through agrochemicals, and emission of greenhouse gases.
94. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure healthy lives and promote well-being for all at all the ages: A clean environment is essential for human health and well-being. However, the interactions between the environment and human health are highly complex. Indoor and outdoor air pollution, water related diseases, water pollution, and poor management of hazardous chemicals and waste all contribute to undermine health.
95. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all along with formal and informal education, including, public awareness and training are critical for promoting sustainable development and improving the capacity of the people and countries to address environmental and development issues and to create green and decent jobs and industries.
96. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to achieve gender equality and empower all women and girls: Understanding the links between gender inequality and environmental degradation, and taking responsive actions, can accelerate positive dynamics and promote sustainable development outcomes. Enhancing property rights and access to land and natural resources to women can contribute to reduce gender inequalities, improve their livelihood options and poverty status.
97. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure availability and sustainable management of water and sanitation for all Sustainable management of water resources and access to safe water and sanitation are essential for unlocking economic growth and productivity, and provide significant advantage for existing investments in health and education. The natural environment e.g. forests, soils and wetlands contributes to management and regulation of water availability and water quality, strengthening the resilience of watersheds and complementing investments in physical infrastructure and institutional and regulatory arrangements for water access, use and disaster preparedness. Water shortages undercut food security and the incomes of rural farmers while improving water management makes national economies, the agriculture and food sectors more resilient to rainfall variability and able to fulfil the needs of growing population.
98. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure access to affordable, reliable, sustainable and modern energy for all: Lack of access to energy supplies and transformation systems is a constraint to human and economic development. The environment provides a series of renewable and non-renewable energy sources i.e. solar, wind, hydropower, geothermal, biofuels, natural gas, coal, petroleum, uranium. Increased use of fossil fuels without actions to mitigate greenhouse gases will have global climate change implications.

99. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all: The natural environment plays an important role in supporting economic activities. It contributes directly, by providing resources and raw materials such as water, timber and minerals that are required as inputs for the production of goods and services; and indirectly, through services provided by ecosystems including carbon sequestration, water purification, managing flood risks, and nutrient cycling. 80. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation: Constructing new greener infrastructures and retrofitting or reconfiguring existing infrastructure systems are cost-effective and resilient approaches to address issues such as water security, energy security, food security or flood resilience, and exploit the potential of smart technologies to reduce environmental impacts and increase efficiency in the use of natural resources.
100. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to reduce inequality within and among countries: Environment can contribute to the reduction of inequity, including through sound management of natural resources and critical ecosystems, as well as supporting institutional arrangements regarding the use and access to natural resources. Lack of access to natural resources on the other hand is a major contributor to inequality.
101. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to make cities and human settlements inclusive, safe, resilient and sustainable: There is a strong link between the quality of life in cities and how cities draw on and manage the natural resources available to them. To date, the trend towards urbanization has been accompanied by increased pressure on the environment and accelerated demand for basic services, infrastructure, jobs, land, and affordable housing, particularly for the nearly 1 billion urban poor who live in informal settlements. Resource efficient cities combine greater productivity and innovation with lower costs and reduced environmental impacts, while providing increased opportunities for consumer choices and sustainable lifestyles.
102. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure sustainable consumption and production patterns: One of the greatest global challenges is to integrate environmental sustainability with economic growth and welfare by decoupling environmental degradation from economic growth and doing more with less. Resource decoupling and impact decoupling are needed to promote sustainable consumption and production patterns and to make the transition towards a greener and more socially inclusive global economy.
103. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to take urgent action to combat climate change and its impacts: Climate change is increasing the frequency and intensity of extreme weather events such as heat waves, droughts, floods and tropical cyclones, aggravating water management problems, reducing agricultural production and food security, increasing health risks, and damaging critical infrastructure for the provision of water and sanitation, energy and transport services.
104. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to conserve and sustainably use the oceans, seas and marine resources for sustainable development: The oceans cover more than 70 per cent of the surface of our planet and play a key role in supporting life on earth. They are the most diverse and important ecosystem, contributing to global and regional elemental cycling, and regulating the climate. The ocean provides natural resources including food, materials, substances, and energy. Marine Protected Areas contribute to poverty reduction by increasing fish catches and income, creating new jobs, improving health, and empowering women. Increasing levels of debris in the world's seas and oceans is having a major and growing economic impact.
105. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss: Terrestrial ecosystems provide a series of goods, raw materials for construction and energy, food and a series of ecosystem services including the capture of carbon, maintenance of soil quality, provision of habitat for biodiversity, maintenance of water quality, as well as regulation of water flow and erosion control, therefore contributing to reduce the risks of natural disasters such as floods and landslides, regulate climate and maintain the productivity of agricultural systems.

106. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels: A better understanding of the links between environment and human security is vital for effective conflict prevention, post-conflict reconstruction and promotion of peaceful and inclusive societies. Furthermore, strengthened institutions, rule of law and enforcement contribute to support the implementation of multi-lateral environmental agreements and progress towards internationally agreed global environmental goals.
107. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen the means of implementation and revitalize the global partnership for sustainable development: Stronger partnerships will contribute to sustainable development by mobilizing resources, sharing knowledge, promoting the creation and transfer of environmentally sound technologies, and building capacity. There is tremendous scope for making the existing financial system more sustainable by integrating the environment dimension. There is increasing cooperation among multilateral organizations, donors and private sector to provide developing countries and beneficiaries with technologies that increase efficiency in the use of natural resources, generate low waste, treat the generated pollution and mitigate climate change.
108. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards strengthening the science-policy interface for evidence-based decision making and continue to identify science that integrates social, economic and environmental considerations for policy and decision-making.
109. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to feed information from multiple stakeholders into data gathering, analysis and assessment processes at the national, regional and global levels. UNEP will evolve its public advocacy, awareness and outreach to mobilize all those who can influence the changes needed to achieve the global agendas.
110. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards developing multi-purpose indicators to track the global agendas at all levels – including creating a National Reporting System and reporting obligations database to help countries reduce the burden of reporting and build on existing data; and Building the capacities of countries to collect and analyze data, and establish communities of science that involve all levels of society.
111. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards providing expert knowledge and technical assistance on the environment and support in providing technical guidance and support for environmental governance, developing coherent laws and policies and their effective implementation. This is to ensure that countries have in place frameworks for environmental laws and institutions, and that environmental considerations underpin development policy.
112. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards convening stakeholders to agree on global environmental norms and standards: Inclusivity is an important part of 2020 to 2050 Agenda recognizes that access to information is a key condition for citizen participation, transparency and accountability. Significant efforts have been made to ensure that citizens, civil society, various levels of government and the private sector are consulted on the new agenda.
113. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally will continue creating and facilitating avenues for cooperation between the governments, bilateral and multilateral agencies, companies and civil society organizations to initiate joint commitments and actions and greater integration of normative frameworks work.
114. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally to deliver system needs to be innovative, agile, inclusive, and results-oriented global system recognized the need for integrated system-wide policies and strategies in support of the policies that link normative frameworks with operational activities and encompass agencies activities along with increasing integration of these normative frameworks such as human rights, gender equality, peace and security into its work.
115. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally promoting partnerships ability to redefine how it engages with partners and works with other stakeholders towards shared sustainable development outcomes is crucial for the effective sustainable development cooperation will require the formation of issue-based coalitions and platforms that integrate multiple stakeholders (governments, civil society and the private sector) to improve decision-making, strategic planning, service delivery, knowledge sharing, collective monitoring and accountability at all levels.

116. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally supporting the universal nature global agenda will contribute to the efforts for system-wide coherence on sustainable development from its environmental perspective – with a focus on creating coherence in the way the system integrates the environmental dimension to implement normative guidance, environmental safeguards and delivering as one at the country level. Many global challenges relate to global public goods, most of which emerge from a multilevel process, requiring policy action at the national, regional and global levels.
117. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally engaging will include methods for reviewing, learning and flexible readjustment, to ensure that actions taken at the national and regional levels are linked to global targets along with supporting implementation and building capacity in the regions. A strengthened strategic regional presence will enable to work towards global consensus and policy coherence on key issues relating to the environmental dimension of sustainable development, while creatively pursuing specific opportunities and approaches available regionally. It will enable to foster effective partnerships.
118. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally addressing emerging issues through its foresight process, to produce a careful and authoritative ranking of the most important emerging issues for the global environment, including those related to the implementation.
119. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally supporting a global shift towards clean and environmentally sound technologies agenda towards pressing challenges such as water and food security, health, energy security and climate change by prioritizing external and internal coordination wide-spread capacity building and strengthened efforts to make the Technology Facilitation Mechanisms.
120. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards operational and responsive to a long-term, systemic environmental perspective with overall level of complexity and ambition. To address such a significant number of interrelated aspects will require a highly integrated approach to environmental policy-making, ensuring that connections are made with other development concerns, such as human rights, gender equality, economic growth, and employment.
121. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally adopting a more results-focused, longer-term outcome planning approach, aligned to the target with a logical progression of outcomes to achieve these goals and the outcomes to be achieved.
122. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to provide the building blocks, each of which has developed an outcome map towards a global objectives in response to relevant global targets. This will allow the monitoring of progress made towards implementation of the environmental dimension as well as reporting towards towards efforts will be environmental advocacy based on strengthened science policy linkages aiming to create or change policies, laws, regulations, distribution of resources or other decisions that affect people's lives.
123. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally towards strengthening the science-policy interface is the idea of providing timely scientific and empirical information in an accessible manner to policy makers, in order to support their informed decision-making.
124. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally providing knowledge on trends and outlooks through assessments and analysis along with convening stakeholders and focusing action on catalytic policy goals and interventions identifying and communicating key messages and making these resources available as resources to decision-makers.
125. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally showing such leadership and investment on the environment dimension, provides leverage for action and enables member states, civil society organizations and global system entities to support transformative change to sustainable development.
126. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards significant increase in the engagement and participation of stakeholders provides an opportunity to expand, enhance and forge new partnerships.

127. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards multi-stakeholder partnerships relevant to the global inclusive Green Economy, maximize the benefits to human well-being that derive from a healthy environment, Climate and Clean Air Coalition, Climate Technology Centre and Network, technology mechanism and promotes the accelerated development and transfer of climate technologies for adaptation and mitigation.
128. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards reducing emissions from deforestation and degradation in developing countries, correcting market failures by including ecosystem goods and services including the role of conservation, sustainable management of forests and enhancement of carbon stocks.
129. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to disasters and Conflicts is housed within emergency services branch, and assists member states to prepare for and respond to environmental emergencies in an integrated manner.
130. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards healthy and productive ecosystems global plans of action are coordinated to enhance international cooperation and find solutions on marine litter, nutrient management and wastewater respectively, and their associated impacts on economies, ecosystems and human health.
131. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services which produces fast-track assessment on issues such as pollination and food production, land degradation and invasive species.
132. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally environmental Governance, Poverty and Environment Initiatives that provides tailor-made and practical tools and methodologies for developing countries to catalyse major changes to government policy and budgetary priorities that sustain natural resources and end poverty.
133. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards International Advisory Council for the Advancement of Justice, Governance and Law for Enforcement Sustainability the nine-member advisory council includes Chief Justices, senior judges, auditors and legal academics.
134. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to provide strategic guidance to the international community in improving the legal foundations for achieving international environmental goals, and overcoming legal barriers to inclusive sustainable development.
135. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally management of chemicals and Waste through matters such us global mercury Partnership in mining territory to protect human health and the environment from the toxic effects of mercury, dumping of industrial wastes in waters, pollution from industries, special programme for chemicals waste support country-driven institutional strengthening at the national level, in the context of an integrated approach to address the financing of sound management of chemicals and waste.
136. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards strategic approach to International Chemicals Management has the overall objective to achieve the sound management of chemicals and waste throughout their life cycle managing chemicals are produced and used in ways that minimize significant adverse impacts on human health and the environment.
137. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards resource efficiency and sustainable Consumption and Production through International Resource Panel to provide decision-makers and other stakeholders with scientific assessments on the sustainable use of resources and the environmental impacts over their full life cycles.
138. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards framework of program on sustainable consumption and production through a global framework of action to enhance international cooperation to accelerate the shift towards sustainable development to finance Initiative works on innovative financing with the private and financial sectors, contributing to the discourse on financing for climate and wider sustainability issues.
139. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally is looking into the design of a sustainable financial system, including policy options in support of financing a green economy along with supporting countries in leapfrogging to energy efficiency with the enlighten initiative and a new partnership on appliances.

140. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards flagship participatory and global assessment that builds capacity for conducting integrated environmental assessments and reporting on the state, trends and outlooks of the environment products that facilitates the interaction between science and policy.
141. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards research on environmental development and climate change vulnerability, Impacts and Adaptation as global initiative to provide direction and coherence at the international level for research on vulnerability, impacts and adaptation.
142. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards addressing availability and importance of environmental and societal information and networking to decision-making offering a forum to convene thought and action leaders to collaborate towards strengthening existing initiatives and filling future gaps.
143. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance cross-cutting policies and programmes that can be expanded and enhanced to embed and forge partnerships with stakeholders working in related sectors.
144. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards role in advocacy, e.g. through environmental NGOs and their inputs to international treaties where stakeholders will be supported encouraged to participate in the preparations of platform to provide an opportunity for the public to contribute ideas to the implementation of global agenda and in preparations of the global environmental strategic plans advocating for "Healthy Environment-Healthy People," inniatives. This will help provide governments and policy makers with inputs from a wide spectrum of stakeholders on issues and options/solutions.
145. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally by providing a unique opportunity for countries to strengthen the environmental advocacy role by entering into a dialogue and building relationships with the civil society on key issues, partnerships and coalitions for the environment are more likely to succeed. Major Groups and Stakeholder engagement and participation enabling multi-stakeholder approaches and is an important opportunity for successful policy dialogues.
146. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards inter-agency coordination mechanisms to promote the integration of environment perspectives in system-wide efforts to support member states in the implementation. These mechanisms provide effective platforms to promote coherence in policies and strategies directly relating to the environment at global, regional and country levels, as well all global-system policies reflecting an environmental perspective.
147. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards Environment Management community issues towards a system-wide coordination body on environment and human settlements, which identifies issues on the international environmental agenda that warrant cooperation, and finds ways to engage its collective capacity in coherent management responses.
148. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally including drawing on their comparative advantages and specialization, working collaboratively and delivering together along with intensifying efforts to integrate environmental dimension across the global system's agenda as a common response working collaboratively through Environment Management Group and other mechanisms, strategies and innovative partnerships, in order to deliver better results and impacts, create synergies, strengthen collective action and maximize the potential for environmentally sound development.
149. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards contribution to implement the Framework of Strategies on the Environment, upon its completion, within their mandate, resources and capacities to respond collectively to the environmental sustainability aspirations.
150. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally advocacy working across substantive areas and aim to achieve synergies across the goals and also across global pillars is essential to delivering collective action advocacy at all levels, including directed to individual global system governing bodies, will be important to mobilizing all sectors and all actors.

151. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to partner to produce one set of principles, across policy, operational and administrative aspects of the work, to guide the global system's support to the implementation for Sustainable Development.
152. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards explored collective and flexible approaches to deliver through multi-stakeholder partnerships, dissemination of evidence-based policies and scaling-up of effective and innovative interventions committed to increase the impact of youth employment policies and expand country-level action on decent jobs for young women and men.
153. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop common approach to addressing inequalities and discrimination as an integral part of a human rights based approach and in line with key imperatives of “leaving no one behind” and “reaching those furthest behind first”.
154. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards promoting Peaceful, Just, and Inclusive Societies, Preventing Conflict, and global agenda’ reiterated that preventing conflict is a shared objective and responsibility of the entire global system, as a crosscutting thread across all global agendas without creating additional processes, layers or functions.
155. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards responsible for coherent, efficient and cost-effective management across the global system of organizations is developing approaches to strategically reposition the global system on the management and operational way that requires appropriate business models, responding to the need to attract and retain a multi-sectoral workforce and environmental development.
156. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards innovative and sustainable business solutions to deliver high quality, efficient and cost-effective operational services.
157. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to coordinate operational activities at country-level to achieve the internationally agreed development goals and is now supporting the implementation of the global agenda for Sustainable Development committed to a series of strategic actions that will guide its work.
158. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards integration of the development, humanitarian, human rights and peacebuilding agendas; providing good practice and knowledge resources on mainstreaming and accelerating effective and coherent support, encouraging evidence-based joint programming accelerating higher performing and common business practices, including through the mutual recognition of each other’s best business practices, and the system-wide adoption of best practice; moving to joint programs and joint financing and investment strategies, as well as designing and utilizing global and country-based, multi-window pooled funding platforms for the and being accountable, at all levels, for inter-agency approaches and agreements and enable agency programming and operations at the country-level as per agreinclusiveness and transparency, among other factors.
159. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to follow-up and review at the global level recommends important steps to intergovernmental forums in collaboration with other global system entities to bridge the gap between major groups and stakeholders on environment and regional intergovernmental platforms and interagency mechanisms by organizing key regional forums and supporting participation as these regional mechanisms.
160. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally routinely review and synthesize environmental outcomes and priorities of sub-regional and regional intergovernmental outcome documents to inform the agenda and discussions of regional Ministers of Environment meetings and share with partners to forge a common understanding and voice on sub-regional and regional environmental priorities.
161. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen linkages between annual regional commission sessions and environment to provide guidance on global norms and standards for keeping the environment under review. This necessitates the development and use of adequate tools, follow-up on the link between science and policy, to alert and prompt action on emerging issues, and bringing together thematic follow-up and review processes. Sustainable development requires strengthened capacities and building effective institutions, and help to frame contribution for systemic change, in particular as catalyst for policy and institutional coherence, effective partnerships and accountability.

162. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to translate this guidance toward the environmental dimension, by ensuring effective linkages are made with the follow-up and review arrangements, including global enviromental conferences and processes focusing on integrating the multiple outcomes related to these processes, ensuring a multidimensional and global perspective.
163. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to guide its own processes on the integration of the environmental dimension in accordance to preparations and outcomes including the potential cross-cutting themes that are likely to inform its annual review and follow-up.
164. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to facilitate sharing of experiences, including successes, challenges and lessons learned, and provide political leadership, guidance and recommendations for follow-up. This will ensure that the agenda remains relevant and ambitious and should focus on the assessment of progress, achievements and challenges faced by developed and developing countries as well as new and emerging issues.
165. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen the "science-policy interface," including by considering the global sustainable development strategic plans along with the contribution of relevant information and analyses with respect to the environmental dimension of sustainable development, and also consider the findings and recommendations of its deliberations and strategic guidance to the environmental dimension of sustainable development, and in the context of global environmental program of work.
166. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure coherence and integration of recommendations and resolutions in the environmental dimension, including with other newly created arrangements such as the Multi-Stakeholder Forum on Science and Technology to ensure a close linkage between the bureaus of intergovernmental bodies, such as the Multilateral Environmental Agreements.
167. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards a crucial role to play in delivering the environmental dimension form of outcomes and messages. The cycle of regular assessments and reports should be reviewed in light of decisions on follow-up and review process.
168. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance contributions to exercise of its mandate and functions, including the transmission of key outcomes and messages.
169. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards playing a pivotal role in providing assessments, policy-analysis, and integrated analytics and –approaches, to deliver on the environmental dimension of global environmental goals, including the follow-up and review process through its technical expertise, knowledge systems and global partnerships and initiatives, including through joint programming at the country level.
170. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to align its strategic planning to global agenda and strengthen collaboration with the rest of the global system, Framework of Strategies on the Environment, to ensure coherence, knowledge sharing and capacity development, and in doing so embedding global normative frameworks and addressing emerging environmental issues
171. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards accountability for results and transparency to create authoritative voice and a global leader in its field of work world metrological.
172. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally on metrological decisions and actions characterized by adherence to the highest scientific and technical standards, integrity, professionalism, capacity to perform and effectiveness taking responsibility for delivering high quality results.
173. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally for quality management and cost-effectiveness along with creation collaboration and partnership partnerships among members, multilateral and bilateral development partners and other relevant actors, including the private sector, academia and other non-state players, to leverage investment, enhance capability and performance of National Meteorological and Hydrological Services, and deliver improved outcomes for society.
174. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards Inclusiveness and diversity committed to support all Members and narrow the capacity gaps among them in the delivery of services by sustaining government support, international cooperation, catalysing investment and targeted assistance.

175. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally on the priorities identified by its regional bodies to ensure the coordination and implementation of its programs, strategies and activities and facilitate the transfer of measurements become more sophisticated.
176. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally by enhancing preparedness and reducing loss of life, critical infrastructure and livelihood from hydro meteorological extremes, supporting climate-smart decision making to build or enhance adaptive capacity or resilience to climate risk, enhancing socioeconomic value of weather, climate, hydrological and related environmental services.
177. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally reflecting on these key priorities, there will be a need to involve a broad set of stakeholders and multidisciplinary expertise to address the current and future challenges facing society as a consequence of changing weather, climate and water patterns worldwide to be effective fostering collaborative mechanisms to better align interests, build community and engage stakeholders and experts under weather, climate and water.
178. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to better serve societal needs delivering, authoritative, accessible, user-oriented and fit-for-purpose information and services Long-term outcome: Enhanced capability of Members to develop, access and utilize accurate, reliable and fit-for-purpose weather, climate, water and related environmental impact-based services to best support the policy-making and actions that implement sustainable development and mitigate weather, climate and water-related risks.
179. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen national multi hazard early warning/alert systems and extend reach to better enable effective response to the associated risks Warnings on weather, climate, water and other environmental extreme events are essential for the safety of lives and livelihoods, recognized under Global Agenda and foundational to all governments.
180. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance impact- and risk-based extended forecast and warning products and services to enable better preparedness and response to hydrological and meteorological events along with strengthen national capacity in multi-hazard early warnings.
181. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance access to official national meteoro– logical and hydrological forecasts and warnings globally in support of regional and global requirements provision of policy- and decision-supporting climate information and services.
182. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally providing a unique platform for guiding and supporting activities across the value chain for climate services, which contribute to adaptation, mitigation and reduction of loss and damage.
183. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance a climate service information system enabling all Members to access, and add value to, the best available global and regional climate information products and methodologies through improved processing, exchange and enhancement of information on past, present and future climate.
184. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to support countries production and delivery of authoritative national climate information products and services in priority areas to adapt and respond to climate variability and change, including through participation in National Adaptation Plans, and to avert loss or damage as well as to optimize benefits from climate-related opportunities.
185. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to refine metrological products containing key climate indicators, seasonal outlooks, and improved characterization of extremes and associated impact information recognized as key inputs for international climate-related policy implementation and global system action.
186. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop services in support of sustainable water management to reduce related risks and subsequent losses, improved access to reliable global and regional information on the current status and future World Meteorological Organization Authoritative flagship products conditions of water resources is critical, but stakeholders do not have a central source for this information.
187. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to establish a system to enable easy access to essential water resources information to support informed decisions based on current and expected hydrological conditions and enable better access to improved hydrological services, forecasts and warnings for water resources, drought and flood risk management and planning.

188. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to facilitate exchange of transboundary data and products through the Global Hydrological Status and Outlook System to enhance understanding of current and future water resources regularly reporting on the states of global water resources.
189. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance the value and innovate the provision of decision-supporting weather information and services Weather-informed decision-making for all modes of transport (aviation, marine, land), energy, agriculture, health, tourism, urban and other sectors will be raised to new levels, resulting in substantial productivity gains and positive environmental impacts. Service delivery approaches will be innovated to build Members' capacity to provide modern, fit for purpose and high quality services.
190. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance and increase weather services through the uptake of modern technology in service delivery, providing service excellence and implementing quality systems.
191. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to design and implement new weather and water prediction services for the specific needs of megacities and other urban areas along in provide with further guidance and assistance in the assessment and enhancement of socioeconomic benefits of their services.
192. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to establish principles and guidance for successful public-private engagement, and facilitate a continuous dialogue between players and stakeholders based on collaboration and mutual reinforcement.
193. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards standards, quality control mechanisms and recommended practices in a holistic manner for all service areas based on best national practices along with enhancing earth system observations and predictions.
194. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards strengthening the technical foundation for the future long-term outcome. An integrated Earth system observational network increasingly automated and optimized to ensure effective global coverage. High quality fit-for-purpose traceable measurements feeding a continuous global data exchange underpinned by data management and data processing mechanisms.
195. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to optimize the acquisition of Earth system observation data through the Integrated Global Observing System All in-situ and space-based observing programmes of global metrological statues are being consolidated in a single integrated system along with worldwide implementation of standards, principles and tools will enable Members to optimize their observing networks allowing Members to leverage observing systems operated by all relevant government agencies, research entities, non-profit organizations and private companies, including also non-traditional data acquisition vehicles such as crowd-sourcing and the Internet of things.
196. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally rapidly through coordinated global and regional plans, in particular further development and operational implementation of Global Basic Observing Network (GBON), electronic metadata inventories for all observing platforms, along with quantitative tools to monitor their data delivery and data quality along with Increase compliance with regulations and standards, and identify critical gaps in observational data coverage and address that through the integrated design of observing networks.
197. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop additional regulatory and guidance material developed to facilitate integration of externally-sourced observations under the global umbrella along with improving and increasing access to, exchange and management of current and past Earth system observation data and derived products through the meteological Information Systems.
198. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally through the useful shelf life for observations accessed through atmospheric composition, climate, hydrological and subscription Publish metadata Service registry, data processing and packaging Supply data Publish metadata Discover product Supply data WMO Information System Polar-orbiting meteorological satellite Polar-orbiting earth resources satellite Geostationary meteorological satellite High-altitude research aircraft International aircraft Meteorological research aircraft Radiosonde Pilotless aircraft Over-thehorizon radar Wind profiler Automated rain gauges and river-height gauges Meteorological observing station Domestic aircraft Automatic weather station Meteorological satellite ground station Baseline air pollution station Voluntary observing ship Drifting buoy Integrated Global Observing meteological systems.

199. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally in oceanographic observations from all times will need to be continuously available and accessible for research, climate monitoring, re-analysis and other applications to streamline and coordinate all metrological data management systems.
200. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to foster the continuous growth and evolution to accommodate and exploit the different technical capabilities of the Members and provide continued access to all observations acquired under all data generated under the Global Data Processing and Forecasting System for all countries.
201. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to further develop regulatory and guidance material governing international exchange of data, along with strengthened monitoring of compliance.
202. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to consolidate and further develop data management systems and practices through to help ensure that all observational data and key products are properly archived along with enabling access and use of numerical analysis and Earth system prediction products at all temporal and spatial scales from the seamless Global Data Processing and Forecasting System Major weather patterns are routinely predicted more than a week ahead, tropical cyclone landfalls are predicted accurately several days ahead, and even small-scale severe weather with high local impact is often forecasted with enough lead-time to mitigate its impact.
203. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to promote the development of Earth system Prediction, facilitate the use of cascading seamless system of numerical models operated by centres around the world and coordinated through to enhance national forecasting capabilities of all countries.
204. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to accommodate increased emphasis on probabilistic forecasting and coupled Earth system modelling to improve predictions over time scales ranging from long-term climate variability to seasonal/ sub-seasonal to short-term weather events and further develop regulatory and guidance material governing weather changes
205. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance and enable all Members to develop and/or improve their own national predictive capabilities benefiting from advances in quantitative model- and impact-based forecasting products.
206. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance targeted research Leveraging leadership in science to improve understanding of the Earth system for enhanced services Long-term outcome along with leveraged global research community resulting in fundamental advances in the understanding of the Earth system, leading to improved policy-relevant advice and predictive skill at all time scales in a seamless context. This will result in the strengthened forecast and warning performance of all countries research and operations coalesce to apply the best science to all components of the service value chain.
207. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance scientific knowledge of the Earth system to step up to the challenges and opportunities associated with fundamental Earth system science questions and will lead a global research effort that draws on the best expertise within, academia and research institutes.
208. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards seamless prediction considers not only all compartments of the Earth system, but also all disciplines of the weather–climate–water– environment value chain (monitoring and observation, models, forecasting, dissemination and communication, perception and interpretation, decision-making, enduser products) to deliver tailor-made weather, climate, water and environmental information covering minutes to centuries and local to global scales.
209. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards catalysing Innovation in Weather Science Implementation Plan by addressing overarching challenges in Earth system scientific research, modelling, analysis and observations, on topics such as atmospheric composition, the ocean/atmosphere/ land coupling, cryosphere, clouds and circulation, water availability, droughts and flooding, regional sea level and coastal impacts, highimpact weather, and climate variability and change.

210. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to prioritize research implementation plans and mobilize broad scientific community to help leverage global research potential to generate enhanced knowledge and understanding of the Earth system and related weather, water and climate linkages.
211. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to support advancement coordinated priority scientific assessments and services along with enhancing the science-forservice value chain ensuring scientific and technological advances improve predictive capabilities demonstrates the value of translating science into enhanced operational service delivery with societal benefits. Considering the exponential growth in the expectations of users and stakeholders in improved predictive capabilities and socioeconomic relevance.
212. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to ensure an effective science-for-service transition by accelerated research to operations applications and improve predictive capabilities in high-impact weather forecasting, seasonal to sub-seasonal to decadal prediction, polar prediction, urban and environment prediction and water cycle prediction.
213. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to enhance relevance and utility of products and services through a broader engagement of social science expertise and users including the consideration of local wisdom and local knowledge and closer collaboration between physical and social scientific groups by appropriately addressing sociocultural aspects.
214. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance policy-relevant science In the next decade science is expected to provide tools and solutions for suitable use in the implementation of national and international policies and actions along with key research initiatives, working closely with its partners, will advance scientific assessments and climate projections, authoritative global reports on greenhouse gases and other atmospheric constituencies, and new technologies to better quantify the carbon, energy and water cycles.
215. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Implement an integrated global greenhouse gas information system to enable Members to improve the quality and confidence in national greenhouse gas emission inventories along with enhancing the body of scientific knowledge assessed by other global scientific reports along with improve the basis of understanding for water resource management decisions drawing upon improved capabilities, especially in sub-seasonal to seasonal range.
216. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to close the capacity gap on weather, climate, hydrological and related environmental services enhancing service delivery capacity of developing countries to ensure availability of essential information and services needed by governments, economic sectors and citizens Long-term outcome: Improved access to regional and global monitoring and prediction systems and utilization of weather, climate and water information and services bringing tangible benefits to developing Members, in particular least developed countries, small-island developing states and Member island territories.
217. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally through strategic investments, technology transfer, knowledge and experience sharing, and by taking due account of social inclusion and gender factors along with addressing the needs of developing countries to enable them to provide and utilize essential weather, climate, hydrological and related environmental services the increasing vulnerability of many societies and economies to natural hazards and extreme weather events and the gaps in the capabilities to deliver adequate services – particularly those of developing countries, least developed countries and small island developing countries territories – required to strengthen its capacity development efforts, building upon existing capacities.
218. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Improve understanding of the specific capacity needs of each developing country with respect to technical, institutional and human resources, to enable them to provide adequate weather, climate, hydrological and related environmental services, in particular for protection of life, property and economic productivity.
219. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Mobilize strategic resources involving development partners and national governments and assisting to develop long-term strategies and operational plans to address the identified capacity needs and Increase visibility with sustainability of national metrological by demonstrating, promoting and communicating the societal-economic value of their weather, climate, water and related environmental observations, research and services.

220. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to develop and sustain core competencies and expertise to fill a growing deficit in the capability and numbers of adequately educated and trained staff needed to provide weather, climate, hydrological and related environmental services in many countries and territories. Additionally, rapid advances in scientific innovation and technological developments and means for public communication require corresponding and continuous training of national metrological personnel.
221. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to increase its training and long-term education activities to help Members to obtain and maintain needed competencies and Support Members in the recruitment and retention of staff with the appropriate qualifications and competencies required for effective service delivery through appropriate education and training programs focused on standards and recommendations.
222. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to support cooperation between developing and developed Members and full utilization of Regional Training Centres.
223. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to scale-up effective partnerships for investment in sustainable and cost efficient infrastructure and service delivery enhance the full spectrum of the weather, climate and hydrological services delivery to support the protection of life, property and the environment and the security of food production, energy and water resources. Scale up partnership investments to minimize cost and maximize the opportunity for the networks to be sustainable long beyond the lifetime of donor funded projects.
224. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to strengthen partnerships and alliances to share knowledge, technology and expertise with particular emphasis on the use of twinning arrangements along with entering into strategic, functional and mutually beneficial development partnerships and alliances with the key relevant intergovernmental and nongovernmental organizations, development agencies, the private sector, and academia.
225. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to provide leadership in promoting the principles on which global meteorology is built, emphasizing authoritative voice, common standards, data and product sharing.
226. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards realignment of structure and programmes for effective policy- and decision-making and implementation Long-term outcome along with Improved relevance, effectiveness and efficiency of the constituent bodies and implementation of this Strategic Plan through closer alignment of structures and processes with the strategic goals of the Organization.
227. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards optimizing constituent body structure for more effective decision-making and ensure the effective and efficient use of resources, including those of Members, through a more strategic focus of the action, and constituent body constructs, structures and processes adapted to implement the Strategic Plan.
228. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to Implement the decisions of Congress on optimized constructs, processes and duties of constituent bodies and organs to enhance the efficiency and effectiveness of the Organization and good governance.
229. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to streamline programs scientific and technical programmes need to be periodically reviewed to ensure their relevance to the Strategic Plan of the Organization as well as their effectiveness and efficiency of delivery. This will be done based on the principles of quality management, cost effectiveness, and optimal support by contributing experts and the Secretariat.
230. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards streamline scientific, technical and service programs to enable the Organization to better achieve the goals and objectives set in the Strategic Plan, ensuring coherence and consistency between the strategic, programmatic and financial frameworks.
231. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance equal, effective and inclusive participation in governance, scientific cooperation and decision-making Organizations that respect diversity and value gender equality demonstrate better governance, improved performance and higher levels of creativity. Gender equality and the empowerment of women are further key to scientific excellence and essential to meeting the challenges of climate change, disaster risk reduction and sustainable development, particularly Sustainable Development Goal.
232. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to advance gender equality across the Organization, especially in governance and decision-making, in implementation and the Gender Equality Policy.

233. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to provide equitable access to, interpretation of and use of information and services to women, men and all individuals irrespective of their gender and in particular to those from marginalized groups and attract more women, girls and individuals from marginalized groups to science and employment in through showcasing role models and investing in human capital.
234. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards guiding the decisions and activities in helping to realize global vision, and will serve as the focus for the upcoming global enviromental events taking into account strategic, operational, financial, compliance and reputational risks for the countries as outlined in key drivers.
235. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards the integrated operating Plan time-bound programme activities and projects, result-oriented budgets and success indicators along with running websites global platforms.
236. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally towards operating Plan forms the basis for resource allocation, and defines the risks and performance matrices against which to assess progress to achieve expected outcomes through Monitoring and Evaluation System.
237. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote transparent forest concessions and other contractual arrangements, with provisions for accountability, Community-based arrangements, decentralization of responsibilities and devolution of powers to local actors. Commitment to inter-sectoral development sustainable use of forest resources and international conventions and other agreements to promote sustainable management, conservation and utilization of forests and biological diversity.
238. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to organizations and institutions to promote enviromental conservancy to address the challenges obtaining in the forest sector in the countries to Contribute to poverty reduction, employment creation and improvement of livelihoods through sustainable use, conservation and management of forests and trees, Contribute to sustainable land use through soil, water and biodiversity conservation, and tree planting through the sustainable management of forests and trees.
239. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote the participation of the private sector, communities and other stakeholders in forest management to conserve water catchment areas, create employment, reduce poverty and ensure the sustainability of the forest sector.
240. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy to Promote farm forestry to produce timber, wood fuel and other forest products, Promote dry land forestry to produce wood fuel and to supply wood and non-wood forest products and Promote forest extension to enable farmers and other forest stakeholders to benefit from forest management approaches and technologies.
241. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy Development Policy strategy is to improve the standard of living of population by appropriately integrating into the mainstream national economy and social development in an environmentally sustainable manner. This Policy is largely supportive to sustainable utilization of fuel wood materials for charcoal especially in areas that are currently under communal land ownership.
242. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy by enacting National Land Policy that provides a platform for addressing current issues such as access to land, land use planning, restitution of historical injustices, environmental degradation, conflicts, unplanned proliferation of informal settlements, outdated legal framework, institutional framework and information management on forests.
243. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy energy Policy that seeks to ensure to ensure adequate, quality, cost-effective and affordable supply of energy to meet development needs, while protecting and conserving the environment. It recognizes environmental protection as one of the biggest challenge. It proposes several policy responses with the following being relevant to forest conservation.
244. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy enforcing protection of catchment areas, reforestation and afforestation, and encouraging agro forestry practices.

245. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy for countries to enact Water Policy to provide for the supply and distribution of water resources throughout countries that manages and recognises the fact that increased human activities in catchment areas have reduced forest cover and is hence a threat to water availability. This policy is applicable to river basin management and can therefore be applied in the management of river deltas, riverine forests and adjacent catchments. Its holistic approach to catchment protection provides room for synergies between forestry and water sectors in terms of resource mobilization.
246. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote Tourism and develop wildlife conservancy be enacting National Food Policy that summarizes the land use situation and the intensity of land use required for self-sufficiency in food. The biggest threat facing countrie's forests is agricultural land expansion especially through the short-term shifting cultivation. The policy advocates for stoppage of further destruction of forests in both gazetted and trust land forests. Its emphasis on increased food production may be at the expense of forests. It is an important policy to reconcile land use given the stiff competition forestry is facing from agriculture.
247. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy through strong Environmental Management and Coordination policies that provides a framework for integrating environmental considerations into the country's overall economic and social development. It aims at harmonising the various sector specific legislations that affect environment to ensure greater protection of the physical and social environment. Implementation of this Act is guided by the principle of public participation in the development of policies, plans and processes for environmental management. It also recognizes the cultural and social dimensions applied in the management of natural resources.
248. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy be enacting Water Act that provides for catchment protection and protection of wells and springs that occurs in the forest and further support community involvement in management of these catchments. It is also useful in riverine vegetation protection including other smaller rivers that flow into the ocean.
249. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy to support Forests Act. Countries Forest Service can therefore work with water user groups (consumers), service providers and water service boards to conserve catchment forests.
250. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy be embracing the Wildlife (Conservation and Management) strongly provides for the protection of endangered flora and Fauna as provided for in the Act, the process of gazettement and de-gazettement of protected areas under National Wildlife Service jurisdiction requires parliamentary approval. This level of decision-making and legitimacy of the whole process ensures protection of these areas.
251. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy be enacting The Agriculture Act, that provides for soil and water conservation and prevents the destruction of vegetation. Its effective implementation can help address short term shifting cultivation or the slash/burn agriculture, which is the main force behind forest degradation. The Act provides for rules to prohibit, regulate, and control clearing of land for cultivation and grazing of livestock thus complementing the Forests Act. Enforcement of the Act has been the biggest problem especially on protection of riverbanks that have been cultivated resulting in soil erosion and heavy silt load on rivers.
252. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy to embrace the Antiques and Monuments Act used for gazettement of areas of historical importance and threatened heritage now under threat from cultivation, charcoal burning and mining.

253. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy by embracing The Local Government that empowers local authorities to make by-laws used to control cutting of timber, destruction of trees and shrubs and afforestation. It also authorizes local authorities to take measures necessary to control bush fires, quarrying for minerals, sand, gravel, clay or stones. The Act is applicable in trust lands where resource exploitation needs control. Fires have been listed as major threat to our forests so an opportunity is available for engaging communities in firefighting and control. The trust lands under the control of the local authorities have witnessed massive destruction of forest resources through charcoal burning and other illegal forest activities.
254. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by embracing The Fisheries Act that regulates trout fishing in the forests and protects fish breeding areas and is relevant to mangrove management at the coast.
255. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy be enforcing local leaders and in Africa context Chiefs' Authority Act The Act empowers local Chiefs to enforce implementation of various environmental and conservation provisions within the local limits of their jurisdiction, including controlled use of tree resources on private land. This act is important because it checks the activities at grassroots level but its implementation has been weak.
256. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy towards policies relevant to Environment and Mineral resources sector Policies that also manages mining activities not to affect forestation and all activities have vision of tree planting along with recovery with rehabilitation.
257. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental ecosystems that faces various threats from the ever increasing human population pressure through tourism, industrial pollution, over fishing, destructive fishing, mangrove logging and other unsustainable use of marine resources.
258. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environment conservancy disaster management responses as an emerging environmental issue and states that the government will adopt approaches in combating climate change – mitigation and adaptation, response units to manage forest fires and restore, The policy recognizes that many of the natural disasters in countries are climate related, e.g. fires, floods, drought, occasional landslides, increased disease episodes, etc, and that the economic impact of these disasters cut across the key sectors of the economy. With agricultural production, industrial processing, manufacturing, tourism, infrastructure and public health being the most impacted. The policy anticipates that with climate change the frequency and intensity of extreme weather events such as floods and droughts will increase.
259. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy In order to deal with Climate Change to develop and implement a National Climate Change Strategy, Identify and raise awareness of opportunities for adaptation measures through promotion of appropriate technology transfer and capacity building, Develop and implement under the Kyoto Protocol's Clean Development Mechanism (CDM) programmes and projects that encourage significant levels of investment and technology transfer for sustainable development, Develop an integrated improved early warning and response systems for climate and disaster risks with a clear strategy for dissemination of information to the grassroots, Build and strengthen research capacity on climate change and related environmental issues.
260. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by embracing The Environmental Management and Coordination Act The legal framework for environmental concerns within countries is the Environmental Management and Coordination Act that has minimal content relating explicitly to either adaptation or mitigation of climate change.
261. Kingdom Global Environmental Agency will collaborate fund to support nationally and globally to invest in organizations and institutions to promote Tourism and develop wildlife conservancy institutionalizes a committee mandated to produce a National Environment Action Plans.

262. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote Tourism and develop wildlife conservancy a comprehensive approach and understanding around adaptation, which tackles vulnerable pastoral and agricultural communities, for instance, is lacking entirely. Although there are opportunities for mitigation through use of incentives/disincentives in section and reduction of emissions through proposed Air Quality Regulations in section, there is need to amend in light of the shortcoming and the fact that a new Environmental Policy to be established.
263. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy be embracing a Balanced Mining Act Prospecting and exploitation of mineral resources is regulated by the Mining Act managing a balanced mining work includes minerals found within countries parks, Continental Shelf, Territorial waters and the Exclusive Economic Zone that all activities take care of balanced investment.
264. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by developing infrastructure of roads, power connectivity, water for animals and hotels in parks, Renewable Energy solar and wind along with security surveillance systems and vehicles in parks and conservancies.
265. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy by supporting clean environment in parks and conservancies ,Biodiversity, Climate Change, Desertification, protection Endangered Species, Law of the Sea, Marine Dumping, Marine Life Conservation, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands, and Whaling.
266. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by ratified the Convention on Biological Diversity, the negotiated biodiversity agreement committed to sustainable use of biodiversity through significant progress in island biodiversity, mountain biodiversity and marine and coastal biodiversity.
267. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by embracing National Practice and Policy Framework there are protected areas to protect specific sites of biodiversity and cultural interest, with significance ranging from local to global.
268. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy by Joint Biodiversity Management Some currently existing initiatives for the joint management of biodiversity resources include medicinal plants networks, management of forest reserves, coastal forests and some sacred sites. This joint management is achieved through partnerships with local communities, businesses, multilateral institutions and not-for-profit organizations.
269. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy through In-situ conservation efforts and strategies These are achieved through National Parks, National Reserves, Sanctuaries, Marine Reserves and Forest Reserves managed in-situ & ex-situ conservation facilities in are mainly for plant species conservation. The National Gene bank undertakes ex-situ conservation of cultivated species and wild species of economic value such as medicinal plants and wild relatives of crops by supporting forestry research and also maintains ex-situ seed.
270. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy in preservation of botanical and Zoological Gardens along with National Museum that holds plants collections for research, education, conservation and recreation. Some institutions of learning and private institutions also maintain their own facilities.
271. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy arboreta and Parks in Urban centers and Municipalities are also served by gardens and parks like kenya has Uhuru Park and City Park in Nairobi.
272. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy of Rangeland Management in Kenya occupy about 70% of the land area and are home to large populations of wild animals and plants. Rangelands have a high value for leisure, pastoral livelihoods and scientific studies.

273. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy in supporting Integrated Land-Use Planning: Land-use planning as envisaged in the New Land Policy and the new constitution has opportunities that can help ensure that each part of the landscape is used for those purposes for which it is best suited for biodiversity conservation.
274. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy in supporting countries specialized programmes: These programmes are mainly centered on large, critical ecosystems or specific groups of critically endangered species, programmes for biodiversity audits, fencing off wildlife parks and reserves to stem human-wildlife conflict, the Save the Mau integrated project for catchments protection, the Lake Victoria Ecosystem Management Program that addresses challenges of dwindling inland fisheries, etc.
275. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy supporting Institutions in charge of Pollution Control Institution Ministry of Environment and Mineral Resources is the ministry responsible for the wide environmental management in countries through it parastatal, the National Environment Management Authority Ministries of public health and sanitation-environmental health including; Public Health, the working environment radiation control and management of hazardous wastes. Ministry of water development-through management of water resources utilization. Ministry of Local government-through management of urban environments by urban councils. Ministry of forestry and wild life-anti poaching and deforestation Ministry of Agriculture-Controls farming practices to prevent soil erosion in areas with sloppy land.
276. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy by Promoting environmental conservation in order to provide better support to the economic pillar flagship projects and for the purposes of achieving the Millennium Development Goals (MDGs) Improving pollution and waste management through the design and application of economic incentives Commissioning of public-private partnerships (PPPs) for improved efficiency in water and sanitation delivery Enhancing disaster preparedness in all disaster-prone areas and improve the capacity for adaptation to global climatic change Harmonizing environment-related laws for better environmental planning and governance.
277. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy flagship programmes for Pollution Control sector Flagship programmes The Water Catchment Management Initiative Securing the Wildlife Corridors and Migratory Routes Initiative the Solid Waste Management System InitiativeThe Plastic Bags Initiative which will require tightening regulations in order to limit production and usage of environmentally-detrimental plastic bags The Land Cover and Land Use Mapping Initiative.
278. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy programmes in the Land Degradation sector flagship programmes Details Land Use Master Plan. This will involve collecting accurate and continuously updated mapping of land use patterns in countries and of tracking development. This project will also entail undertaking both livestock and wildlife censuses and zooming of land in rural and urban areas that are currently unmapped. Waste management system this will entail preparation of a waste management strategy aimed at involving mainly the youth groups.
279. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy particularly the dandora dump site in Nairobi and the establishment of a solid waste management system for the city of Nairobi on a public private partnership basis. Urban sewerage programme will aim to improve sanitation and hygiene and reduce environmental pollution of towns located on shared water basins. Pilot projects will be based in Malaba, Lagdera, Wajir / Elwak and Liboi. Land Information Management system this intervention will contribute to poverty reduction, good governance and improved security of land tenure. The system will also enable the capture, management and analysis of geographically referenced land-related data in order to produce land information for decision-making in land administration and management.

280. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy project entails full rehabilitation of the water towers of Escarpments, Hills, Mt Elgon, Rehabilitation, Regeneration & Restoration of Rivers The aim of the programme is to fully rehabilitate the catchment basin of the Nairobi River in order to make it a recreation site. Other rivers like Ngong will also be covered under this programme. Water resources information management This will entail rehabilitation and acquisition of new hydrometric data which will be installed in strategic and vulnerable water resources (surface and groundwater) country-wide, and be linked to support World Hydrological Observation cycle rehabilitate hydro meteorological stations; capacities of will be built in lakes for purposes of planning groundwater development in the and replicated in other water harvesting and storage programme of dams in parks.
281. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy through construction of large multi-purpose dams some of this dam create water for wildlife, tourism water sports in nations , irrigation , facilitates tree growths along Water dykes will also be constructed along the lower reaches of rivers.
282. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy water storage and harvesting especially in parks the government aimed to construct two multi-purpose dams with a total storage capacity of cubic meters along rivers Nzoia and Nyando.
283. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy resources upon which our collective development depends through National Wildlife Strategy gives life to the Wildlife Policy. It provides a mechanism to coordinate the sector and implement the Wildlife Conservation and Management. Our strategy plan is designed to bring Kenyans together through a shared vision for wildlife as a cornerstone of our social, cultural, environmental, and economic development. In addition, the strategy provides a collaborative framework for implementation and crosssectorial coordination. Essentially, it is a mechanism to identify priorities, coordinate implementation and monitor impact. National Wildlife Strategy.
284. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy for this Strategy to succeed, the national government, local governments, communities and landowners' to improve effectiveness of their actions.
285. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy collective focus of countries to target threats and embrace opportunities for wildlife conservation.
286. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy to promote an ecosystem approach and inclusion of biodiversity in totality, Promote integrated planning and cross-sectorial coordination, Enhance awareness and participation, Include evidence-based decisionmaking, Embrace equitable and inclusive access to benefit sharing, climate resilience, good governance and sustainable financing.
287. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote enviromental conservancy towards resilient ecosystems engagement by all citizen in the countries and globally towards evidence-based decision-making Sustainability and governance.
288. Kingdom Global Environmental Agency will collaborate, fund to support nationally and globally to invest in organizations and institutions to promote environmental conservancy geared towards the purpose of the National Wildlife Strategy to provide an overarching framework that prioritizes, coordinates, and inspires participation for the transformation of the wildlife sector in countries.
289. Kingdom Global Tourism and Wildlife Agency will fund, collaborate, partner and invest in organizations and institutions to promote enviromental conservancy by prescribing principles, objectives, standards, indicators, procedures and incentives for the protection, conservation, and management of wildlife resources.

ENVIRONMENTAL QUOTES

1. "The earth is what we all have in common, care for it." —Wendell Berry
2. "The single biggest threat to our planet is the destruction of habitat and along the way loss of precious wildlife. We need to reach a balance where people, habitat, and wildlife can co-exist – if we don't everyone loses … one day." —Steve Irwin
3. "Deforestation is changing our climate, harming people and the natural world. We must, and can, reverse this trend." —Jane Goodall
4. "A nation that destroys is soils destroys itself. Forests are the lungs of our land, purifying the air and giving fresh strength to our people." —Franklin D. Roosevelt
5. "We live in a culture where people are more offended by 'swear' words and middle fingers than they are by famine, warfare and the destruction of our environment."
6. "Plans to protect air and water, wilderness and wildlife are in fact plans to protect man." —Stewart Udall
7. "[The movement to address climate change is] about something deeper than [justice], it's about solidarity. Human solidarity." —Bill McKibben
8. "It is our collective and individual responsibility … to preserve and tend to the world in which we all live." —Dalai Lama
9. "If the bee disappears from the surface of the earth, man would have no more than four years to live." —Albert Einstein
10. "If you are fearful of the destruction of the environment, then learn to quit being an environmental parasite." —Wendell Berry
11. "Caring for the Earth is not a hippie thing, it's a survival thing."
12. "It's easier to call vegans crazy than it is to question your morality."
13. "You cannot protect the environment unless you empower people, you inform them, and you help them understand that these resources are their own, that they must protect them." —Wangari Maathai
14. "recognize that created the world and start fighting against the people who are trying to destroy it as stewards! Dr Luke Mwangi
15. "What we are doing to the forests of the world is but a mirror reflection of what we are doing to ourselves and to one another … " —Mahatma Gandhi
16. "It's the little things that citizens do. That's what will make the difference. My little thing is planting trees." Wangari Maathai
17. "The environment and the economy are really both two sides of the same coin. If we cannot sustain the environment, we cannot sustain ourselves." —Wangari Maathai
18. "To damage the earth is to damage your children." —Wendell Berry
19. "Every day I supply oxygen for up to 4 people. Don't you think I'm worth saving?" —A tree.
20. "I speak for the trees, for the trees have no tongues." —Dr. Seuss (From The Lorax)
21. "Small acts, when multiplied by millions of people, can transform the world."
22. "Fast fashion isn't free. Someone else is paying." —Lucy Siegle
23. "First question is 'As individuals what can we do?' – the answer is: practically nothing! What could be done and always has been done in history is by people who are organized. The labor movement, civil rights movement, women's movement, anti-war movement, environmental movement. These can do things. And that's one of the reasons why powerful systems are so intent on atomizing people. " —Noam Chomsky
24. "Someone is sitting in the shade today because someone planted a tree long ago." —Warren Buffett
25. "We are in danger of destroying ourselves by our greed and stupidity. We cannot remain looking inwards at ourselves on a small and increasingly polluted and overcrowded planet." —Stephen Hawking
26. "If you really think the environment is less important than the economy try holding your breathe while you count your money."
27. "We are living on the planet as if we have another one to go to." —Terry Swearingen
28. "The greatest threat to our planet is the belief that someone else will save it." —Robert Swan
29. "It is the greatest of all mistakes to do nothing because you can only do little. Do what you can." —Sydney Smith
30. "Global warming isn't real because I was cold today! Also great news: world hunger is over because I just ate." —Stephen Colbert

31. “The truth is: the natural world is changing. And we are totally dependent on that world. It provides our food, water and air. It is the most precious thing we have and we need to defend it.” —David Attenborough
32. “Anything else you’re interested in is not going to happen if you can’t breathe the air or drink the water. Don’t sit this one out. Do something.” —Carl Sagen
33. “Trees are the answer to refresh the enviroment.”
34. “ … because when you stop and look around, this life is pretty amazing.”

"Choose only one master—nature." Rembrandt

"If we wait for the meek to inherit the earth there won’t be anything left to inherit” Bob Hunter, founder of GreenPeace

"Only if we understand, will we care. Only if we care, will we help. Only if we help, shall all be saved.”— Jane Goodall

“The cure for anything is salt: water - tears, sweat, or the sea. ” —Isak Dinesen

"Pursue something so important that even if you fail, the world is better off with you having tried.”— Tim O'Reilly

“Facts alone can't save the world. Hearts can. Hearts must. We're working to make sure that hearts do.” — Carl Safina

There is a pleasure in the pathless woods,There is a rapture on the lonely shore,There is society where none intrudes, By the deep Sea, and music in its roar, I love not Man the less, but Nature more, From these our interviews, in which I steal From all I may be, or have been before, To mingle with the Universe, and feel What I can ne’er express, yet cannot all conceal.—*Childe Harold’s Pilgrimage* by George Gordon Byron

"And I dream of the vast deserts, the forests, and all of the wilderness of our continent, wild places that we should protect as a precious heritage for our children and for our children's children. We must never forget that it is our duty to protect this environment. — Nelson Mandela.

"If you are not an environmentalist, you are either selfish or ignorant"—Andwar Bundini

“Earth provides enough to satisfy every man's needs, but not every man's greed.”— Mahatma Gandhi

"As we progress into the twenty-first century, anyone who considers themselves a realist will have to make the environment a top priority." —Leonardo DiCaprio

"The good news is that real-world hands-on conservation is alive and well and catching on across the America I travel."
—Ted Nugent

“To waste, to destroy our natural resources, to skin and exhaust the land instead of using it so as to increase its usefulness, will result in undermining in the days of our children the very prosperity which we ought by right to hand down to them amplified and developed.” — Theodore Roosevelt

“Look deep into nature, and then you will understand everything better."—Albert Einstein

“I really wonder what gives us the right to wreck this poor planet of ours.” — Kurt Vonnegut

“If you live in harmony with nature you will never be poor; if you live according what others think, you will never be rich.
— Seneca,Letters from a Stoic”

“The greatest threat to our planet is the belief that someone else will save it.”
—Robert Swan

“I believe in God, only I spell it Nature.” —Frank Lloyd Wright

"The more civilized man becomes, the more he needs and craves a great background of forest wildness, to which he may return like a contrite prodigal from the husks of an artificial life".
—Ellen Burns Sherman

"I think that I cannot preserve my health and spirits, unless I spend four hours a day at least – and it is commonly more than that – sauntering through the woods and over the hills and fields, absolutely free from all worldly engagements".
—Henry David Thoreau

“Here is your country. Cherish these natural wonders, cherish the natural resources, cherish the history and romance as a sacred heritage, for your children and your children's children. Do not let selfish men or greedy interests skin your country of its beauty, its riches or its romance.”
— Theodore Roosevelt
"If you can't be in awe of Mother Nature, there's something wrong with you." —Alex Trebek
"Our task must be to free ourselves by widening our circle of compassion to embrace all living creatures and the whole of nature and its beauty."— Albert Einstein

"The sea, the great unifier, is man's only hope. Now, as never before, the old phrase has a literal meaning: We are all in the same boat." —Jacques Cousteau
They say the sea is cold, but the sea contains the hottest blood of all, and the wildest, the most urgent. —D. H. Lawrence

“Live in each season as it passes; breathe the air, drink the drink, taste the fruit, and resign yourself to the influence of each.”
—Henry David Thoreau

A nation that destroys its soils destroys itself. Forests are the lungs of our land, purifying the air and giving fresh strength to our people.
– Franklin D. Roosevelt

"Men argue. Nature acts." - Voltaire

“I am pessimistic about the human race because it is too ingenious for its own good. Our approach to nature is to beat it into submission. We would stand a better chance of survival if we accommodated ourselves to this planet and viewed it appreciatively, instead of skeptically and dictatorially.”
— E.B. White

“One man cannot destroy our progress. One man can’t stop our clean energy revolution.”
—Arnold Schwarzenegger regarding Donald Trump

"When the last tree has been cut down, the last fish caught, the last river poisoned, only then will we realize that one cannot eat money."—American Indian proverb

"The environment is everything that isn't me"—Albert Einstein

"A true conservationist is a man who knows that the world is not given by his fathers, but borrowed from his children." — John James Audubon

"Nature does not hurry, yet everything is accomplished." —Lao Tzu

“The best remedy for those who are afraid, lonely or unhappy is to go outside, somewhere where they can be quite alone with the heavens, nature and God. Because only then does one feel that all is as it should be and that God wishes to see people happy, amidst the simple beauty of nature. As longs as this exists, and it certainly always will, I know that then there will always be comfort for every sorrow, whatever the circumstances may be. And I firmly believe that nature brings solace in all troubles.” — Anne Frank, The Diary of a Young Girl

“I felt my lungs inflate with the onrush of scenery—air, mountains, trees, people. I thought, '"This is what it is to be happy.'" — Sylvia Plath

“How sad to think that nature speaks and mankind doesn’t listen.” — Victor Hugo

“...I have spent all my time on something I consider worthwhile. In so doing you meet a lot of opposition.“
-Charles C. Deam

"The mountains are calling and I must go." - John Muir

I go to nature to be soothed and healed, and to have my senses put in order. —John Burroughs

Leave the road, take the trails. —Pythagoras

“Morally speaking, we should be concerned for our whole environment. We need to teach people that the environment has a direct bearing on our own benefit.” – Dalai Lama

"But there must be the look ahead, there must be a realization of the fact that to waste, to destroy, our natural resources, to skin and exhaust the land instead of using it so as to increase its' usefulness, will result in undermining in the days of our children the very prosperity which we ought by right to hand down to them amplified and developed." — Theodore Roosevelt

"Anyone who has accustomed himself to regard the life of any living creature as worthless is in danger of arriving also at the idea of worthless human lives." - Albert Schweitzer

“And Man created the plastic bag and the tin and aluminum can and the cellophane wrapper and the paper plate, and this was good because Man could then take his automobile and buy all his food in one place and He could save that which was good to eat in the refrigerator and throw away that which had no further use. And soon the earth was covered with plastic bags and aluminum cans and paper plates and disposable bottles and there was nowhere to sit down or walk, and Man shook his head and cried: "Look at this Godawful mess.”— Art Buchwald

“I am glad I will not be young in a future without wilderness.” - Aldo Leopold

“We need a national political leader to step forward, an environmental Churchill, to rally the world around this effort.”– Lester R. Brown

“If conservation of natural resources goes wrong, nothing else will go right.”— M. S. Swaminathan

Helpers Of Africa International International

Kingdom Global Justice for All Agency

Kingdom Global Bank seeks to help to support global citizens in helping access justice in areas in oppression of denied and delayed justice in the platform of legal justice, prisons, police , rehabilitation, human rights, reformation programs, investigations, security and all other areas through our Kingdom Global Justice for All Agency. We shall scale into new Heights in helping the oppressed by building Social Movements of change agents opposed to and committed to eradicating Violence against children, Women, youth, teens and men along with all others group settings and institutions. Our Values will go far to promote respect Integrity, Solidarity and Commitment that through working in partnership with community based organizations a critical mass will develop and work towards the eradication of violence against women. Using rights-based approach, many in the world are violated and vulnerable to violence because of unequal power relationships in the society. Therefore, through building effective partnerships with institutions and groups are led by community based organizations violence against women will be eradicated.

Many families especially this time of Covid 19 lockdowns have become a base of abuse Physical, sexual and psychological violence including battering, sexual abuse of female children in the household, dowry-related violence, marital rape, female genital mutilation and other traditional practices harmful to women, non-spousal violence and violence related to exploitation, child abuse, men harassments. In Communities there are Physical, sexual and psychological violence, including rape, sexual abuse, sexual harassment and intimidation at work and education institutions, trafficking in women and forced prostitution. In many states there is Physical, sexual and psychological violence perpetrated or condoned by the State, wherever it occurs. We have a strategic plan in part of a crucial process of refreshing individuals, families, communities and nations we are paused to reflect and learn through a rigorous external evaluation process of our past strategic plan. We seek to collaborate with governments, institutions, organizations and likeminded legal companies to establish a world that is free from all forms of Violence against all and building social movements of change agents opposed to and committed to eradicating Violence against all to carry us into the future. We celebrate this great milestone as we look back to almost two decades of organizational history. The main theme that runs through this strategic plan is 'Movement Building for Social Transformation', which in essence is, builds on Enhancing participation and expanding our constituency through partnerships to end violence against all along with delayed denied justice. Our strategy context is working in and gives some of the major national, regional and international legal and policy frameworks that will guide our work along with providing an analysis of the internal and external environment while section outlines in strategic goals and our monitoring and evaluation framework. This strategic plan introduces significant changes in how the business of addressing violence against all, welfare of people in police custodies and human conditions in cells, human conditions and facilities in prisons, speed and efficiency of justice systems in courts, support of arbitrators both individual and institutions, support of counsellors, support of rehabilitation programs, spirit of recognition of the multiple identities and the multiple forms of discrimination against women. This recognizes the multiple dimensions and actors in tackling violence against children, women, girls and youth also similarly.

Our focus and theory of change is guided by our belief that many citizens especially in developing countries are violated and vulnerable to violence because of unequal power relationships and inequity in access to resources in the society. Eradication of violence against therefore requires building effective partnerships with all our gender empowerment agency and community based organizations and other non-women networks that influence power and resource allocation. Such processes have guided our strategic decisions and we seek to further understand and unpack some of the key contextual challenges we operate in and their implications for human rights. This positioning is vital in informing our refined strategic focus and direction towards the future. 65. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to overcome the challenge towards low support from communities due to past errors and poor judgement in programme implementation both the management and Board will work together to build strong community based partnerships and regularly review the performance of partners.
66. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards Strategic Plan to Scale New Heights, Situation Analysis, International and continental legal and policy framework Violence against all as a universal phenomenon that persists in all countries in the world.
67. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to together with Kingdom Global Peace Agency we will help the prevention of conflicts that is a breeding platform for all manner of abuses some of which are repeat and have historical repeat processes.
68. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards advocacy monitoring gender dominance over each other that has historical roots and its functions and manifestations change over time. Oppression of women in some instances has been politicized and an analysis of the state's institutions and society, the conditioning and socialization of individuals and the nature of economic and social exploitation is required in any analysis of the phenomenon of violence against women.
69. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards management of devastating consequences for all who experience it and traumatic effects on those who witness it particularly children and women especially violence against women is both a cause and consequence of gender inequality.
70. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to access all to justice where all are socialized to complain about the violations they face and encounter in their families and communities.
71. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards strong patriarchal culture and practices within society and communities along with helping countries to boast restore confidence in justice systems as it manifests in public institutions such as law enforcement agencies and the judiciary.
72. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards with overcoming the challenge of trust in the justice system which is deemed to be corrupt and inept in many countries.
73. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards activating States commitment for addressing violence against all especially children and women as a public security and public health issue.
74. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards advocating for nations to provide a comprehensive bill of rights that guarantees all citizens the full enjoyment of their rights. Situation analysis.
75. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards contributing to the Implementation of the Constitution's Provisions related to Violence against Children, Orphans and venerable children and Women As pointed out above violence against women is fueled by unequal power relations between men and women. We shall host our own marriage seminars and support those who host such and churches being the key foundation and centers

76. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards supporting marriage counsellors, pastors, religious leaders who prepare youth for marriage and counsel marriages in distress to mentor couples against abuse against each other along with children who suffer when parents fight, divorce and separate. This will be one of our biggest area of invest to create foundation that will be create both safety for women, children by establishing the right environmental.
77. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to carry out research in specific contexts and use the results to advocate for holistic implementation of the Constitutional provisions along with scrutinize laws implementing the Constitution to ensure that potential contributors to violence against children, women and all will be identified and addressed.
78. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to strengthen legal and health service delivery in partnership with government agencies and civil society Strategic Plan Scaling New Heights Experience showing that public sector approaches to violence can make a difference.
79. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to support the health sectors and hospitals which serve as the first point of call for children and women who have suffered physical and sexual violence.
80. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to use past experience to strengthen its influence in the provision of public health services. This is ably supported by recent policy changes that the world governments have made about gender mainstreaming of the health services through the Second National Health Sector Strategic plan Annual Operations Plan.
81. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to create strong standards for state response to violence against all especially children and women giving an opportunity to engage in national advocacy efforts that demand accountability for human rights violations.
82. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards Influencing the development and design of Public policies with regard to abuse and brutality along with focusing on influencing public funding and demand for increased funding for public services specifically in the security and health sectors.
83. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to use its unique experience to put forward proposals based on case studies evidence to demand for better implementation and funding for public services working with national police, Directorates of public prosecution, Directorates of Criminal Investigation, Ministries of Health, Children departments, rehab centers, children homes for public offices in providing public services. There is an expectation from the public that they will receive quality responsive services. A human rights based approach to public service delivery emphasizes the participation of citizens especially the poor, vulnerable and excluded to ask questions and demand accountability.
84. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to ensure that our agency links its community based interventions with high level national policy change using our networks especially through churches and staff using membership on various national agencies of slum upgrade, smart cities, disaster response, food and agriculture, gender empowerment, health , education, OVCs along with departments focused on this areas to ensure that public bodies are performing their tasks and contributing to the full realization of children and women's rights in countries globally.
85. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards adopting a Supportive Governance Structure and Results based management to streamline government's structures and adopt and implement results based management practices undergirded by accountable governance and high standards of program implementation and results. This will enable the bank, agencies and departments to optimize its potential and be accountable to its constituency and support base.

86. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to strengthen Community interventions aimed at breaking the silence and stopping the cycle of violence with many projects and programs partnerships with community based organizations will be replicated.
87. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to Strengthen and deepen National, Regional and International advocacy to strengthen her strategic advocacy engagements through her membership to the global networks.
88. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards created a critical mass of knowledgeable staff, community activists, paralegals and community members who are well informed about the issues that we shall work on in partnership with likeminded organizations to successfully engage in high level national advocacy campaigns that have influenced the content of bills before parliament and national policies.
89. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards having a good charter of accounts produced regularly by our strategic department to guide program management and implementation of funded activities.
90. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards effective internal controls. International, regional and national networks, coalitions and intergovernmental organizations have recognized our experience and expertise and called upon the organization to provide technical support and training.
91. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally through community mobilization efforts and capacity building training.
92. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish an effective network of service providers consisting of media, health care workers, police officers, provincial administration, para-legal and community members all working for the prevention of violence against women.
93. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally towards sound financial management, experienced staff, complex governance structure relative to the size and functions of the organization.
94. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards overcoming the absence of a monitoring and evaluation plan, tools and system compromising of ability to demonstrate results, impact and transformation along with boasting global fundraising strategy that is aligned to the Strategic plan Lack of clarity of staff job descriptions, roles and responsibilities.
95. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to deal with challenges such as lack of clear communication to of recent changes within countries governance and management structure resulting in lack of understanding thereof, Lack of adequate infrastructure equipment and work tools, Human resources policies and practices not implemented and interns are not inducted and assessed , Lack of a performance management framework for organizations and low morale among staff who feel unappreciated and undervalued.
96. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards programme implementation carried out in silos and there is poor cross learning and mutual support within programmes despite the intersectionality theory of change adopted by our agencies.
97. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards research and conducting SWOT Analysis of Strategic Plans, Scaling New Heights, Opportunities Implementation of the women friendly provisions of Constitution of countries which relate to violence against children and women ability to implement its programmes and activities in a conducive environment as basic freedoms are respected and upheld by the government of the day Legal reforms receiving better support from parliamentarians in countries.
98. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally therefore there is a high likelihood that pending bills critical for children and women's rights will be enacted towards policy changes contribute to enhance mandate, the availability of progressive policy in the Ministry of Education and Health promote efforts to advance children, women and human rights for all.

99. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards increased use of social media such as Face book and twitter, socio media champions to advance existing opportunities to strengthen and deepen interventions for promoting women's rights. E.g. partnership with, Liverpool Centre, etc. New national budgeting guidelines provide an opportunity for our agency to influence budgetary allocations for security and health care for women. New constitution and a reforming judiciary provide a good opportunity for file public interest litigation where violations are occurring. Devolution policy provides an opportunity for the availability of funds in the counties that can be used social justice program. The present national political and economic environment is conducive to engage in high level national advocacy efforts.
100. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally to Increase in the demand for our agency and departments work as people become more aware of its activities. Threats Political parties' policies and practices interfere with women's rights to political participation. Slow economic growth and rising poverty levels affect women and will impact our work.
101. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to help global recession affecting Covid 19 affecting availability of funds for children and women's rights' program making it more difficult to raise institutional support. Strong patriarchal values and culture evident in law enforcement agencies Internet communication presents new challenges for protecting children and women's rights as a result of increased media abuse that objectifies women.
102. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards promoting children and women's rights as the number of bills deemed more important are prioritized in Parliament. This will ensure that we will change the way the organization operates, by improving performance, programmatic focus and delivery participatory and team-based approach to program planning and focuses on achieving defined and measurable results and impact.
103. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally will improve on programme delivery and strengthen management effectiveness, efficiency and accountability. During the will help ensure and monitor that all available financial and human resources continue to support the intended results.
104. Kingdom Global Justice for All Agency will fund, support, collaborate, and partner with institutions nationally and globally towards strategic annual Work Plans and Budgets for our activities along with those that we shall support. The annual activities will be derived from the efforts to achieve the key expected outcomes contained within the four strategic Objectives detailed in the logical framework below.
105. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards participatory Monitoring, Evaluation and Reporting system has been developed and will be used for effective result measurement for the programme. This will provide room for ex-ante, mid-term and ex-post evaluations for all projects being implemented. The improvements of strategies contained in this strategic plan coupled with the ever-changing external environment will inevitably require that pro-active change management process will have to be pursued.
106. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards the logical framework approach which is a process involving stakeholder analysis, problem analysis, SWOT and stakeholder analysis) has been used by the facilitators as the basis for developing the our strategic plan.
107. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards providing tools to help countries and like-minded organizations to design programs to think logically about what the effective programme will work well for specific countries and communities trying to achieve (the outcomes), what things the project needs to do to bring that about (the outputs) and what needs to be done to produce these outputs (the activities).
108. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally in research and analysis to enable the determination of strategic objectives as targeted at duty bearers and how each has to focus on its core mandate in order that they collectively provide an enabling environment that facilitates the survivors and other women in general to realize their rights in society.

109. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to provide support to children, women and all global citizens (who are the rights holders) as a way of empowering them to stand up to claim, realize and enjoy their rights.
110. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally this in essence is the core business and strategic Goal targets empowerment of community change agents for effective and sustainable outreach program. This Strategic Goals addresses the Organizational development issues in order that it builds an efficient and effective implementation competence.
111. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to create an enabling environment through championing duty bearers so that women can realize their rights Activities Outputs Output Indicators Means of Verification Outcomes Outcome Indicators Means of Verification to engage duty bearers represented by key national public institutions in high level national advocacy campaigns Feedback (new in-depth information) on their levels of service delivery in response to their respective sectors Demands for responsive services that are timely and effective from the respective agencies are made.
112. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards forming consortiums of children, women and men survivors target to reach through its legal and health referral services to be good will ambassadors of our projects and programs advocacy some will work as volunteers and others we shall hire as permanent staff to use there acquired knowledge and information to help others.
113. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally Support community based social movements to engage in high level advocacy empower them in Knowledge and skills on advocacy for children, women's and human rights for all to acquire Knowledge on how to change the circumstances of women acquired.
114. Kingdom Global Justice for All Agency will fund, support, and collaborate, partner with institutions nationally and globally training of Women Activists in leadership for social transformation in order to build a critical mass of change champions. A critical mass of leaders who take a stand against violence against children, women and all to be established.
115. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to undertake result measurement of the strategic plan implementation following a participatory approach where all stakeholders take part i.e. governance, management, field staff, beneficiaries and partners. It will not be expert driven but expert assisted. The stakeholders will also be the key audiences and consumers of the data and information that will be generated from this system.
116. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards alternative conflict resolution mechanisms (alternatives to the criminal justice process), Alternatives to pre-trial detention, Effective and credible non-custodial measures (or sanctions), Supervised early-release and aftercare programs, implementation and management of non-custodial measures for offenders, diversion programmes, and aftercare and other post-release programmes are what is often referred to as community corrections.
341. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to provide part of a solution to the problem of prison overcrowding, but that is not their main purpose. The main purpose of these programmes is to contribute to public safety through community-based interventions to rehabilitate offenders, support their social reintegration and desistance from crime.
342. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to protect the community and facilitate the reintegration of offenders , comprehensive strategy would go hand in hand with a comprehensive crime prevention strategy to reduce crime and the number of offenders and thus alleviate the pressure on the criminal justice system, Incorporate a social reintegration mandate into the various agencies mandate, mission and work plans, , amend existing laws and policies, Identify and mobilize resources to fund the further development of alternatives to imprisonment, ,Develop inter-agency agreements and protocols, Promote system integration and ensure continuity of intervention, Educate the public about the risks posed and the needs of offenders.
343. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally towards sound management of Prisons containment and safe custody of inmates, Rehabilitation and reformation of prisoners, Facilitation of administration of justice, Control and training of young offenders, Provision of facilities for children aged 4 years and below accompanying their mothers to prison.
344. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to building the capacity of the Directorate of Rehabilitation so that it may further develop focus on offender rehabilitation programmes that are responsive to the varied needs of prisoners, Reviewing the role of Prison Welfare Officers and determining their specific responsibilities regarding the rehabilitation and eventual social reintegration of offenders, Developing and offering training programmes for Prison Welfare Officers in assessment and intervention methods and skills, Developing and implementing a simple and suitable offender assessment tool and methodology capable, Developing a sustainable institutional framework ,for pre-release planning and intervention programmes for all prisoners (in collaboration with the KPAS and community-based agencies), Developing an inter-agency protocol for closer collaboration.

345. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to work with governments to ensure that justice shall be done to all irrespective of status, justice shall not be delayed, person who is detained held in custody or imprisoned under the law retains all the rights and fundamental freedoms in the Bill of Rights, humane treatment of persons detained held in custody or imprisoned, traditional dispute resolution mechanisms shall not be used to contravene the Bill of Rights, is repugnant to justice and morality or results in outcomes that are repugnant to justice or morality and consistent with this Constitution or any written law.
346. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to have sound systems governing prisons and rehabilitation in submitting returns to the National Committees, Implement the polices of the National Committee, Sensitize the local community on matters relating to rights, Review the progress of each individual offender, Receive and consider reports from the Community Service Officer, Make recommendations concerning the community service programmes, Advise and assist Community Service Officers in the execution of their duties, Ensure that Community Service Officers perform their duties in a satisfactory manner, To make such arrangements and to give such directions as may be necessary for the purpose of giving effect to Probation Orders, To train staff for the Probation Service and To act as secretary to the Central Probation Committee and to advise the Committee on all technical matters relating to the Probation systems.
347. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to act as liaison officer between the Central Probation Committee and the Commissioner of Prisons and any other authority or body concerned with the treatment of juveniles in all matters, and especially in matters relating to probation, approved schools and approved homes, To promote co-operation between the Probation Service and the Police Service and any other voluntary society affording appropriate social services.
348. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to generally to organize and supervise the Probation Service and to promote the efficient working thereof, To make such preliminary inquiries as the Court may direct into the antecedents, home surroundings and other circumstances of an accused person, To undertake the supervision of such Probationers as may be assigned to his charge, Subject to any directions given by the Court (whether in the Probation Order or otherwise), to visit the home of every such Probationer and make inquiries as to his conduct, mode of life and employment, To keep in close touch with the Probationer and to arrange to meet him at least once a fortnight during the first six months of the period specified in the Probation Order and thereafter at such intervals as he may deem necessary.
349. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on probationers to ensure that the Probationer understands the terms and conditions of the Probation Order and to endeavor by encouragement persuasion and warning to secure his observance of them, To advise assist and befriend the Probationer and, where necessary endeavor to find him suitable employment, If the Probationer is under eighteen years of age, to endeavor to secure his association with some suitable youth movement or other welfare organization, To keep proper and up-to-date records in respect of every Probationer for whom he is responsible including notes of visits and interviews and relevant details as to the conduct and progress of the Probationer.
350. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on probationers focusing on the establishment of a Central Probation Committee with a mandate to advise the Minister concerning policy, issues and allocation of services to various areas. establishment of Case Management Committees in various districts/areas of the country, To examine and review the work of Probation Officers in relation to individual cases, To receive and consider reports from Probation Officers, To make or direct the making of any communication which it may be necessary to make to the Court, To make or direct the making to the Central Probation Committee of recommendations concerning the Probation Service, To advise and assist Probation Officers in the execution of their duties, To ensure that Probation Officers perform their duties in a satisfactory manner.
351. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on truthful professional prosecution measures the Police the prosecuting authorities and the Judiciary should be aware of the problems caused by prison overcrowding and should join the prison administration in seeking solutions to address this problem, Judicial investigations and proceedings should ensure that prisoners are kept in remand detention for the shortest possible period avoiding for example continual remands in custody by the Courts, a system for regular review of the time detainees spend on remand.

352. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies of non-custodial measures be studied and applied in countries where such alternatives do not already exist, Imprisonment to be imposed as a last resort and for the shortest time possible, Sentencing practice to be reviewed and monitored to ensure consistency, Courts to be given powers to review decisions to imprison with a view to substituting community disposals in place of prison, Early and conditional release schemes
353. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on reformation and rehabilitation to take responsibility for their harmful behavior in a meaningful way, Gain insight into the causes and effects of their behavior on others, Change their behavior and desist from crime, Be accepted back into their community, Restorative justice is based on the principle that the most effective responses to offender crime are those that hold offenders accountable for their behavior in ways that reintegrate them into society rather than increase their sense of isolation and stigma.
354. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on incorporating victims back to community life in a standard format for such pre-bail reports should be developed and improved in consultation with the Judiciary, Some guidelines and training will be required for the Probation Officers involved in preparing the reports, to negotiate and finalize some agreements with the Police in terms of access to information about the offenders and the charges they are facing.
355. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on management of courts to understand and appreciate the role of Probation Officers in facilitating decision-making in the criminal justice process.
356. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies human sentencing policy and guidelines in sentencing regime based on the use of discretion by the Judiciary. In criminal justice system in countries taking the indeterminate sentencing approach sentencing is largely discretionary. Save for offences which attract a mandatory death penalty, such as murder and robbery with violence, Penal Code is couched in terms of maximum penalties for most of the offences created.
357. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies alternatives penalties include fines, Payment of compensation, Security to keep peace and be of good behavior, Discharge – absolute/conditional, Suspended sentences, CSOs, Probation. Some offences attract minimum custodial sentences hence alternatives may not apply to them (e.g. sexual offences). For most offences, work available; age and health of the offender".
358. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies that can manage over population and have humanitarian approach to keep non-serious offenders out of prison; , To punish an offender by requiring him or her to do work that benefits the community where he/she resides, To reduce the inflow of offenders into prison thus reducing the burden of maintaining them in custody, To rehabilitate the offender while ensuring he or she maintains ties with the family or retains his or her job.
359. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on efficiency of judicial and prisons system advising countries system on general implementation of the Act, collecting and collating data on community Service for general improvement of the national policy on community service, advising the Chief Justice on any need for enhanced application of the provisions relating to revision under the CPC so that the Court makes better use of CSOs in appropriate cases.
360. Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally to establish policies on capacity building on of Judiciary and prisons rehab systems in trainings for key stakeholders such as Magistrates, Lawyers, supervisors, Case Committee members, and Probation Officers, Develop practice guidelines, Conduct decongestion of prisons exercises, Spearhead a review of the Community Service Orders, to improve service delivery, Develop draft regulations, Undertake publicity through the printed and electronic media.

Kingdom Global Justice for All Agency will fund, support, collaborate, partner with institutions nationally and globally with working with governments to provide financing for elections along with the supervisory observer roles to oversee conducting or supervising referenda and elections to in continuous registration of voters and revision of the voter's roll, The delimitation of constituencies and wards, The regulation of political parties process, The settlement of electoral disputes, The registration of candidates for elections, Voter education, The facilitation of the observation, monitoring and evaluation of elections, The regulation of money spent by a candidate or party in respect of any election, The development of a code of conduct for candidates and parties, The monitoring of compliance with legislation on nomination of candidates by parties, accredit observers and election agents, delimit electoral boundaries, a poll register in respect of every polling station, award register in respect of every ward, a constituency register in respect of every constituency, a county register in respect of every county and a register of voters residing outside countries in the diaspora, manage elections announcements and thereafter reactions along with meeting budgets in partnership with Kingdom Global Peace and Conflict resolution.

QUOTES

This and many more will be areas of funding that we shall consider through Kingdom Global Justice for All Agency to impact all areas of Justice in institutions and organizations in countries some directly and others through partnerships with collaboration making the world we live to be habitat able for all in this generation and coming generations by the grace of God who is the author of true Justice and give it to us full of mercy. God bless our vision of **Helpers Of Africa International International** in this sector through this Kingdom Global Justice for All Vision, mission, agendas, projects, programs and areas of focus as you support them financially and through participations.
Together we must challenge individuals, communities, cities, counties, regions, states, and the nation to be accountable for the outcomes of the justice systems at every level of government.-- James Bell

"I am convinced that imprisonment is a way of pretending to solve the problem of crime. It does nothing for the victims of crime, but perpetuates the idea of retribution, thus maintaining the endless cycle of violence in our culture. It is a cruel and useless substitute for the elimination of those conditions--poverty, unemployment, homelessness, desperation, racism, greed--which are at the root of most punished crime. The crimes of the rich and powerful go mostly unpunished.
It must surely be a tribute to the resilience of the human spirit that even a small number of those men and women in the hell of the prison system survive it and hold on to their humanity."
— **Howard Zinn,**

"Prisons do not disappear social problems, they disappear human beings. Homelessness, unemployment, drug addiction, mental illness, and illiteracy are only a few of the problems that disappear from public view when the human beings contending with them are relegated to cages."
— **Angela Davis**

"As a society, our decision to heap shame and contempt upon those who struggle and fail in a system designed to keep them locked up and locked out says far more about ourselves than it does about them."— **Michelle Alexander,**

"We have a choice. We can embrace our humanness, which means embracing our broken natures and the compassion that remains our best hope for healing. Or we can deny our brokenness, forswear compassion, and, as a result, deny our own humanity."
— **Bryan Stevenson**

"Prison is designed to separate, isolate, and alienate you from everyone and everything. You're not allowed to do so much as touch your spouse, your parents, your children. The system does everything within its power to sever any physical or emotional links you have to anyone in the outside world. They want your children to grow up without ever knowing you. They want your spouse to forget your face and start a new life. They want you to sit alone, grieving, in a concrete box, unable even to say your last farewell at a parent's funeral."
— **Damien Echols**

"...bars only can't build better men and misery can only break what goodness remains."— **Stuart Turton,**

“All these institutions [prisons] seemed purposely invented for the production of depravity and vice, condensed to such a degree that no other conditions could produce it, and for the spreading of this condensed depravity and vice broadcast among the whole population.”— **Leo Tolstoy,**

“On the individual level, violence is driven by shame, isolation, exposure to violence, and an inability to meet one’s economic needs—factors that are also the core features of imprisonment. This means that the core national violence prevention strategy relies on a tool that has as its basis the central drivers of violence.”— **Danielle Sered,**

“Ex-offenders are expected to pay fines and court costs, and submit paperwork to multiple agencies in an effort to win back a right that should never have been taken away in a democracy.”— **Michelle Alexander,**

“Historians will likely wonder how we could describe the new caste system as a system of crime control, when it is difficult to imagine a system better designed to create—rather than prevent—crime.” — **Michelle Alexander**

“Models of justice that centre punishment do not prevent abuse but only react to it, and they don't offer a pathway toward healing for either perpetrators or survivors. Nor do they acknowledge the dual reality that a great many perpetrators are themselves survivors.”— **Kai Cheng Thom,**

“Be careful that the decisions that you ‘make’ are not forging the chains that you cannot ‘unmake’ because those are the chains that will eventually ‘unmake’ you.”
— **Craig D. Lounsbrough**

I think there’s something to be optimistic about because I believe that many people throughout the country and world are starting to realize that we’ve made some deep, deep mistakes in terms of building prisons to the detriment and exclusion of building up our educational systems. Developing punitive programs for teens instead of focusing on programs that will really benefit and advantage our children.
-- Ellen Barry

We've entered a disturbing period that promotes a retributionist, punitive attitude toward people in our society who haven't 'made it,' who are underdogs, who don't have the financial means that other people have, and who may have disabilities like mental illness and addictions to deal with," they need help-- Ellen Barry

We live in a country that is addicted to incarceration as a tool for social control. As it stands now justice systems are extremely expensive, do not rehabilitate but in fact make the people that experience them worse and have no evidence based correlatives to reducing crime. Yet with that track record they continue to thrive, prosper and are seen as an appropriate response to children in trouble with the law. Only an addict would see that as an okay result.
-- James Bell

“Society has used the juvenile courts to create a caste system where there are throw-away people.”-- James Bell

“Our justice system is one of the few unaccountable systems in the country. It doesn’t make decisions based on best practices…or in the best interest of the young people and families involved. As a result, there is a 70 percent recidivism rate. The decision makers can administer this misery and not take any responsibility for the outcome.”--
James Bell

If you want to address racial disparity in the juvenile justice system, everybody has to have a role in it. Everybody has some responsibility."-- James Bell

"Torture is banned but in two-thirds of the world's countries it is still being committed in secret. Too many governments still allow wrongful imprisonment, murder or "disappearance" to be carried out by their officials with impunity."
-- Peter Benenson

"Open your newspaper - any day of the week - and you will find a report from somewhere in the world of someone being imprisoned, tortured or executed because his opinions or religion are unacceptable to his government."
-- Peter Benenson

"The candle burns not for us, but for all those whom we failed to rescue from prison, who were shot on the way to prison, who were tortured, who were kidnapped, who "disappeared". That's what the candle is for."-- Peter Benenson

How do we redefine education so that 30-50 percent of inner-city children do not drop out of school, thus ensuring that millions will end up in prison?-- Grace Lee Boggs

"All human beings, whatever their cultural or historical background, suffer when they are intimidated, imprisoned or tortured . . . We must, therefore, insist on a global consensus, not only on the need to respect human rights worldwide, but also on the definition of these rights . . . for it is the inherent nature of all human beings to yearn for freedom, equality and dignity, and they have an equal right to achieve that."**--** 14th Dalai Lama

“While we diminish the stimulant of fear, we must increase to prisoners the incitements of hope, in proportion as we extinguish the terrors of the law, we should awaken and strengthen the control of the conscience.”-- Dorothea Dix

You can chain me, you can torture me, you can even destroy this body, but you will never imprison my mind.-- Mohandas Gandhi

We must not allow this generation to produce record numbers for the juvenile justice, runaway and homeless youth, or foster care systems.-- Ruben Hinojosa

“Sexual abuse and rape in our prisons are the epitome of the dehumanizing nature of our entire correctional system. Prison rape is a human rights issue; it's a public health issue; and it's a public safety issue.”-- Barbara Lee

"Imprisonment has become the response of first resort to far too many of our social problems."-- Angela Davis

If you don't want to be beaten, imprisoned, mutilated, killed or tortured then you shouldn't condone such behavior towards anyone, be they human or not.
-- Moby

When shall it be said in any country of the world, my poor are happy; neither ignorance or distress is to be found among them; my jails are empty of prisoners, my streets of beggers; the aged are not in want, the taxes are not oppressive; the rational world is my friend, because am friend of its happiness; when these things can be said, then may that country boast of its constitution and government. - Thomas Pein

"Good care is taken that each state shall have its prisons . . . and other asylums; but not one building is erected nor one law enforced that would teach the people how not to contribute to these over-crowded receptacles of human misery . . . . All of our politicians are ready to deal with the effects, but not one of them is brave enough to penetrate the substratum of society and deal with the cause." distributed among the people. . .-- Victoria Woodhull

***** There is much to be done, there is much that can be done... one person of integrity can make a difference, a difference of life and death. As long as one dissident is in prison, our freedom will not be true. As long as one child is hungry, our lives will be filled with anguish and shame. What all these victims need above all is to know that they are not alone; that we are not forgetting them, that when their voices are stifled we shall lend them ours, that while their freedom depends on ours, the quality of our freedom depends on theirs.-- Elie Wiesel

“I am convinced that imprisonment is a way of pretending to solve the problem of crime. It does nothing for the victims of crime, but perpetuates the idea of retribution, thus maintaining the endless cycle of violence in our culture. It is a cruel and useless substitute for the elimination of those conditions--poverty, unemployment, homelessness, desperation, racism, greed--which are at the root of most punished crime. The crimes of the rich and powerful go mostly unpunished. It must surely be a tribute to the resilience of the human spirit that even a small number of those men and women in the hell of the prison system survive it and hold on to their humanity.”-- Howard Zinn

If we are to have the public conversations essential to taking on serious dilemmas from climate change to criminal justice reform, we need forums for those conversations. The media can facilitate the conversations or shut them down. They can open up or constrain our beliefs about what is possible, what is desirable, who is deserving, and which perspectives are legitimate.
-- Sarah van Gelder

Torture has been privatized now, so you have obviously the whole scandal in America about the abuse of prisoners and the fact that, army people might be made to pay a price, but who are the privatized torturers accountable to?
-- Arundhati Roy

Jails and prisons are designed to break human beings, to convert the population into specimens in a zoo - obedient to our keepers, but dangerous to each other.
-- Angela Davis

MATTHEW 25:34-40

"Then the King will say to those on his right, 'Come, you who are blessed by my Father; take your inheritance, the kingdom prepared for you since the creation of the world. For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink, I was a stranger and you invited me in, I needed clothes and you clothed me, I was sick and you looked after me, I was in prison and you came to visit me.'

"Then the righteous will answer him, 'Lord, when did we see you hungry and feed you, or thirsty and give you something to drink? When did we see you a stranger and invite you in, or needing clothes and clothe you? When did we see you sick or in prison and go to visit you?'

"The King will reply, 'Truly I tell you, whatever you did for one of the least of these brothers and sisters of mine, you did for me.'"

“Massive poverty and obscene inequality are such terrible scourges of our times — times in which the world boasts breathtaking advances in science, technology, industry, and wealth accumulation — that they have to rank alongside slavery and apartheid as social evils.”
— Speaking to a crowd at London's Trafalgar Square in 2005 for the “Make Poverty History” campaign.

“Millions of people in the world’s poorest countries remain imprisoned, enslaved, and in chains. They are trapped in the prison of poverty. It is time to set them free.” — London's Trafalgar Square in 2005.

“As long as poverty, injustice, and gross inequality persist in our world, none of us can truly rest.”— London's Trafalgar Square in 2005.

“Like slavery and apartheid, poverty is not natural. It is man-made and it can be overcome and eradicated by the actions of human beings.”
— London's Trafalgar Square in 2005.

“Overcoming poverty is not a gesture of charity. It is an act of justice. It is the protection of a fundamental human right, the right to dignity and a decent life.”— London's Trafalgar Square in 2005.

“While poverty persists, there is no true freedom.”
— London's Trafalgar Square in 2005.

“Do not look the other way; do not hesitate. Recognize that the world is hungry for action, not words. Act with courage and vision.”— London's Trafalgar Square in 2005.

“Sometimes it falls upon a generation to be great. You can be that great generation. Let your greatness blossom.” — London's Trafalgar Square

"I am not less life-loving than you are. But I cannot sell my birthright, nor am I prepared to sell the birthright of the people to be free."
— February, 1985. Remark quoted in "A Part of My Soul Went with Him" by Winnie Mandela

“Education is the most powerful weapon which you can use to change the world and close prison doors."
— Address by Mandela at launch of Mindset Network in July 2003.

We can't just rail against crime. We must speak of the root problems - devastating family breakup, an insidious culture of violence that cheapens human life, skyrocketing prisoner recidivism rates that rob our communities of husbands and fathers - and recognize that there is a societal role in rehabilitation and restoration. **Frank Wolf**

Sometimes it takes dealing with a disability - the trauma, the relearning, the months of rehabilitation therapy - to uncover our true abilities and how we can put them to work for us in ways we may have never imagined. **Tammy Duckworth**

The road to sobriety is not easy and rehabilitation and the recovery process are not to be taken lightly. **Drew Pinsky**

We don't live in a world where, if you commit a crime, your life's over. We as a society believe in rehabilitation. We believe in second and third chances. **Sara Pascoe**

Restorative justice is not a replacement of retributive justice, but a complement. It seeks the rehabilitation of the wrongdoer and the repair of the victim's injury. **Lewis B. Smedes**

I know what it's like to be ignored, and I think that is the big problem about the prison system: These people are being thrown away. There is no sense of rehabilitation. In some places, they are trying to do things. But, in most cases, it's a holding cell.
Lee Tergesen

Letting people out of prison without professional staff to oversee their rehabilitation is irresponsible. **Sadiq Khan**

Circumstances of crimes vary. So do motives. And so do prospects for rehabilitation. The number of imponderables makes it impossible to sentence by formula and still sentence justly. **Robert Kennedy**

We have developed our own approach towards rehabilitating people, involving psychological rehabilitation, social rehab within families and of our Religious Rehabilitation Group. **Tony Tan**

If we are to succeed, we must recognize that the community redevelopment is not solely the rehabilitation of housing, or putting a mall in the business strips. **Jane Byrne**

Most of the locks and dams on the upper Mississippi River system are over 60 years old and many are in serious need of repair and rehabilitation. **Ron Kind**

Judith Durham

What We want is to make it possible for our unfortunate people to live a life of industry for it is by steady work alone that we hope for our physical and moral rehabilitation. For this reason above all we have undertaken to rally our people around our ideal. **Theodor Herzl**

I believe the public therefore expect the justice system to focus on rehabilitation to reduce the risk of subsequent offending - and the likelihood of them becoming a victim of crime. **David Gauke**

I must stress, basically, the very fact that we do have orangutan rehabilitation means that we have failed to do what is really important, and that is rescue the wild orangutan in its habitat. **Willie Smits**

Helpers Of Africa International International Kingdom Global Diplomacy and International Security Agency

Helpers Of Africa International International wil invest in promoting Global Diplomacy, security and peace through Kingdom Global Diplomacy and International relations Agency focusing on tactical inter-governmental relationships aimed to advance national and international interests without being confrontational between/among nations. Diplomacy at its essence is the conduct of relationships, using peaceful means, by and among international actors, at least one of whom is usually governmental. International Platform we are working on in our 37 Global Agencies makes us automatically an international organizations with interests in working well with Nations and International organizations that have been impacting the world in our areas of Charity, Empowerment and Development so we must focus strongly on bulk of diplomacy involving networking good relations between states and continents on various fields and platforms directly, or between states, international organizations, and other international actors. The mandate of this Agency will be to pursue our organization foreign policy and international trade affairs in accordance with the various global agencies projects and programs to give us a soft landing in Nations and a collaborative partnership with international organizations that are operating in the similar objectives with the overarching objective of protecting and promoting the nation's interests abroad. This Agency consortium of international diplomats and consultants from diverse nations experiences will keep our focus strong inclined our foreign policy towards fostering better relations with our neighbors from our Head Office in Kenya, the rest of the African continent and the world at large. Accordingly, the theme for this Strategic Plan is "Building bridges for peace, international cooperation, and global competitiveness and shared International prosperity". This theme underpins our desire and commitment to work with others to fulfil our organizations collective aspiration of transforming nations through Charity, Empowerment and Development.

Our International diplomacy and International security strategic plans seeks to providing a high quality of life to all its citizens in a clean and secure environment as envisaged in our development blueprint, in our organization Vision, Mission and 37 agencies along with our 77 departments. Helpers Of Africa International International recognizes that to attain the desired socio-economic transformation and global stability, we must work with the rest of the world. We operate in a dynamic environment, characterized by shifting interests that often lead to both socio economic realignments. We will, therefore, continue to re-orient our foreign policy and trade interests towards regional, continental and international integration as the foundation for the world's socio-economic development and political unity as well as for our own prosperity. In this regard, our organization will remain an active member of regional, global and multilateral organizations global players such as the UN and Her Agencies, World Bank, International development Agencies, Continental Bodies such as AU, G 20, G7 and among others. Most importantly, we will exert ourselves in support of regional and continental integration, emphasizing intra-continental global trade as the cornerstone for world wide socio-economic development and political unity, Peace, security and stability are fundamental ingredients for any country's social, economic, and political development. Consequently, our organization will play a pivotal role in championing peace and security initiatives globally. We shall continue to support conflict prevention and resolution, peacekeeping, peace building and post-conflict reconstruction in the world through this Agency. Our Organization will be actively involved in supporting the work of the UN in finding lasting solutions to conflicts and terrorism activities in the world. Our organization through our agency will therefore consistently advocate for respect of international conventions and treaties, human rights and fundamental freedoms as key prerequisites for achieving lasting peace, stability and prosperity in the world.

In order to successfully implement this Strategic Plan, we will strengthen our collaboration with our partners and develop the necessary diplomatic competencies and other capacities in the organization through this Agency. We will also expand our diplomatic presence and strengthen our representation abroad in order to engage effectively with the rest of the world as our 37 Global extend our tentacles and footprints across the Nations of the world. The Management will continue to provide focused leadership on matters of our Organizations Foreign Policy and international trade, upon whose wise counsel this strategic plan of our Agency is predicated. We shall work as a team in the organization and from expertise to actualize this strategic plan with a strong conviction that successful implementation of this Strategic Plan will improve the performance of our organization global agencies and in particular enable us to play our key role of providing leadership in managing our organization foreign relations for shared social, economic and prosperity. Our organization joins a strong team of existing global players whom we saluate for there work over the years to keep the work going as we pursue our Vision of becoming a new value addation towards global diplomacy, world peace and security towards development.

Helpers Of Africa International International Kingdom Global Diplomacy and International Security Agency

We shall advocate the provision of a high quality of life for all global citizens by the year 2030 to 2050 through the conduct and management of our organization foreign relations to improve global peace along with socio-economic development. Promotion of International partnership in Charity, Humanitarian, trade and progressive Foreign Policy will continue to play an important role in opening up external synergy in helping humanity, disaster relief, markets, free trade, job creation and promoting sustainable development for economic growth. To achieve this and all our valueable objectives under our 37 Global Agencies we have defined our investment promoting global foreign relations togethers with the existing global players in order to establish global trade priorities and pursue a robust, reciprocal bilateral and multilateral trade, charity, humanitarian work, empowernment and investment relations through regional and International trade agreements. We have a strong focus to facilitate positive and mutually beneficial engagements with both developed and developing countries through both bilateral and multilateral systems along with global humanitarian socio economic stability. The Plan anticipates and identifies challenges at the national, regional and global levels that the organization will contend with and also provides practical ways of managing them. The Plan also defines the strategic areas around which our organization agency objectives and strategies have been derived, namely our organization Sovereignty, Territorial Integrity of nations, Peace Security and Stability, Economic Cooperation, International Trade and Investment; Our organization Interests Abroad, Diaspora Communities Engagement beginning with Kenya our headquaters and Consular Services; Public Diplomacy and Stakeholders' Engagement; and Policy, Legal and Institutional Capacity.

Global Diplomacy is a very valuable asset to global security and peace to facilitate socio-economic stability. Diplomacy is the vessel for peaceful cooperation dialogue, negotiation, cohesion and harmony between among nations so it makes it a viable investment area. Diplomacy is the governmental channels for economic/ trade, social, cultural, political and technological knowledge anchored on mutual relationships between/among nations. Diplomacy is a veritable means for conflict resolution, peace-building in crisis situations between/among nations. Diplomacy facilitates information, communication and knowledge exchange/sharing between/among nations. There is a quote,'No man is an island'. Nobody can live without friends and through diplomacy friendship in the nations is enhanced. Diplomacy is art of management of relations with other countries using cooperation, communication as a blend of art and science to adjust an unadjusted helping to shrink the gape between difference's of opinion, To bring parties down from stated position's to mutual ground of understanding, To introduce win win situations for both parties, To reach on common ground with power of logic and reason, To induct tools of reasoning in condsive environment, To bring the temperature down when there is hostility,

To give room to other party on negotiation table when expectations are very high, To exercise the tools restrain and patience, To cement the sence that opposite is equaly important, To exerside the power if reasoning while keeping emotions taped, To give a room to differences and adjust them in leu of opposite impulses, To introduce unconventional method having capacity to mitigate differences, To reach on minimum possible ground and keep the parties on track, To smile at highest degree of hostile environment with diplomatic jestures, To introduce array of option's when there is stalemate, To know how to exercise art of bargaining, Having fingers on the pulse of human behavior, To make an entire structure on rubbles and reconstruct it, To market the levers in hand while knowing what are in kitty of opponent, Knowing the strengths and weakness of opponent is an entry point to bring reconciliation, Controlling intervening and manipulative variables and milking them at appropiate time, Having equiped with power of knowledge of particuler area and maintaning sense of hummour up to eleventh hour to keep matters in control to avoid other escalations, To bring parties down from stated position's to mutual ground of understanding, To introduce win win situations for both parties, To reach on common ground with power of logic and reason, To induct tools of reasoning in condsive environment to forster peace and corporation, To bring the temperature down when there is hostility, To give room to other party on negotiation table when expectations are very high, To exercise the tools restrain and patience, To cement the sence that opposite is equaly important, To exerside the power of unity and teamwork.

Our diplomats will be required to function as our organization eyes, ears, and voice abroad especially in matters pertaining execution of our projects not for any military or national intelligence matters since we are not a government. We shall focus on common global interests and values while being able to understand foreign politics and cultures of other nations so we seek to have strong team of professional diplomats including intelligence, tact, discretion, circumspection, patience, self-control, teamwork, adaptability, creative imagination, the ability to signal and communicate messages precisely to the target audience while being able to point to plausible alternative meanings to other audiences, and the intellectual facility and linguistic agility to present necessary compromises and accommodation resulting from intense bargaining as win-win outcomes. Matters of state in international peace call for delicacy as well as soundness of judgement and failures of either can lead to catastrophic consequences. The diplomat steps aside and the soldier takes over when the government concludes that the goals being pursued can best be achieved through the use of military force—or when the diplomat has bungled that shows how important diplomacy is to replace military wars and blood shed among communities.

While the threat of use of force, whether explicit or implicit, is still part of the diplomat's arsenal, the actual use of force is required because diplomacy has failed and must be substituted by other instruments of statecraft. Our Art Global Diplomacy' is of surprisingly recent vintage of conducting the intercourse of nations and the management of international relations by negotiation. Our skilled team will seek to boast relations adjusted and managed by ambassadors and envoys whom we shall have across the world with the operations of our 37 Agencies and 77 departments.

Through our diplomacy we shall promote Globalization where National frontiers are becoming less relevant in determining the flow of ideas, information, goods, services, capital, labour, and technology. The speed of modern communications makes borders increasingly permeable, while the volume of cross-border flows threatens to overwhelm the capacity of states to manage them. Far from diminishing, complex interdependence and globalization have increased the scope and volume of negotiations, especially in multilateral forums. The growth in the number of participants taking part in the negotiations, the number of issues that are now the subject of international negotiations, the diversity of negotiating styles of officials coming from vastly different political cultures and levels of development, and the technical complexity of the subject matters up for negotiation have combined to make the process of negotiation more elaborate, highly technical, and more protracted.

As we invest more in Diplomacy we shall add value in all this area that impact on the socio-economic demographics of Nations. We shall have Smart team of many special trained diplomatic envoys some former amabassadors to be sent to represent organization in various needs and areas of diplomacy globally in partnership with international players already in the field.

Kingdom Global Diplomacy and International Security Agency smart team of diplomats, good will ambassadors will promote Charity and humanitarian Diplomacy along with partnership with like minded Global Agencies, International Agencies, NGOs, Corporation, Companies, Celebrates, CEO, Individuals, Churches and faith based organization that operates in areas of humanitarian relief works. We have over 11 Agencies whose focus is on humanitarian work on relief, Kingdom Global Disaster and Rehabilitation Agency, Kingdom Global Food and Agriculture Agency, Kingdom Global Water and Sanitation Agency, Kingdom Global Health Agency, Kingdom Global Orphans and Vurnerable Children Agency, Kingdom Global Disability Agency, JBA Helpers Of Africa International Agency, JBA – Good Samaritan Agency, Dr Luke Foundation, Care for Elderly department we are open for partnership since our scope of operation is big and more resources area needed. We are open to be a faithful partner to relief the world from suffering and humanitarian challenges through over 700 projects, programs and objectives eraborated under these agencies pages. We have over 17 Agencies whose focus is on Empowerment mainly Kingdom Global Entreprenuership Agency, Kingdom Job Creation and SME Agency, Kingdom Global Genders Empowerment Agency, Kingdom Slums Upgrade Agency, Kingdom Global Sports and Talent Agency, Vurnerable Children Agency, Kingdom Global Disability Agency, Kingdom Global Leadership and Capacity Building Agency, Kingdom Global Innovation and Research Agency, JBA Helpers Of Africa International Agency, JBA – Good Samaritan Agency,Dr Luke Foundation, Care for Elderly department, Kingdom Global Justice For All Agency we are open for partnership since our scope of operation is big and more resources area needed. We are open to be a faithful partner to relief the world from suffering and humanitarian challenges through over 700 projects, programs and objectives eraborated under these agencies pages. We are structured and positioned to be faithful and reliable partners of Empowernment operations in Africa and globally.

Kingdom Global Diplomacy and International Security Agency smart team of diplomats, good will ambassadors will promote Development Diplomacy along with partnership with like minded Global Agencies, International Agencies, NGOs, Corporation, Companies, Celebrates, CEO, Individuals, Churches and faith based organization that operates in areas of humanitarian relief works. We have over 14 Agencies whose focus is on Development on relief mainy Kingdom Global Housing Agency, Kingdom Global Infrustructure Agency, Kingdom Global Industrial Development Agency, Kingdom Global Trade and Investment Agency, Kingdom Global Mining and Oil Agency, Kingdom Global Food and Agriculture Agency, Kingdom Global Development Agency, JBA Helpers Of Africa International Agency, JBA – Good Samaritan Agency, Dr Luke Foundation, Care for Elderly department we are open for partnership since our scope of operation is big and more resources area needed. We are open to be a faithful partner to relief the world from suffering and humanitarian challenges through over 700 projects, programs and objectives eraborated under these agencies pages. We are structured and positioned to be faithful and reliable partners of charity and humanitarian operations in Africa and globally.

Kingdom Global Diplomacy and International Security Agency will engage the Apparatus of Foreign Relations and Diplomacy in forstering peace among communities and nations to set platform for socio-economic transformation and recovery from Covid 19 shaking on many matters on management of the spread of infection along with vacinnations.

Kingdom Global Diplomacy and International Security Agency will recruit and empower business executives, trade union leaders, journalists, church, celebrates, musicians, opinion leaders, social media champions and religious leaders to be good will peace ambassadors

Kingdom Global Diplomacy and International Security Agency will support and finance existing forums that promote democracy including summits of foreign affairs ministers, presidential summits international diplomatic calendar includes meetings of non-foreign ministers, for example the G7 finance ministers or the various environment ministers.

Kingdom Global Diplomacy and International Security Agency will support major international organizations, especially the United Nations, World Bank to engage in bilateral diplomacy with the counterpart heads of other missions and International Agencies.

Kingdom Global Diplomacy and International Security Agency will support and fund regional diplomatic forums and innitiatives by regional and sub-regional organizations like the AU, the Arab League, the Southern African Development Community (SADC), the European Council, ASEAN, the ASEAN Regional Forum (ARF), APEC, and the OAS; organizations like the Nonaligned Movement (NAM), the Commonwealth of Nations, the Francophonie, the OIC, the Shanghai Cooperation Organization, and the North Atlantic Treaty Organization (NATO); the G8 and the new G20; etc.

Kingdom Global Diplomacy and International Security Agency will support unofficial and generally informal interaction between non-governmental actors including NGOs, scholars, humanitarian organizations, and former government officials. The involvement of sub-national units like provincial governments in international affairs directly instead of through national authorities.

Kingdom Global Diplomacy and International Security Agency will support Multilateral diplomacy include mediation, negotiation, arbitration, adjudication, diplomatic pressures and other non military related platforms of best of hard and soft power to get other actors to bring peace and security to communities and nations.

Kingdom Global Diplomacy and International Security Agency will and fund to inniatiate support celebrity diplomacy of ‘goodwill ambassadors’ alleviate famine suffering and highlight the harsh humanitarian consequences of antipersonnel landmines, Covid 19 and other Global pademics awareness and responses.

Kingdom Global Diplomacy and International Security Agency will support and fund skilful diplomacy will make use of media connections and networks to promote one's own message aggressively. The importance of public diplomacy has grown in the global village and in the age of reality TV. The media can be used to float trial balloons, to mobilize public support, to sustain momentum in negotiations, or to sabotage negotiations by leaking details of concessions contrary to individual preferences.

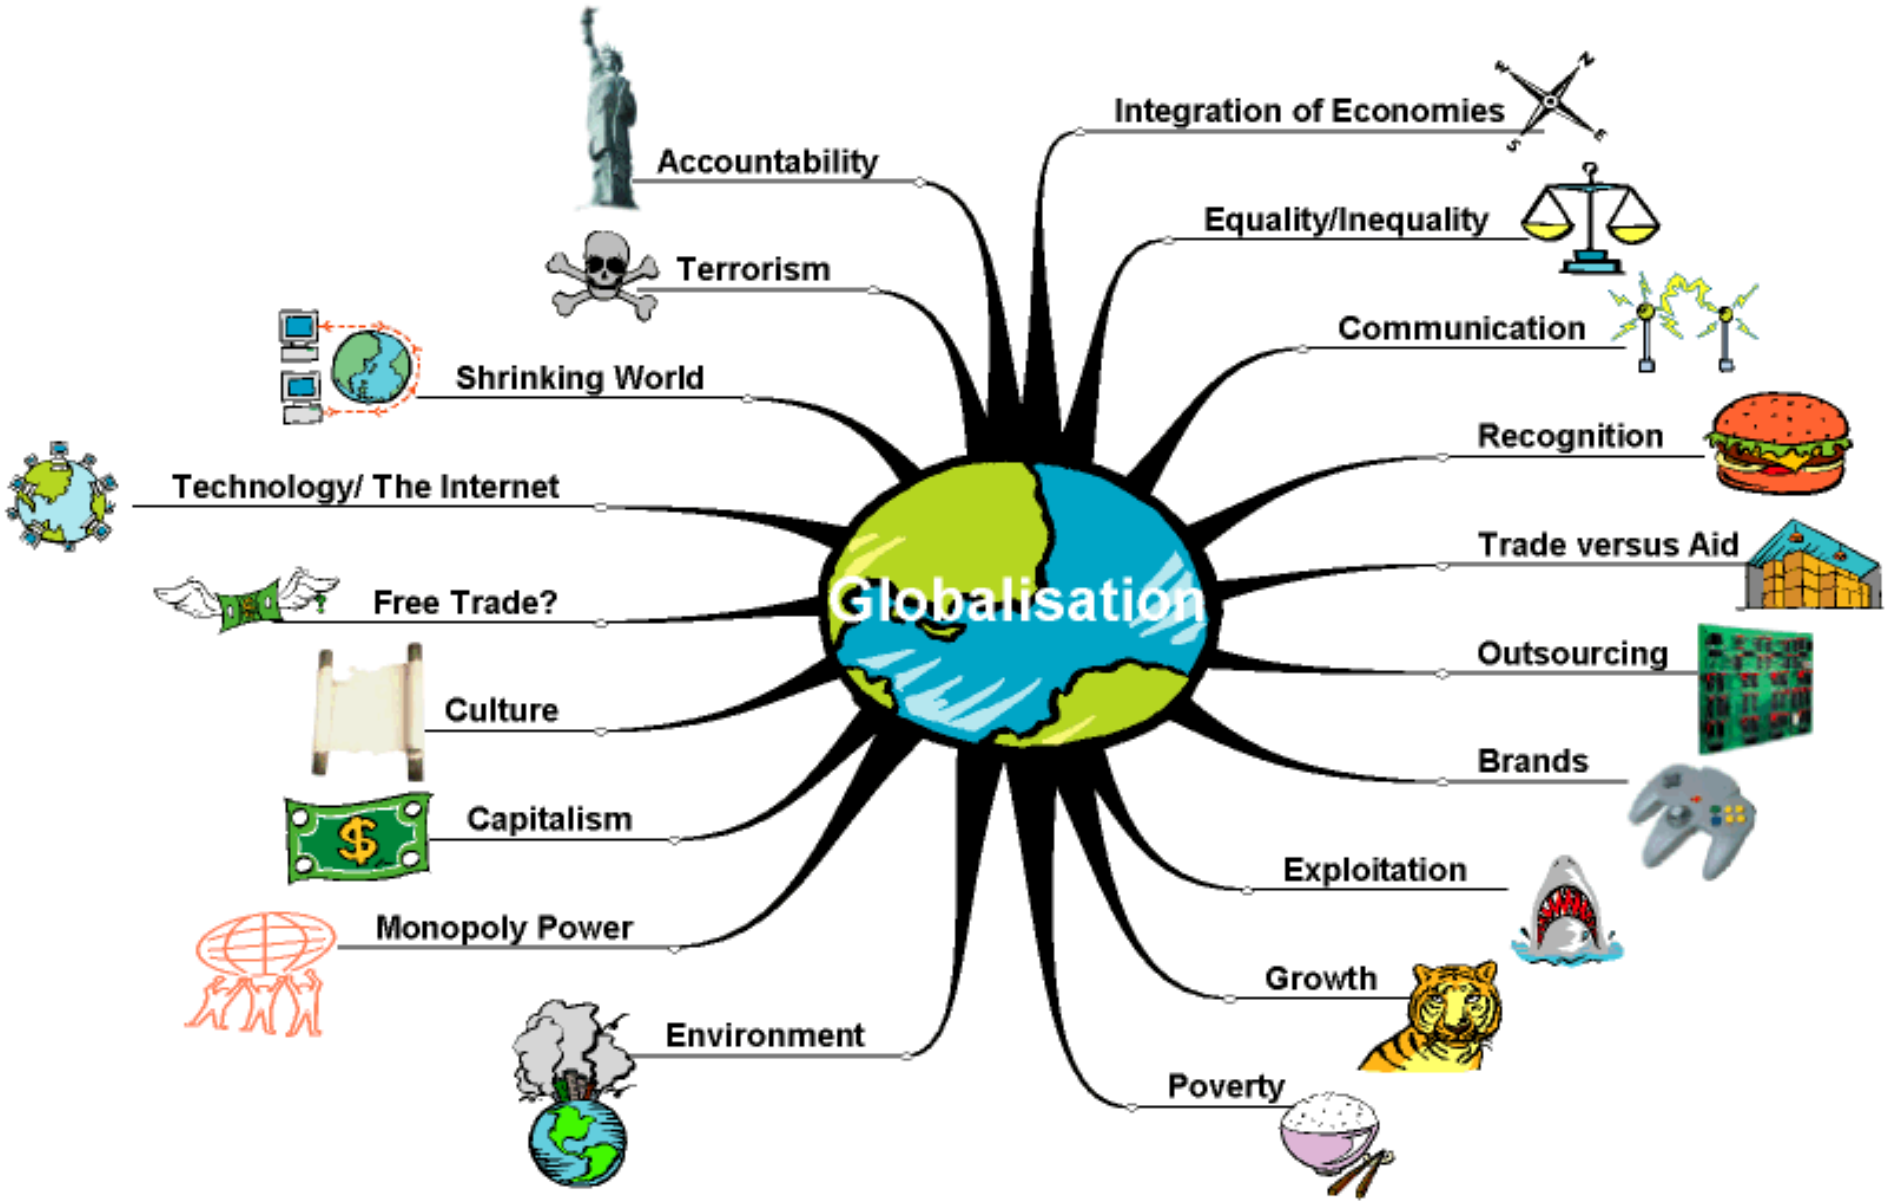
Kingdom Global Diplomacy and International Security Agency will support global conferences on a diverse range of topics from women to human rights, from population to social development, and from economic development to environmental conservation. Typically, the conferences have involved all the actors of global governance—states, civil society organizations, and, if to a lesser degree, private sector firms. Where the intergovernmental conferences are the sites for the growth of treaty law, the global conferences have been prime sites for the evolution of norms and ‘soft law’ which over time begins to exert a binding effect in the form of customary international law.

Kingdom Global Diplomacy and International Security Agency will support conferences geared towards articulating new international norms, expanding international law, creating new structures, setting agendas and promoting linkages among the global agencies the specialized agencies, NGOs, and governments’ extensive diplomatic activity, sometimes stretching over several years, as countries try to ascertain who the like-minded and therefore likely coalition partners are, to harmonize strategies to advance their own and defeat competing interests and efforts, to mobilize NGO support or blunt NGO dissent, and so on.

Kingdom Global Diplomacy and International Security Agency will support to convene blue-ribbon commissions as the means to transmit ideas for improving global governance to the national and international policy or community policing iniatiatives.

Kingdom Global Diplomacy and International Security Agency will support institutions and curriculum development in colleges and universities that handle diplomacy and international relations to bring awareness of peace building at early stage, motivate many into this career line along with developing talents in this areas along with raising good will ambassadors and peace agents among education institutions.

Helpers Of Africa International International Kingdom Global Diplomacy and International Security Agency



Kingdom Global Diplomacy and International Security Agency will support joint Brookings Institution/Center on International Cooperation to change their frame of analysis, embracing responsible sovereignty, reducing risk, promoting foresight, and strengthening resilience, perhaps with the help of institutions like the Intergovernmental Panel on Climate Change (IPCC) that use technical expertise to mobilize consciousness of mutual interests and of consequences of failure.

Kingdom Global Diplomacy and International Security Agency will support consortiums of decision-makers therefore have to strike a balance among the different interests and actors, between domestic demands and international imperatives, between principle and pragmatism, between idealistic values and material interests, between what is the expedient and what is the right thing to do, between the national constituency and the international community, and between the immediate, medium, and long terms balance of interests' and 'the national interest' has a triple significance. It indicates that one particular balance is struck from among several possible options; it indicates human agency; and therefore it includes the possibility of human fallibility and the prospect of course corrections. Climate change is one of the best current examples of where the analytical framework of the national interest just does not cut it and is singularly unhelpful, perhaps even an obstacle to diplomacy. Effective programmes for tackling one of the gravest challenges confronting humanity require active partnerships among governments, scientists, economists, NGOs, and industry. The traditional, national value-maximizing paradigm of the national interest is simply irrelevant.

- Kingdom Global Diplomacy and International Security Agency will engage and support networked diplomacy through the platforms of business, media, society, even religion are all networked in'managing international crises through mobilizing international networks of public and private actors' NGOs too network to multiply advocacy effectiveness.
- Kingdom Global Diplomacy and International Security Agency will envision around a table of building networks, coalitions and partnerships of states and nonstate actors to tackle specific problems to have skills that are closer to community organizing than traditional reporting and analysis especially in war torn regions.
- Kingdom Global Diplomacy and International Security Agency will support media diplomacy through production of documentaries, drama, media coverage, movies that promote peace as soft power infrastructure of diplomatic service, universities, and think tanks is inadequate to the task of managing the agenda of a major power.
- Kingdom Global Diplomacy and International Security Agency will support institutions charged with conducting analytical research, formulating, debating, and implementing foreign policy, global aspirations, provide mid-career training, provide world-class education in subjects dealing with diplomacy, conducting policy-relevant scholarship of the highest quality, leaders in debating foreign policy issues but are not structured to undertake sustained foreign policy research and training.
- Kingdom Global Diplomacy and International Security Agency will support by technological progress—diplomacy has become a critical instrument in an age of complex interdependence and of globalization. This empowerment of diplomacy equips the context, tools, actors, and domain of the trade. These changes spring from the very nature of globalization, from the shifting conceptions of national sovereignty, from the realization that emerging transnational challenges in many areas can only be dealt through collective action, and from the growing interpenetration and interdependence of national societies.
- Kingdom Global Diplomacy and International Security Agency will support innovation in diplomacy from 'club' to 'network and lobbying diplomacy'. The club model reflects the traditional model of diplomatic practice. Diplomats restrict their interactions and deal solely with other members of an exclusive club, comprised of governmental officials, fellow diplomats, and, occasionally, members of the business community. In certain cases, diplomats also give occasional speeches to members of the community of their host country. The club model is a closed community of individuals who represent the interests of their respective groups. Yet, particularly in the realm of bilateral diplomacy, but also in other diplomatic modes, the club model has become anachronistic. There has been a severe disconnect between diplomats in many parts of the world and the realities that they are faced with. While it remains integral for the process of international negotiations, it does not take into account a host of important actors and interest groups. In a world where information and communication are becoming increasingly democratized, the club model fails to engage adequately with groups that are ultimately affected by the decisions that are made. The diplomat of the 21st century must manage the complex relationship of the club while also tending this ever-expanding network.

- Kingdom Global Diplomacy and International Security Agency will packaging diplomacy cirriculums to education institutions and practical exposure in engaging interactions with one another that shift and turn in volume, intensity, rituals, etiquette, conventions, protocols, and codes of behaviour to provide order, stability, and predictability to international political intercourse. This will ehance diplomatic culture among the nations
- Kingdom Global Diplomacy and International Security Agency will support and partners in social diplomacy through sports, athletics, tourism, cultural and sports recreation, among migrant workers, through gorvernments and intergovernmental and non-governmental organizations like the United Nations agencies, Amnesty International, and Greenpeace, as well as epistemic networks like the IPCC, which too have become actors in international affairs as advocates, lobbyists, and participants.
- Kingdom Global Diplomacy and International Security Agency will support refresher training for career diplomats and good will ambassadors from negotiation, communication, consular, representation, and reporting to observation, merchandise trade and services promotion, cultural exchange, and public relations along with corresponding managerial skills to run their large offices.
- Kingdom Global Diplomacy and International Security Agency will to support capacity building more personnel are needed to staff foreign ministries, diplomats need to be highly versatile, diplomats to possess required expertise to handle all the issues and so experts from outside government must often be brought in as technical advisers and consultants, diplomacy has increasingly become a whole-of-government enterprise with a broad range of government departments involved in and often staffing overseas resident missions—in some cases, officials from outside the foreign ministry, for example from the departments of education, finance, immigration, agriculture, defence, etc., can outnumber the total pool of resident 'diplomats' as such. At the same time, private sector, cultural and educational, etc., diplomacy can supplement but not supplant the traditional state-to-state diplomacy.
- Kingdom Global Diplomacy and International Security Agency together with our Kingdom Global Food and Agriculture Agency to promote agricultural development as a means for contributing to peace, bringing together the areas of its mandate, including fisheries, forestry and natural resource management. Rehabilitation of agriculture is a central condition for development, reducing poverty, preventing environmental destruction and reducing violence. Good governance is also crucial in building healthy conditions for agriculture, and thus breaking the vicious cycle of poverty, instability and violence.
- Kingdom Global Diplomacy and International Security Agency will work with her other agencies and global agencies in eradicating hunger and poverty the inter-relationship between violent conflict, food security and nutrition, and peace is complex and multi-dimensional. There is unassailable evidence detailing how violent conflicts have devastating and lasting impacts on food security. Conflicts affect the ability to produce, trade and access food, including by destroying farming resources, damaging infrastructure and destroying markets.
- Kingdom Global Diplomacy and International Security Agency will support global inniatives by Mediation and Preventive Diplomacy, Institutional Capacity and Peace Support Operations.
- Kingdom Global Diplomacy and International Security Agency will support and fund research examining the linkages between distinct issue areas such as poverty, demography, globalization, human rights and environment has begun to provide important clues about how these factors combine to exacerbate or reduce risks of violent conflicts as well as political and criminal violence. Similarly, comparative country-level research demonstrates the specificity of each conflict context while assessing the appropriateness of current approaches to linking security and development in essentially distinct policy and political environments.
- Kingdom Global Diplomacy and International Security Agency will support propergation Security and Development Policies on human security, economic security, food security, health security; environmental security, personal security, community security, political security.

- Kingdom Global Diplomacy and International Security Agency will support inniatiative projects and programs protecting people in violent conflict, protecting people from the proliferation of arms, supporting the security of people on the move, establishing human security transition funds for post-conflict situations, encouraging fair trade and markets to benefit the extreme poor, , working to provide minimum living standards everywhere, according higher priority to ensuring universal access to basic health care, developing an efficient and equitable global system for patent rights, empowering all people with universal basic education, clarifying the need for a global human identity while respecting the freedom of individuals to have diverse identities and affiliations.
- Kingdom Global Diplomacy and International Security Agency will support the human level security and development are intimately related--even though the appropriate policies to address them through international action have been extremely slow in coming since both human security and human development have traditionally been considered as exclusive responsibilities of sovereign states.
- Kingdom Global Diplomacy and International Security Agency will bring conversation on balancing the food crisis and underdevelopment, huge military expenses, Inflation and financial - monetary crises, Energy and raw materials and Rapid Population Growth and Environmental degradation.
- Kingdom Global Diplomacy and International Security Agency will support contemporary globalization the internationalization of markets for goods and services and the emergence and proliferation of multinational companies concerned with the development of comprehensive financial, manufacturing, marketing and management.
- Kingdom Global Diplomacy and International Security Agency will sort the negative conspiracies and conversations that depict globalization as a conspiracy of the transnational corporations against the small countries, It concentrates the power over the market in the hands of those who direct a small number of huge corporations, The evil genius of globalization is the information technology, Globalization means “companies escaping the control of the law”, Globalization determines the decrease in the number of jobs, Globalization undermines cultural diversity, that Globalization destroys the environment, Globalization involves the prosperity of the multinational companies at the expense of the consumers and of the small companies.
- Kingdom Global Diplomacy and International Security Agency will promote advocacy on diplomacy on Globalization that is profitable for multinational corporations who integrate in their own networks international production systems. Ensuring the economic development moves to a new level "the global market economy" while the insurance of the well-being of nations remains the same within the national area.

- Kingdom Global Diplomacy and International Security Agency will promote trade diplomacy an international monetary cooperation and the goal of assuring a harmonious evolution in the international trade.
- Kingdom Global Diplomacy and International Security Agency will support and fund the promotion of a stable exchange rate system, while respecting the engagements.
- Kingdom Global Diplomacy and International Security Agency will support and fund Permanent assistance concerning the establishment and the coherent functioning of the multilateral payment systems.
- Kingdom Global Diplomacy and International Security Agency will support and fund initiative that promote Maintaining the climate of trust in the policies of the institution, by permanently availing temporary resources to the members in order to balance the current balances of payments.
- Kingdom Global Diplomacy and International Security Agency will support and fund Preventing and diminishing the negative effects determined by the unbalances able to affect international balances and global trade to ease tensions among nations. The capital market acquires the most important role in the general picture of the international financial market, and it is closely connected to the international currency market. The international financial economy has detached itself from the real economy. Money as a symbol of fortune and as an instrument for payments has value in itself and is traded as such. The positive consequences of this evolution is the birth of new financial assets, the creation of new jobs, while the negative consequences consist in the fact that the symbolical economy may evolve aberrantly, its crises triggering the occurrence of crises in the real economy as well.
- Kingdom Global Diplomacy and International Security Agency will support and participate in economic trade diplomacy to balance from domination of the market by the great institutional investors (mutual funds, retirement and insurance companies) that generate strive in sharing revenues in sectors such as mining, joint venture agriculture projects etc.
- Kingdom Global Diplomacy and International Security Agency will support and participate in helping nations to shift from an economy of endebtment to a speculative economy, dominated by the primacy of the financing of speculative operations along with financial markets of different financial products are intricately interconnected, the specialists being faced with serious difficulties when it comes to understanding the multitude of connections presented and to evaluate the effects triggered.
- Kingdom Global Diplomacy and International Security Agency will support and partner with global organizations to support nations in deepening the dependency of the underdeveloped states of the world economy, and then to opening their economies to the corporatist to avoid strives and coflicts that arise to facilitate Non-discriminating commerce where the most favored nation treating the others equally, National treaties, equal treatment for nations and foreigners along with a freer trade by means of negotiations and of “progressive liberalization”.
- Kingdom Global Diplomacy and International Security Agency will support and partner with global trade agencies to consolidate the bonds when the countries decide to open their markets for goods and services along with developing a fair competition based on a system of norms meant to acquire a free, fair competition, free of distorts (misrepresentations) to stimulate economic growth and development by supporting economic reforms.
- Kingdom Global Diplomacy and International Security Agency will support and partner with global organizations to package international balanced trade rules in main sectors that generate community and international strive in agriculture, mining, textiles, banking services, telecommunications, public contracts, industrial norms, rules concerning food health, intellectual property rights, import and export trade balance negotions to ease tensions.
- Kingdom Global Diplomacy and International Security Agency will support and fund Peace building innitiatives with various terms of engagement between the “internationals” and national or sub-national actors, including governments,communities, NGOs, and other social orpolitical groups in conflict zones.
- Kingdom Global Diplomacy and International Security Agency will support education and training in Diplomacy is an key area of International Relations to achieve our foreign policy goal or objectives and overall international interests as a way of achieving foreign policy goal foreign policy objectives, efficient diplomats for strong international relation with other countries.

- Kingdom Global Diplomacy and International Security Agency will support and fund empowerment of existing diplomats in facilitation of excellent and cheap chisel that act as a lubricant channel for high level inter-governmental dialogue/ engagement to secure presence of your state within international institutions- multilateral diplomacy to strenghten bilateral relations with individual countries so that nations and communities can support actions and aspirations in various fields.
- Kingdom Global Diplomacy and International Security Agency will support and fund diplomacy innitiatives in countries in conflict towards conducting negotiations between nations at a large scope essential to the upkeep of international affairs to prevent war and violence, and fortifying relations between nations to promote world's affairs establishing harmony along with platform for international organizations to operate.
- Kingdom Global Diplomacy and International Security Agency will support and fund with other global players Counterinsurgency or Experditionary diplomacy being developed by diplomats deployed to civil-military stabilization efforts by employing diplomats at tactical and operational levels, outside traditional embassy environments and often alongside military or peacekeeping forces .Counterinsurgency diplomacy provides political environment advice to local commanders, interact with local leaders, and facilitate the governance efforts, functions and reach of a host governments.
- Kingdom Global Diplomacy and International Security Agency will support and fund negotions to stabilize borrowing in Debt-trap diplomacy in bilateral relations, with a powerful lending country seeking to saddle borrowing nations with enormous debt so as to increase its leverage over them to win win situations.
- Kingdom Global Diplomacy and International Security Agency will support and fund the promotion of Economic diplomacy use of aid or other types of economic policy as a means to achieve a diplomatic agenda especially waring communities and nations.
- Kingdom Global Diplomacy and International Security Agency help nations to manage Gunboat diplomacy the use of conspicuous displays of military power as a means of intimidation to influence others. Since it is inherently coercive, it typically lies near the edge between peace and war, and is usually exercised in the context of imperialism or hegemony
- Kingdom Global Diplomacy and International Security Agency will support and participate in Hostage diplomacy by states, exchange of war hostages and prisoners on win win situation.
- Kingdom Global Diplomacy and International Security Agency will support and fund through our disaster response agency, JBA- Good Samaratian Agency, JBA-Helpers Of Africa International Agency and all other agencies engage in Humanitarian diplomacy to relief people from suffering and settle them in rehabilitation programs for continuity of life.
- Kingdom Global Diplomacy and International Security Agency will support and fund Migration diplomacy refers the use of refugees, labor migrants, or Diasporas in states' pursuit of international diplomacy goals by welfare, value negotiations, transformational agents, peace building.
- Kingdom Global Diplomacy and International Security Agency will support and participate with other nations on nuclear diplomacy to prevent global threates from nuclear wars and power by preventing nuclear proliferation and nuclear war.
- Kingdom Global Diplomacy and International Security Agency will support nations in there own Paradiplomacy is international relations conducted by subnational or regional governments on their own, with a view to promoting their own interests. With globalisation, non-state regions play an increasingly influential international role in trade, tourism and border management protocols.
- Kingdom Global Diplomacy and International Security Agency will support and fund Peer Peer Diplomacy where average citizens, through the use of social media, to bypass official government bodies and conduct "grassroots" diplomacy governments must work with the public in conducting diplomacy, given that an increasingly large number of individuals are invested in foreign relations and have widespread access to information along with social media champions and opion leaders.

- Kingdom Global Diplomacy and International Security Agency will support and fund Preventive diplomacy with a view to achieving the stabilization necessary for diplomacy and related political processes to proceed. This is to be distinguished from the use of “persuasion”, “suasion”, “influence”, and other non-coercive approaches to prevent escalations of strive, tensions and war.
- Kingdom Global Diplomacy and International Security Agency will support and fund inniatives in Public diplomacy in the exercise of influence through communication with the general public in another nation, rather than attempting to influence the nation's government directly. This communication positive propaganda, or more benign forms such as citizen diplomacy. Technological advances and the advent of digital diplomacy now allow instant communication with foreign citizens, and methods such as Facebook diplomacy and Twitter diplomacy are increasingly used by world leaders and diplomats especially with this covid season has become strong platform. We shall train socio media champions on diplomacy to promote peace and cohensions along with facilitate them as peace amabassadors to create positive peace and security attitudes in people.
- Kingdom Global Diplomacy and International Security Agency will support and fund secret negotiations in promoting Quiet diplomacy also known as the "softly softly" approach, quiet diplomacy is the attempt to influence the behaviour of another state through secret negotiations or by refraining from taking a specific action of war and conflict. This method is often employed by states that lack alternative means to influence the target government, or that seek to avoid certain outcomes.
- Kingdom Global Diplomacy and International Security Agency will support and fund Science diplomacy the use of scientific collaborations among nations to address common problems and to build constructive international partnerships. Many experts and groups use a variety of definitions for science diplomacy. However, science diplomacy has become an umbrella term to describe a number of formal or informal technical, research-based, academic or engineering exchanges, with notable examples including sharing of Covid 19 vacinnes the International Space Station.
- Kingdom Global Diplomacy and International Security Agency will support innitiaves from individuals and groups in soft power, sometimes called "hearts and minds diplomacy", cultivation of relationships, respect, or even admiration from others in order to gain influence, as opposed to more coercive approaches. Often and incorrectly confused with the practice of official diplomacy, soft power refers to non-state, culturally attractive factors that may predispose people to sympathize with a foreign culture based on affinity for its products, such as the entertainment industry, schools and music. A country's soft power can come from three resources: its culture (in places where it is attractive to others), its political values (when it lives up to them at home and abroad), and its foreign policies (when they are seen as legitimate and having moral authority).
- Kingdom Global Diplomacy and International Security Agency will support and fund City Diplomacy where cities engage relations with other actors in an international stage, with the aim of representing themselves and their interests to one another. Through our Kingdom Global Smart Cities Agency and our Kingdom Dream City we shall promote partnership of cities for benchmarking and mentorship.
- Kingdom Global Diplomacy and International Security Agency will support and fund indivudals companies Citizen diplomacy (people's diplomacy) is the political concept of average citizens engaging as representatives of a country or cause either inadvertently or by design. Citizen diplomacy may take place when official channels are not reliable or desirable where countries do not formally recognize each other's governments, citizen diplomacy may be an ideal tool of statecraft. Citizen diplomacy has more value in direct negotiations parties to scientific exchanges, cultural exchanges, and international athletic events including community – national sports events.

- Kingdom Global Diplomacy and International Security Agency will support and fund Commercial diplomacy that focuses on development of business between countries that aims at generating commercial gains in the form of trade and inward and outward investment by means of business and entrepreneurship promotion and facilitation activities in the host country. Commercial diplomacy is pursued with the goal of gaining economic stability, welfare, or competitive advantage. Since our organization has agenda of empowerment and development Commercial diplomacy will be a major platform designed to influence foreign government policy and regulatory decisions that affect global trade, investment and commerce. It is concerned with government regulations and actions that affect international commerce—including standards in areas such as health, safety, the environment, and consumer protection; regulations covering services such as banking, telecommunications and accounting; competition policy and laws concerning bribery and corruption; agricultural support programs; and industrial subsidies. Traditional commercial diplomacy activities include facilitating, negotiating, promoting and arbitrating international trade, investment, intellectual property and commerce, and advocating Responsible Commercial Diplomacy (RCD), together with networking, capacity building, intelligence, image campaigns and support. Other activities for commercial diplomacy and rationales that companies need are: need for access to reliable and neutral business information; credibility and image support in foreign markets; partner search; conflict handling; support of home country delegations (state missions); strategic concerns (e.g., energy).
- Kingdom Global Diplomacy and International Security Agency will support and fund Digital diplomacy, also referred to as Digiplomacy and eDiplomacy the use of the Internet and new information communication technologies to help achieve diplomatic objectives. The definition focuses on the interplay between internet and diplomacy, ranging from Internet driven-changes in the environment in which diplomacy is conducted to the emergence of new topics on diplomatic agendas such as cybersecurity, privacy and more, along with the use of internet tools to practice diplomacy. Digital diplomacy will be used practiced by state agencies such as Foreign Ministries, embassies and consulates, individual diplomats such as ambassadors or ambassadors-at-large, and non-state actors such as civil society and human rights groups. The rise of social media as a tool in diplomacy has given way for states to strike up two-way or “dialogic" communication with other diplomatic actors and their foreign publics, compared to the one-way nature of traditional public diplomacy. While traditional diplomacy occurs offline in relative privacy, online diplomacy has allowed a multitude of actors to discuss foreign policy-making, increasing the impact of public opinion on the foreign policy agenda.
- Kingdom Global Diplomacy and International Security Agency will support and fund public diplomacy especially in war countries "PUBLIC DIPLOMACY for government-sponsored programs intended to inform or influence public opinion in other communities, countries instruments are publications, motion pictures, cultural exchanges, radio and television. The private residence, papers, correspondence and property of diplomats are also inviolable. In general, diplomats are immune from civil and administrative jurisdiction of the state in which they are serving, although there are a number of important exceptions.
- Kingdom Global Diplomacy and International Security Agency will support and participate in negotions among nations in the conversation on immunity and Waiver of immunity the sending state may expressly waive the immunity from jurisdiction of diplomatic agents and others possessing immunity.
- Kingdom Global Diplomacy and International Security Agency will support and partner with global agencies towards issues of respect on Diplomatic premises .It is an absolute rule that the premises of the mission are inviolable and agents of the receiving state cannot enter them without the consent of the mission. The receiving state is under a special duty to protect the mission premises from intrusion or damage or "impairment of its dignity". By the same token, the premises of a mission must not be used in a way which is incompatible with the functions of the mission. Diplomatic bag respect is crucial in the receiving state is required to permit and protect free communication on behalf of the mission for all official purposes. Such official communication is inviolable and may include the use of diplomatic couriers and messages in code and in cipher, although the consent of the receiving state is required for a wireless transmitter.

- Kingdom Global Diplomacy and International Security Agency will support and participate with nations on enhancement of Diplomatic relations since they don't exist in international law they exist by virtue of mutual consent. The sending state must ensure that the consent of the receiving state has been given for its proposed head of mission. Similarly, the receiving state may at any time declare any member of the diplomatic mission persona non grata and thus obtain the removal of that person. Other aspects of promotion include diplomatic asylum,"Science in diplomacy" Science can provide advice to inform and support foreign policy objectives, "Diplomacy for science" Diplomacy can facilitate international scientific cooperation, "Science for diplomacy" Scientific cooperation can improve international relations.
- Kingdom Global Diplomacy and International Security Agency will support and fund Science diplomacy and pandemics to partner with Global organizations, researchers, public health officials, countries, government officials, and clinicians to work together to create effective measures of infection control especially and subsequent treatment especially this season of Covid 19. We shall continue to promote sharing of resources, research data, ideas, and by putting into effect laws and regulations that can further advance scientific research. Without the collaborative efforts of such entities, the world would not have the vaccines and treatments we now possess for diseases that were once considered deadly such as tuberculosis, tetanus, polio, influenza, etc. Historically, science diplomacy has proved successful in diseases such as SARS, Ebola, Zika and continues to be relevant during the COVID-19 pandemic today see more on Covid 19 response.
- Kingdom Global Diplomacy and International Security Agency will support and fund Science diplomacy and space With the rise of privatized space exploration and the growing competition with nations across the globe in the new age space race, space diplomacy refers to a globalized effort by scientists, national officials, and private corporations to reach a consensus on what is safe, effective, and sustainable space travel especially with Tesla, Nassa that have shown more efficiency . In addition to possible space jurisdictions to each country interested in space travel, science diplomacy and space, or space diplomacy, can involve considerations towards environmental pollution or a set of international laws and legislations, such as the Outer Space Treaty.
- Kingdom Global Diplomacy and International Security Agency will support and participate shuttle diplomacy of nations in war and crisis together with other global agencies serve as an intermediary between (or among) principals in a dispute, without direct principal-to-principal contact the process entails successive travel ("shuttling") by the intermediary, from the working location of one principal, to that of another.
- Kingdom Global Diplomacy and International Security Agency will support and fund Energy diplomacy and the energy transition the integration of energy diplomacy into foreign policy for some states has been security and the others economy, the energy transition is reshaping those dynamics so that questions of security and economy will follow a new geopolitical reality. The dynamics of the relationship with foreign policy and national security is thus undergoing a fundamental change—energy transition. Providing energy security has traditionally included several key notions: availability, reliability and affordability, but in the past two decades another crucial aspect is added – environmental sustainability and transition to low carbon energy.

Setting rudimentary thresholds below which no person's livelihood, survival and dignity should be threatened. Providing a practical framework for the identification of a wide range threats in given crisis situations and addressesing threats both within and across borders, Encouraging regional and multilateral cooperation.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in building a global Multi-sectoral Coherence needed between different interventions in order to avoid negative harms while choosing multiplying effects of positive interventions, human security develops a true multi-sectoral agenda which Captures the ultimate impact of development or relief interventions on human welfare and dignity, Provides a practical framework for assessing positive and negative externalities of interventions supported through policies, programmes and projects, Enables comprehensive and integrated solutions from the fields of human rights, development and security in a joint manner, Helps to ensure policy coherence and coordination across traditionally separate fields and doctrines and allows for knowledge-sharing and results-oriented learning.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in contextualization Insecurities vary significantly across countries and communities with both their causes and expressions depend on a complex interaction of international, regional, national and local factors. Addressing peoples' insecurities therefore always requires specification to capture variations over time and contexts as a universally applicable, broad and flexible approach, human security provides a dynamic framework that addresses different kinds of insecurity as these manifest themselves in specific contexts,builds on processes that are based on peoples' own perceptions of fear and vulnerability, Identifies the concrete needs of populations under stress, Enables the development of more appropriate solutions that are embedded in local realities, Unveils mismatches between domestic and/or international policies and helps identify priority security needs at the local level, Looks at the impact of global developments on different communities. , Captures the rapidly changing international, regional and domestic security environments, Emphasis on Prevention A distinctive element of human security is its focus on early prevention to minimize the impacts of insecurity, to engender long-term solutions, and to build human capacities for undertaking prevention.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in human security addressesing root causes of human insecurities,emphasises early prevention rather than late intervention – thereby, more cost-effective, encouraging strategies concerned with the development of mechanisms for prevention, the mitigation of harmful effects when downturns occur and, ultimately, with helping victims to cope, Partnerships and Collaboration With its emphasis on the interconnectedness of threats, human security requires the development of an Human Security Principles and Approach From an operational perspective, human security aims to address complex situations of insecurity through collaborative, responsive and sustainable measures that are (i) people-centered, (ii) multi-sectoral, (iii) comprehensive, (iv) context-specific, and (v) prevention-oriented.In addition, human security employs a hybrid approach that brings together these elements through a protection and empowerment framework. Subsequently each human security principle informs the human security approach and must be integrated into the design of a human security programme.

- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in designing a human security programme, setting of goals and tasks which provide the actions needed to ensure the integrity of the human security programme Analysis, Mapping and Planning. Establishing participatory processes and collectively identify the needs/vulnerabilities and the capacities of the affected community(ies). ¬Map insecurities based on actual vulnerabilities and capacities with less focus on what is feasible and more emphasis on what is actually needed. Establish priorities through needs/vulnerabilities and capacity analysis in consultation with the affected community(ies), Identify the root causes of insecurities and their inter-linkages, Cluster insecurities based on comprehensive and multi-sectoral mapping and be vigilant of externalities, , Establish strategies/responses that incorporate empowerment and protection measures. Outlining short, medium, and long-term strategies/outcomes even if they will not be implemented in the particular programme. (Outlining strategies at different stages with the community is an important foundation for sustainability.) , Establish multi-actor planning to ensure coherence on goals and the allocation of responsibilities and tasks.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in Phase Implementation in collaboration with local partners, Capacity building of the affected community(ies) and local institutions, Monitoring as part of the programme and the basis for learning and adaptation.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in Impact Assessment Deriving lessons learned from failures and successes and improving the programme. Analysis, Mapping and Planning during the initial analysis, mapping and planning phase of a human security programme, it is critically important to ensure that the programme addresses the actual needs/vulnerabilities and capacities of the affected community(ies) and presents strategies that are based on the protection and empowerment framework with the active participation and implementation of the affected community(ies).
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in the goals of the analysis, mapping and planning phase are to collectively identify the needs/vulnerabilities and the capacities of the affected community(ies) and develop programme priorities in consultation with the affected community(ies); (ii) identify the root causes of insecurities and their inter-linkages across sectors, and establish comprehensive responses that generate positive externalities for the affected community(ies). (iii) ensure coherence on the goals and the allocation of responsibilities among the various actors; and (iv) include short, medium, and long-term strategies.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in Human Security Analytical Framework to Needs/Vulnerabilities and Capacity Analysis A human security analytical framework to needs/vulnerabilities and capacity analysis is necessary to guide the development and the implementation of the data collection process as well as to inform the analysis of the data from a human security perspective. Specifically, the human security approach to needs/vulnerabilities and capacity analysis will be determined by the following actions under each of the human security principles.

- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in packaging People-centered Involve the affected community(ies) when gathering data on the needs/ vulnerabilities and the capacities of the affected community(ies), Identify root causes through analysis of the 'degree of cause, Develop empowerment strategies based on the capacities needed, Strengthen the resilience of individuals and communities, Multi-sectoral/Comprehensive , Consider the broad range of threats and vulnerabilities both within and across communities (including local, national, regional and international factors), Develop a comprehensive and integrated analysis that incorporates the fields of security, development and human rights. , Identify the lack of policy coherence and coordination across sectors/fields that can have a negative impact on achieving the human security needs of the affected community(ies). Context-specific, Ensure that analysis incorporates context specific local information, Include community perception of the threats and vulnerabilities in addition to other quantitative indicators. , Highlight potential mismatch between domestic and/or international policies and the priority security needs of the affected community(ies), Identify gaps in the existing security infrastructure. Preventionoriented, Identify the root causes and the primary protection and empowerment gaps so as to develop sustainable solutions.
- Kingdom Global Diplomacy and International Security Agency will support and participate in peace and security building global diplomacy through our various agencies in emphasizing prevention as well as response when developing priorities. Providing the spatial presentation for mapping, identifying and analyzing the identified threats, needs and capacities of the affected community(ies). Mapping is well-suited to the analytical needs of the human security approach. Not only does it manage complexity well, mapping also provides the opportunity to visually: (i)identify and link the most severe and widespread threats and vulnerabilities; (ii)offer the strategies for addressing the identified insecurities; and (iii)consider the capacities and the resources of the affected community(ies).

QUOTES ON DIPLOMACY AND PEACE

War is failure of diplomacy. John Dingell
Diplomacy is to do and say the nastiest things in the nicest way. Isaac Goldberg

Diplomacy is the art of saying 'Nice doggie' until you can find a rock. Will Rogers

Diplomacy is like jazz: endless variations on a theme. Richard Holbrooke

A constructive approach to diplomacy doesn't mean relinquishing one's rights. It means engaging with one's counterparts, on the basis of equal footing and mutual respect, to address shared concerns and achieve shared objectives. Hassan Rouhani

To say nothing, especially when speaking, is half the art of diplomacy. Will Durant

Diplomacy, n. is the art of letting somebody else have your way. David Frost

Part of diplomacy is to open different definitions of self-interest. Hillary Clinton
The soft power of science has the potential to reshape global diplomacy. Ahmed Zewail

Diplomacy is listening to what the other guy needs. Preserving your own position, but listening to the other guy. You have to develop relationships with other people so when the tough times come, you can work together. Colin Powell

Diplomacy is fundamentally working with people, bringing people together to deal with difficult issues. John Roos

Successful diplomacy is an alignment of objectives and means. Dennis Ross

Quiet diplomacy is far more effective than public posturing. Atal Bihari Vajpayee

Tact and diplomacy are fine in international relations, in politics, perhaps even in business; in science only one thing matters, and that is the facts. Hans Eysenck

In the world of diplomacy, some things are better left unsaid. Lincoln Chafee

Diplomacy can and will matter; little is inevitable in international relations. Richard N. Haass

All war represents a failure of diplomacy. Tony Benn

In a world of complex threats, our security and leadership depends on all elements of our power - including strong and principled diplomacy. Barack Obama

Diplomacy: the art of restraining power. Henry Kissinger

If you don't want war, then you had better be an advocate for diplomacy with muscle. Richard Grenell

Diplomacy is essential if we are to find peaceful resolutions in times of tension. Ed Davey

In Asia, personal relationships are important, but you cannot personalise diplomacy. Ananda Krishnan

Diplomacy is more than saying or doing the right things at the right time, it is avoiding saying or doing the wrong things at any time. Bo Bennett

Diplomacy in general does not resolve conflicts. Wars end not due to peace processes, but due to one side giving up. Daniel Pipes

If we just let our vision of the world go forth, and we embrace it entirely, and we don't try to piece together clever diplomacy but just wage a total war, our children will sing great songs about us years from now. Richard Perle

I don't think that anyone in the pages of 'War on Peace' is arguing that diplomacy is the replacement for military power. But, correctly, the job of the military is to think tactically. Ronan Farrow

Diplomacy has always involved dinners with ruling elites, backroom deals and clandestine meetings. Now, in the digital age, the reports of all those parties and patrician chats can be collected in one enormous database. And once collected in digital form, it becomes very easy for them to be shared. Heather Brooke

There are no military solutions - dialogue and diplomacy are the only guarantee of lasting peace. Martin McGuinness

War is tragedy. The great war stories are tragedies. It's the failure of diplomacy. 'War and Peace,' 'A Farewell to Arms,' 'For Whom the Bell Tolls.' Those are some of the greatest tragedies. David Mamet

We have practiced diplomacy since the very beginning of the nation. Sometimes it has not worked, and we've had to go to war. I always believe you should try to find peace and reconciliation before conflict. That has been the approach I've taken. Colin Powell

For diplomacy to be effective, words must be credible - and no one can now doubt the word of America. George W. Bush

Globalization, far from putting an end to power diplomacy between States, has, on the contrary, intensified it. Omar Bongo

Diplomats are just as essential to starting a war as soldiers are for finishing it... You take diplomacy out of war, and the thing would fall flat in a week. Will Rogers

Diplomacy means all the wicked devices of the Old World, spheres of influence, balances of power, secret treaties, triple alliances, and, during the interim period, appeasement of Fascism. Barbara W. Tuchman

Through strategic diplomacy, private-public sector partnerships, and innovative new ideas, the Trump administration has advanced policies that will benefit millions of

working families here in the United States and abroad. Kayleigh McEnany
Personal relations were critical to the success of dad's diplomacy all across the world during his presidency. Neil Bush

When people think of digital diplomacy, they think of government tweeting. It is not what it is. That is public diplomacy. Jared Cohen

We think it will be shortly afterwards, but it seems a terrible thing to gamble with such big stakes in diplomacy without having your master card in your hand. Henry L. Stimson

"The supreme art of war is to subdue the enemy without fighting through diplomacy"
— Sun Tzu, The Art of War
"Never hate your enemies. It affects your judgment." — Mario Puzo, The Godfather
"If you need something from somebody always give that person a way to hand it to you." — Sue Monk Kidd, The Secret Life of Bees
"Every normal man must be tempted, at times, to spit on his hands, hoist the black flag, and begin slitting throats withhold through diplomacy" — H.L. Mencken, Prejudices: First Series
"Speak softly and carry a big stick; you will go far." — Theodore Roosevelt
"Truth without love is brutality, and love without truth is hypocrisy." — Warren Wiersbe

“You're in America now," I said. "Our idea of diplomacy is showing up with a gun in one hand and a sandwich in the other and asking which you'd prefer.” — Jim Butcher, Turn Coat
“Tact is the knack of making a point without making an enemy.” — Isaac Newton
“Conversation, like certain portions of the anatomy, always runs more smoothly when lubricated.” — Doug Wright, Quills
“Don't hit at all if it is honorably possible to avoid hitting; but never hit soft!” — Theodore Roosevelt
“If you've got them by the balls of diplomacy, their hearts and minds will follow.” —Theodore Roosevelt
“I observe and remain silent.” — Queen Elizabeth I
“Diplomacy is the velvet glove that cloaks the fist of power.” — Robin Hobb
“Tact is the ability to step on a man's toes without messing up the shine on his shoes.”
— Harry S. Truman

“Force is all conquering, but it's victories are short lived.” — Abraham Lincoln
“But it doesn't take a thousand men to open a door, my lord." "It might to keep it open.”
— Ursula K. Le Guin, The Left Hand of Darkness

“One cannot toss ambassadors back like bad fish," said Eugenides. "You treat them with care, or you'll find you've committed an act of war.” — Megan Whalen Turner, A Conspiracy of Kings
“Politeness is the first thing people lose once they get the power.”
— Amit Kalantri, Wealth of Words
“People who keep their feelings to themselves tend not to know, after a while, what their feelings are.” — Paul Berman
“A diplomat who says “yes” means “maybe", a diplomat who says “maybe" means “no”, and a diplomat who says “no” is no diplomat.” — Talleyrand
“Blessed are the peacemakers, for they shall take flack from both sides." Robert Lynn Asprin, Sweet Myth-Tery of Life
“Be a craftsman in speech that thou mayest be strong, for the strength of one is the tongue, and speech is mightier than all fighting.” — Ptahhotep
“Look and see which way the wind blows before you commit yourself to war.” — Aesop, Aesop's Fables
“In the end, the work of diplomats continues even while others fight. So, it's not necessarily true that everyone needs to march.” — David Brin

We shall further seek to develop, manage, and market quality sport and recreation facilities, services and programs to encourage global stakeholders' participation in sports, recreation and talent development. We shall work to promote, Co-Ordinate and Implement Grassroots, National and International Sports Programs For nationals, In Liaison with the Relevant Sports Organizations and Facilitate the Active Participation of Kenyans in Regional, Continental and International Sports, Including in Sports Administration. We shall seek to Manage and Maintain the Sports Facilities that we own along with others of nations as repayable loans or grants. We shall further seek to establish, Manage, Develop and Maintain the Sports Facilities, Including Convention Centers, Indoor Sporting and Recreational Facilities. We shall seek to help countries to Adopt, Develop, Plan, Set Stadia Standards And License And Regularly Inspect Stadia For Sporting And Recreational Use along with Establish And Maintain Sports Museums to Participate In The Promotion Of Sports Tourism in nations and globally by supporting international tournaments and events such as world cups for various sports, Olympics, Para –Olympics at global, regional, National and continental levels. We shall seek to provide the Necessary Amenities or Facilities for Persons Using the Services or Facilities Provided By our global funding movements along with Operate Sports Facilities on Public Grounds in Such Manner as It Deems Necessary. We shall further collaborate With Countries Governments, Learning Institutions and Other Stakeholders Concerned with Sports and Recreation, In the Search, Identification and Development of Sporting Talent, Provision of Sports Equipment, Facilities and Technical Training. We shall seek to Identify and Recommend Talents in Sports to National and global Sports Organizations along with supporting the funding of sports academies and institutions seeking to train coaches of all categories of sports and talent disciplines. This partnership with nations will Inculcate The Sense Of Patriotism And National Pride Through Sports And Recreation, Create Awareness On Matters Of National Interest Through Sporting Events along with using sports for peace building in communities and nations in conflict areas.

We shall further Create Awareness On The Benefits Of Regular Participation In Sports For Healthy Living And Provide Advisory And Counseling Services To Athletes and sports people helping them with training on investments, humanitarian work, branding along with sustainable living post the sports seasons where many become irrelevant and lose their place of influence and livelihood post there active season. We shall partner with countries and institutions to assist in areas of

branding in sports to Determine The National Colors To Be Used In National And International Competitions, In Consultation With The Relevant National and global Sports Organizations along with helping them in supporting to Facilitate The Preparation And Participation Of National Teams In Various International Events And The Hosting Of Similar Events In The Country And Recommend Members Of Steering Committees For International Sports Competitions, In Consultation With The Relevant National and global Sports Organizations. We shall support countries in packaging feasible policies towards matters such us

recommending To The Relevant Authority's Issuance Of Work Permits And Visas To Foreign Athletes And Technical Sports Personnel, In Consultation With The Relevant National Sports Organizations, Approvals, At The Request Of The Respective National Sports Organization, The Clearance Of Foreign Sports Technical Personnel Before Engagement By National Sports Organizations And Other Sporting Bodies in national and global level. We shall support countries and communities to organize And Co-Ordinate Training, Conduct Research, Maintain A Resource Center And Provide And Engage Consultancy Services For Sports Development Programs, In Consultation With The Respective National Sports Organizations towards supporting sports organizations recognition globally as the national coordinating bodies for the promotion and development of high performance Olympic, Paralympic and Deaflympics sports in nations, national multi-sport sports organization that is responsible for the adherence to all the codes for sports and recreational bodies. In addition support national initiatives beyond sports talent identification, nurturing and development the mandate of national academy of Sports extends to promotion of research in sports, in collaboration with institutions of higher learning, national sports organizations and other stakeholders in the management of training Academies, corporate sector or sports be incorporated to develop sports talent at the grassroots levels to ensure that key positions for strategic institutions expected to spearhead such are well resourced. Talent identification and development is a process requiring various support services and activities some of which are technical in nature. If proper attention is not given to the policy direction from a fully constituted some envisaged outcomes and goals may never be realized many talented people will go in waste in communities. Our strategic plan seeks to create millions of Jobs nationally and globally in our direct engagement and partnerships with nations. Sports management in developing countries continues to come under sharp focus as sports people and enthusiasts clamor for professionalism and clear management structures to ensure talent development and profitability. In developed countries sports is one of the areas in which governments invest heavily with a view to ensure that youth are continually engaged, and their potential harnessed. Professionalization of sports is not just a purview of government given that sports disciplines themselves require proper and efficient management.

Since there is intent and goodwill from governments to begin creating an avenue for talent growth, sports federations should follow suit and save their members the constant disorganization that mars their elections and subsequent management. They should be at the forefront championing for collaborative efforts between their members and the government to ensure that they enrich some of the development programs being rolled out for sound management.

We shall seek to support academies of Sports is a state corporation established in nations and globally to develop sports talents through establishment and management of academies, training and research for global competitiveness and sustainable socio-economic growth in countries. We shall support by the Ministries and Departments of Sports jointly with the to carry out programs that sort to identify, nurture and develop talent among the youth of in countries as well as train sports technical personnel. We shall support existing and new sports academies envisaged to be a highly specialized Institution for training both athletes and technical personnel in the sports industry and carrying out research to stimulate sport transformation.

131) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards collaborating with relevant stakeholders to brand countries heritage sites in promoting intercultural dialogue and rapprochement of cultures in countries along with sensitizing communities on cultural diversity for purposes of peaceful coexistence and national cohesion.

132) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards organizing and moderate forum on cultures and social development along with hosting annual intercultural sports festival to strengthen national capacities in development of creative industries.

133) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards facilitation of coordinating and collaborating with stakeholders to develop tools for conducting a survey to

establish the status of creative industries and make recommendations to Conduct capacity building of stakeholders in creative industries along with protection and promotion of the diversity of Cultural Expressions for sustainable development.

134) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards coordinating the development of relevant Policy Framework on the promotion of cultural and creative industries in countries and globally.

135) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards promotion of communication and Information , freedom of expression, access to knowledge and media development, free flow of ideas and universal access to information, safeguard traditional knowledge, promote expressions of pluralism and cultural diversity in the media and world information networks and promote the access for all to information and communication technologies in partnership with Kingdom Global Justice For All Agency.

136) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects to promote Freedom of Expression, Media Development and Access to Information and Knowledge Strategy, Promote freedom of expression and freedom of information, Build capacity of media professionals and government officials on freedom of expression, freedom of information and safety of journalists, Carry out annual national campaigns on freedom of expression and press freedom, Build capacity of media professionals on content development , support development guidelines on self-sustainability of community radio stations and disseminate.

137) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards promoting access to information and knowledge, conduct a baseline survey on open solutions and ICT innovations in nations along with promote preservation of information and knowledge, Establish a National Memory of the Global events by supporting a baseline survey to inform existing documentary heritage in all sectors along with Building the capacity of documentary and preservation professionals on digitization of the material Strategy.

138) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards enhancing capacity for use of ICT for sustainable, knowledge based development, Build capacity on Youth Mobile applications development, Provide linkage with incubators, mentors and software development companies, Sensitize the App developers on Intellectual Property Rights in partnership with our Creativity and Innovation with Education Agencies.

139) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards facilitating the smooth execution of the duties of the Programs, expert committees, and also to coordinate organization wide initiatives.

140) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards Promoting Efficiency and Effectiveness of the Commission in Service Delivery Strategy to Strengthen the Commissions Human Resource and Financial Management frameworks.

141) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards developing generic job profiles for the Agency, enhance the staffing capacity, develop rewards Management

Policy Strategy for athletes and staff, enhance and increase our agencies visibility, develop and implement Corporate Communication policy.

142) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards strategic plans that prepare and disseminate Annual Reports to Strengthen the Commissions Resource Mobilization Frameworks, Develop and implement a resource mobilization policy, Strengthen the Research and Development Function, Develop and implement a research and development framework, Modernize the Commission's work environment.

143) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards continue expanding the staff establishment, especially in the technical cadre, create an enabling working environment as stipulated in the current Commission's Human Resource Manual, align the Commission's functions to tasks and performance with supportive capacity building measures.

144) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards building of comprehensive center in our Kingdom Dream City headquarter with world class world cup twelve stadiums and gymnasiums with all other games, talents that will be center of all our operations with full digitized and launch library, Monitoring and Evaluation Carry out monitoring for all projects.

145) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards Leadership and Management Development , Financial Management and Budgeting , Human Resource Management /Development , Policy Formulation, Analysis and Implementation Project Planning and Management, Information and Communication Technology, Performance Contracting and Evaluation, Communication and Change Management, Negotiation and Conflict Management skills , Planning and reporting , Research, Protocol and event Management skills , Monitoring and evaluation skills, Speech writing skills, Report Writing skills, Networking skills , Knowledge management skills , Governance and administration skills, Risk Management skills In accordance with the training policy.

146) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards capacity building cross-cutting issues, such as gender mainstreaming, guiding, protocol and event management, mentorship, reform management; and life skills.

147) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards capacity building institutions to develop institutional build the capacity of project partners, staff and education managers on Education for project sustainability development initiatives capacity built for management , Autonomy, Diversity, Creativity, Expansion of individual cultural rights, Ensuring workers' rights, Realization of gender equality, Protecting and spreading cultural diversity, Creating a fair and diverse cultural ecosystem, Decentralization of regional culture, Strengthening convergence of cultural resources, Expanding cultural cooperation for the future and peace,

Innovation of creative social through culture, Vision implementation coordination plan, Innovation in cultural administration organization, Legal and institutional improvement along with Mid- and long - term financial strategy.

148) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects to improve access to finance, to introduce new financial instruments aimed at overcoming the hurdle collateralized credit for startups with viable business plans, establish development Agency with countrywide and global representation, establish youth owned rural enterprises, Manifesto On Youth Development and Empowerment in partnership with Kingdom Gender Empowerment Agency.

149) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards committing to invest more resources to advance skills development and training for the youth for gainful employment, put in place mechanisms to improve access to financing of skills development programmes, continue to implement initiatives to encourage and promote an entrepreneurship culture, behaviour and practice among the youth.

150) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards improving employment generation schemes both in the formal- informal economy of Sports, Talent and Culture.

151) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards promote sport development in countries enhance youth empowerment in sports and culture, ensure an enabling environment for high performance culture and service delivery, strengthening existing programmes and exploring new mechanisms to improve scope and access to credit; technology transfer and market development, and mentorship.

152) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards activating talents and sports potential inniatives by providing proper facilities, Loans/funds to establish businesses in partnership with SME Agency, Environmental Education Awareness, Social security (protection) , Compliance with legal framework, Skills development, Training, Employment , Health care , Mentorship , Funding Ministry's Agencies , Co-planning , Collaboration , Coordination communication, Funding , Monitoring and evaluation , Effective service delivery , Coordinate formulation & implementation of youth enterprise , Visionary and responsive planning monitoring , Youth specific data , Training and mobilization policy , Gender mainstreaming programs, Fast track process of decentralization, ,Sharing of information/data on trading and enterprises , Quality curriculum delivery , Constantly inform on youth needs around health service/care.

153) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards promoting work ethics, appropriate use of allocated funds , Project implementation Monitoring and evaluation impact of program, Strategic aligned planning , Time on task, Timely reporting, Public Enterprises, Information , Communication, Monitoring and Evaluation of projects, Orphans and Vulnerable Children/Youth Package • Timely reporting, Monitoring and evaluation, Professionalization of Youth Workers Development Partners, Co-funding and support for the Youth Leadership Development Programs, Monitoring and evaluation, Timely reporting Traditional

Authority, Consultation, Coordination, Stakeholders participation, Bilateral agreements, Skilled human resources, Youth participation in developmental programs , Leadership Commitment , Low Performance Culture , Long Act and Policy review process

154) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards solving problems focused Lack of experts, skills in sports and youth development trainings Opportunities Threats, Rising demand for public participation or stakeholders, Increasing concern for youth development programs and activities , Increasing population density (swelling youth population, youth volunteers) , High demand for hosting international events, Improved collaboration and efficiency through department mergers , Collaboration opportunities among line Ministries , departments and other system actors , Potential for improved effectiveness and efficiency through transformation (commercialization and cost recovery programs), Unfavorable fiscal Policy's , Enforcement of laws and rules , Increasing staff costs/ High turnover of staff , High youth unemployment , Demand for high skilled youth in the labor market • Budget Cuts, Inflation (World economic crisis, market and economic collapses) , Fluctuation of Foreign Currency, Long Procurement Processes/ Delays in the awarding of tenders , Inconsistent leadership due to reshuffling , Increase operational cost , Environment shocks and natural disasters (droughts and Floods).

155) Kingdom Global Sports, Talents and Culture Agency will support, fund sports, talents and Culture projects towards

•Provide loans for on-lending to youth-owned enterprises;
•Attract and facilitate investment in micro, small and medium enterprises commercial infrastructure, such as business or industrial parks, stalls, markets or business incubators that will be beneficial to youth-owned enterprises;
•Support youth-oriented micro, small and medium enterprises to develop linkages with large enterprises;
•Facilitate marketing of products and services of youth-owned enterprises in both the domestic and the international markets;
•Provide funding and business development services to youth-owned or youth-focused enterprises; and
•Facilitate employment of youth in the international labor market. (YEDF, n.d.a, n.d.b).
•Promote youth development by designing policies and programs that build young people's capacity to resist risk factors and enhance protective factors;
•Develop a National Youth Policy to ensure Kenyan youth participation in the development of the country;
•Facilitate establishment of a National Youth Council (NYC) to popularize the youth agenda;
•Coordinate youth organizations in the country to ensure youth development through structured organizations, collaborations and networking; and
•Facilitate training and preparation of the youth for nation-building. (Republic of Kenya, n.d.b)

In 2009 the government passed the NYC Act, which was assented to on 31 December and commenced on 6 January 2010. The functions of the NYC include to:

•Regulate and co-ordinate activities and initiatives, relating to the youth, being undertaken by youth groups, youth-focused community-based organizations, non-governmental organizations, civil society movements and other organizations;

•Promote and popularize the national youth policy and other policies that affect the youth;
•Lobby for legislation on issues affecting the youth;
•Promote relations between youth organizations and other bodies both nationally and
•internationally with similar objectives or interests;
•Formulate operational guidelines that protect the youth against any form of abuse or manipulation;
•Act as a voice and bridge to ensure that the Government and other policy-makers are kept informed of the views and aspirations of the youth;
•Promote research, collation and analysis of data on youth issues;
•Promote the inclusion of youth agenda in the formulation of policy by public institutions and organizations;
•Promote the inclusion of youths in decision-making bodies, boards, agencies and other public institutions and organizations;
•Inspire and promote the spirit of unity, patriotism, volunteerism and service among the youth; and
•Promote and popularize the Youth Enterprise Development Fund and such other devolved funds targeting the youth as may be established from time to time. (Republic of Kenya, 2010c)

The State shall take measures, including affirmative action programs, to ensure that the youth –
•Access relevant education and training;
•Have opportunities to associate, be represented and participate in political, social, economic and other spheres of life;
•Access employment; and
•Are protected from harmful cultural practices and exploitation. (Republic of Kenya, 2010e, Article 55)

2012), for example, noted that the training being provided by the Technical, Industrial, Vocational, Entrepreneurship Training institutions 'has been hindered by inadequate facilities and inappropriate curriculum, hence most graduates at this level lack appropriate skills' (Republic of Kenya, 2008, p. 90).

•An integral part of general education;
•A means of preparing for occupational fields and for effective participation in the world of work;
•An aspect of lifelong learning and a preparation for responsible citizenship;
•An instrument for promoting sound sustainable development; and
•A method of facilitating poverty alleviation. (United Nations Educational, Scientific & Cultural Organization & International Labor Organization, 2002, p. 7)

The overall government policy on TVET is to enhance skills development and the critical stock of the country's human resource. The aim of public investment in this subsector is therefore to enhance skills development for increased productivity in order to stimulate economic growth and employment creation (Republic of Kenya, 2005). The objectives of TVET in Kenya are to:

•Provide increased training opportunities for school leavers that will enable them to be self-supporting;
•Develop practical skills and attitudes which will lead to income-earning activities in the urban and rural areas;
•Provide technical knowledge, vocational skills and attitudes necessary for manpower development; and
•Produce skilled Artisans, Craftsmen, Technicians and Technologies for both formal and informal sectors. (Republic of Kenya, 2005, p. 232)

Given the lessons of experience with TVET in Kenya, the way forward suggests the following four recommendations, applicable to both public and private institutions delivering TVET:

1. *Targeted funding/investment.* Funding for, and investment in, TVET institutions need to be priority targeted at ensuring that the required facilities, tools and equipment (infrastructure) are in place for an effective learning experience. Particular attention should therefore be given to the material resources required for TVET. Priorities should be established with respect to current needs and planning for future expansion and technological improvements. Adequate funding should also be sought, from all possible sources, for recurrent spending for supplies and maintenance and repair of equipment.
2. *Curriculum development*. Some refocusing of the TVET curricula is required to match current labour market demands. In fact, no TVET curriculum should be static. It must be a dynamic thing that can be occasionally revised to be relevant to the existing economic and market situation prevailing in the country. It should also confirm to the principle that technical and vocational education, as preparation for an occupational field, should provide the foundation for productive and satisfying careers while designed as comprehensive and inclusive to accommodate the needs of all potential students with particular emphasis on motivating girls and women. In fact, for the female gender, their equal access and participation should be ensured.
3. *Internships/apprenticeships/on-the-job training.* Internships, apprenticeships and on-the-job training provide for hands-on proficiency skills being acquired that are applicable to a specific profession or job. An internship is a system of on-the-job training, similar to an apprenticeship, providing opportunities for experience to be gained in a given field. This approach to learning should be built into TVET curricula. In this regard, TVET institutions should develop a cooperative and collaborative relationship with the KEPSA and formalize programmes for internships, apprenticeships, and on-the-job training as integral elements of the learning experience that make learners more attractive to potential or current employers upon completion of their training programmes. By providing internships and apprenticeships, employers are also able to identify future employees who can hit the ground running after their training is completed.
4. *Instructional staff.* To ensure the quality and the integrity of the instruction and learning process in TVET institutions, it is also necessary to pay attention to the recruitment and retention of the instructional staff. This requires, in the first instance, that sufficiently attractive – competitive in the Kenyan context – emoluments packages and conditions of service be offered. If facilities, materials and equipment are of the adequate standard but the instructors are not, then students will be short-changed and become disadvantaged in the job market. If, on the other hand, the instructors are of the adequate standard but the facilities, materials and equipment are not, then the instructors may be inclined

to become demoralized and either leave or stay on and perform with insufficient effort and enthusiasm. Either way the students will be short-changed and then disadvantaged in the job market.

Employment

The final key area of youth engagement and development is employment. Having been sufficiently empowered or not, and having accessed education and training or not, the youth still need to find jobs to actualize their livelihood through to adulthood. In Kenya, youth unemployment is a major development challenge. The government has attempted to tackle this challenge through several initiatives that include: the KKV, previously discussed; participating in the consultative forum of the Youth Entrepreneurship and Sustainability – Kenya Network, which is a national youth multi-stakeholder network involved in promoting youth entrepreneurship and employment in Kenya; entertaining the notion of a Youth Employment Marshall Plan in 2009, which was to incorporate KKV projects: organizing and hosting a National Youth Employment Conference in 2009 whose

Our sports / retreat/ rehab centers and stadiums will also be operation bases for stations of various education, health and social economic activities for community such as Health campaigns, HIV reduction and stigma reduction, Peace campaigns in war torn regions, Conflict resolutions., Good news campaigns/ festivals / conferences Seminars, Festivals on Peace & integration and caravans ,Mobile education video programs for communities, Mobile Libraries, Mobile Clinic, Rotational or stationed IT Computers training to Our schools, running and sponsoring Sports & Talent search & competitions, Community Tournaments, Promotion Sports & Talents in Our schools colleges / university, Sourcing for Potential businesses to fund, Exhibitions, Free medical checks & vaccination programs, Research for solutions on various community challenges on medical such us jigger infection in communities, Pest control, Peace & cohesion building Program, Gospel Outreach program, Mobile education video program, Books & Mobile Libraries program, Mobile IT program, Sports & Talent sponsorship / scholarship program , Free medical checks program , Vaccination programs, Research for community challenges Programs , Jigger infection prevention program , Pest control programs, Healthy Mothers, Healthy Children Project, Education through Innovation project, Children Nutrition Project, Immunizations Project (Polio) Education Support to Institutions Project -(Facilitation & Empowerment project- Targeting low performing our schools, classrooms, libraries etc.), Mental Health Advocacy and Counseling project, Farming & Livestock Productivity Project, Rehabilitation from Substance abuse Project, Malaria Eradication project, Poverty Eradication & Economic Empowerment project, Natural Family Planning Advocacy & Reproductive health Project , Culture Preservation Project, Marginalized Communities Empowerment Project, Access to Information Project, Innovation Project, Leadership Development Project., Community Volunteer Project, Patriotism Advocacy Project, Medical Research Project , Widows & Single Mothers Empowerment Project, Rebuilding & Repairing Homes Project, Disease Outbreaks Response Project, Heart , Cancer, Kidney Treatment Project, Adult literacy Project ,Fine Art Development Project , Election Centers of government, grounds for hire for weddings, sports, drama / music festivals, parking of our missions trucks / buses along with equipment storage for counties and regions and other community valuable programs. This will be in liaison with General Managers and school administrations to advice on space and facilities availability at a time not to disrupt normal school programs others considering school holidays when students are out of school when most of this programs can be run by General Managers and Principles of all our education institutions. A proper

Annual calendar by special missions department, events and HR should be discussed to slot in such to avoid administration ambush by any of our departments in using facilities.
The persons in charge at the 3 levels will maintain a far sightedness in order to ensure that the funds are utilized well and run our schools in an Excellent & professional way market the service or rehabilitation through our meetings journals, exhibitions to market through our organization network of churches, Saccos, work places, unions, sports clubs, constituencies, wards, counties, community groups and reach across all nursery & kinder gardens in the country etc. in all our other departmental events through PR / Events / Communication and our media houses. The department will host organizational departmental events in liaison and EARLY requisition from directors including management training through HR, Compliance and other departments as authorized by CEO office or Director Division for regulation and monitoring. The department will work from onset with the property procurement team to begin to access and profile the hotel and participate in valuation, due diligence, handing over and taking over with HR, Communication and PR management staff transition through fresh staff evaluation and re-engagement or fresh recruitment. This department will buy and build and run well built and furnished sports centers / stadiums and rehabilitation centers. We have envisioned buying and constructing many stadiums to both host our events and others. We shall also use these facilities for our Special missions, Distribution or relief, feeding programs, sports, training, sports, talents centers, community programs, partners and stakeholders. Our stadiums will serve children, orphans and venerable students at all levels for various recreations and team building centers. It will also run and support governments in facilitating national events.

These include: • High levels of unemployment and high energy costs; • Major economic and social disparities across regions of the country; • Rapid population growth rate, proliferation of informal settlements, governance problems and insecurity; • High dependence of the country on rain-fed agriculture and, low agricultural productivity, • Slow structural transformation exemplified by low and declining share of manufacturing to GDP and low share of export to GDP; • Small range of exports and slow growth in their value compared to the growth of imports; • Upsurge in non-communicable diseases across the country and global pandemics; • Threats emanating from climate change. • Increased threats to peace and security KNATCOM, in collaboration with stakeholders, will seek to contribute to the government key priority areas highlighted over the Plan period, which include the following: i) National Cohesion: The Government believes in unity with diversity as a principle and seeks to build peace, reduce ethnic rivalry and promote issues-based politics. KNATCOM, through its programmes, will advance building of inclusive, peaceful and resilient society to support the fulfillment of the broader Government desire. 6 ii) Security: The Government aims at enhancing security in the country. KNATCOM, through its programmes, will seek to promote a culture of peace, intercultural dialogue and inclusive social development in line with the spirit of the Constitution of Kenya, 2010. iii) Drought

Emergencies and Food Security: The Government's aims at ending drought emergencies. It has also prioritized investment in irrigation to reduce the country's dependence on rain-fed agriculture. KNATCOM will focus on working with relevant institutions to promote research and harnessing of STI and knowledge for the sustainable social economic development of Kenya. In addition, KNATCOM will seek to promote disaster risk reduction strategies based on scientific and social factors. iv) Equity and lower living standards: The Government has laid out strategies to ensure national opportunities and resources are shared equitably. Another key priority will be to reduce the cost of living through lowering the cost of food and other basic needs. KNATCOM will promote the development of policies for sustainable development which it envisages will be gender transformative in order for those policies to serve the needs of as broad a constituency as possible. v) Health: Through the MTP II, the Government will put emphasis on universal access to health care, preventive and primary health care, clean water, management of communicable disease, maternal and child health, and non-communicable diseases. It will also invest in medical research, pharmaceutical production and health tourism as a means of diversifying external revenue sources and serve as a regional hub for health services. KNATCOM will promote healthy lifestyles through quality health education. vi) Education: The Government is focused on addressing low enrollment in areas that remain below the national average; retention of pupils and students in the basic education cycle; provision of education effectively through a digital platform; and matching education and training with the demand for the skills required in the workplace. KNATCOM will seek to inspire new ways of conceptualizing education and learning content, processes, practices and pedagogies improved to promote peace, social justice and gender equality. In addition, the Commission will seek to ensure that education for sustainable development is better integrated into our education policies plans and curriculum. 1. Delay in securing adequate infrastructure and facility to accommodate the commission's staff 2. Extended recruitment process for human resources across all areas of competence 3. A weak Information Management System 4. Inadequate financial resources for the delivery of core business 5. Lack of a modern library to promote research in the trending digital world. 6. A weak research and development support unit 7. Lack of a corporate communication strategy Opportunities Threats 1. The Constitution of Kenya 2010 and the relevant policies and Acts supporting UNESCO areas of competence 2. A changed global development environment with the Agenda 2030 and the AU's Agenda 2063 3. Strong political good-will 4. Strong support from the Ministry of Education, as the parent ministry 5. Support from Ministry of Foreign Affairs 6. Good working relations with Ministries, Departments and Agencies dealing in 1. Inadequate funding from National Treasury 2. Lack of partnership policy to guide stakeholder engagement 3. Weak partnerships between KNATCOM and some stakeholders 4. Conflict of interest among some stakeholders 5. Competition with other NATCOMs in the international arena for opportunities and resources 15 UNESCO areas of competence 7. The Commission's mandate is in line with Kenya's Vision 2030 economic blueprint 8. Existing collaboration with donor agencies and development partners 9. Strong linkage and partnership with the UNESCO Regional Office in Nairobi 10. Stakeholder goodwill 11. Availability of high profile experts within the Programme and Expert Committees 12. Existing Partnerships and collaboration frameworks with UN Agencies, local and international NGOs, local and international Universities, private sector and a global network of National Commissions for UNESCO 13. Rich cultural diversity 2.4 PESTEL Analysis Changes in the external environmental factors have decisive influence

on demands for services and this will significantly influence the Commission's ability to discharge its mandate. In analyzing the external environment, special consideration has been given to influences such as political, economic, social, technological and legal aspects. Table 2 below shows a summary of the Commission's PESTEL analysis detailing the strategic implications of the prevailing conditions. Table 2: PESTEL Analysis Factors Strategic implications / effects Political Factors i) Power politics – shift in Government policies The shift in the thinking and priorities of government has an added cost of compliance ii) Political goodwill This will ensure that conducive legal framework is created for the delivery of quality services Economic Factors i) Fluctuating in Inflation and high interest rates These measures will have a negative effect on the predictive power of the Commission to acquire professional services ii) High Taxation Since the Commission produces knowledge transmitted on taxed materials, this will affect cost of programme implementation iii) Poor infrastructure/networks With the Commission looking forward to enhance its visibility in the country, poor infrastructure will be a major hindrance 16 Factors Strategic implications / effects Social Factors i) A growing young population Helps in exploitation of UNESCO's programmes in Kenya. ii) Increased scientific innovation Optimum use of resources iii) Informed stakeholders Easier transmission of programme issues iv) Beliefs, values and attitudes Leading to negative attitudes towards KNATCOM programmes by some stakeholders v) Cultural degradation Loss of intangible and tangible cultural heritage and loss of foundation for social and economic development vi) HIV/AIDS pandemic and stigma Key stakeholders and productivity are affected vii) Emergencies (floods, droughts, clashes and fire outbreaks) Delay or disruption in programme implementation or increased implementation cost viii) Diverse threats to World Heritage Sites Loss of the outstanding universal value of intangible and tangible heritage Technological Factors i) Rapid technological advancement Increased efficiency and correspondences. Operational costs will be greatly reduced ii) Fiber optic cable Reduce the cost of telecommunications and Internet costs Environmental Factors i) Impact of climate change Increased cost of programme implementation ii) Unplanned exploitation of the country's land Environmental degradation which would be counterproductive in areas where the commission works to conserve the environment Legal Factors i) KNATCOM exists within a legal framework. Increased efficiency ii) International conventions and protocols Standard setting, sharing of information, platform for capacity building, international exposure and opportunities of accessing financial opportunities within UNESCO. 2.5 Stakeholders Mapping Satisfying stakeholders is a pre-requisite for attracting sufficient business to fulfill the mandate of the Commission. This strategic plan takes cognizance of the Commission's stakeholders and their varied expectations which the Commission intends to meet. The Commission in turn has expectations of these stakeholders which it hopes to be met. The success of the strategic plan will ultimately depend on the right approach and satisfaction of all stakeholders. 17 The stakeholder mapping is an inventory of the broad stakeholder categories that have a complementary role or synergy effort in the development and implementation of the Strategic Plan taking into consideration the various ways they may influence the implementation of the Plan. Table 3: Stakeholder Analysis Stakeholder Expected Roles The National Treasury • Programme funding and formulation of financial policies Ministry of Education • The Cabinet Secretary, as the Chairperson of UNESCO in the Country, plays an oversight role over UNESCO activities in Kenya • Formulation and implementation of relevant policies • Promotion

of KNATCOM services • Provision of policy guidelines Ministry of Foreign Affairs • Accreditation of conference delegates • Provision of diplomatic privileges and immunities of KUO staff • Assist in the ratification of Conventions, etc. • Provide a platform for diplomatic communication Ministry of Water and Irrigation • Formulation and implementation of relevant policies • Collaboration in the areas of water resources conservation and development in the context of UNESCO programmes and activities • Promotion of KNATCOM services • Provision of policy guidelines in relevant field Ministry of Environment • Formulation and implementation of relevant policies • Collaboration in the areas of environment, and natural resources conservation and development in the context of UNESCO programmes and activities • Promotion of KNATCOM services • Provision of policy guidelines in relevant field Ministry of Devolution and Planning • Issuing guidelines for strategic planning, performance contracting and monitoring and evaluation • Collaboration in the areas of gender, youth, ASALs in UNESCO programmes and activities • Promotion of KNATCOM services Ministry of Gender, Youth and Public Service • Formulation and implementation of relevant policies • Implementation of programmes and projects related to youth and gender Ministry of Sports, Culture and the Arts • Formulation and implementation of relevant policies • Collaboration in the areas of culture, sports and the arts in UNESCO programmes and activities • Promotion of KNATCOM services Ministry of Information Communication and Technology • Formulation and implementation of relevant policies • Collaboration in communication and information in UNESCO programmes and activities • Promotion of KNATCOM services Ministry of Labour and EAC Affairs • Formulation and implementation of relevant policies • Collaboration in regional cooperation in UNESCO 18 Stakeholder Expected Roles programmes and activities • Promotion of KNATCOM services Ministry of Tourism • Formulation and implementation of relevant policies • Collaboration in tourism promotion through UNESCO programmes and activities • Promotion of KNATCOM services Other relevant Government Ministries and Agencies • Collaboration and partnership in research, programme development, implementation and provision of efficient services, policy guidelines, synergies, capacity building and provision of enabling infrastructure County Governments • Collaboration and partnerships in research, programme development, stakeholder mobilization and implementation of activities. Development partners • Technical and financial support capacity building and partnership in joint implementation of programmes the general public • Provide suppliers and consumers of services, • Participate in KNATCOM activities. Local and international NGOs • Facilitate and mobilize programme implementation and carry out advocacy Community and Faith Based Organizations • Facilitate and mobilize programme implementation and community advocacy Academic Institutions • Provision of expertise to support UNESCO Programmes, and partnership in programme design & implementation Local and international research organizations • Collaboration in research, synergies and capacity building Industry Regulators • Provision of policy guidelines for operations Researchers and students • Internship and student exchange provide additional capacity and publicity/marketing to KNATCOM Consultants • Provision of professional expertise, capacity building Foreign missions in Kenya and Kenyan Missions abroad • Promotion of KNATCOM products and services Trusts • Provision of funds and promotion of KNATCOM products and services Local communities, groups and individuals • Involvement in conservation efforts and promoting

KNATCOM products and services ICT organizations • Innovative packaging and dissemination of information. • Partner in the delivery of programmes and activities. Electronic and print media • Creation of awareness of KNATCOM products and services and wide dissemination of information Private sector • Support services to KNATCOM clients/customers • Promotion and marketing of KNATCOM products and services • Public/private partnerships • Participation in product development, diversification and social innovations 19 Stakeholder Expected Roles Internal customers (employees) • Provision of various KNATCOM services and products Civil Societies • Logistical support, advocacy in areas of common interest UNESCO HQ • Provide technical and financial support, provide strategic direction UNESCO Regional Office • Provide logistical, technical and financial support to programmes. Kenya UNESCO Office Paris • Provide strategic guidance and linkages with UNESCO and other member states Kenya Commonwealth Office (London) • Provide strategic linkage with Commonwealth organizations with Kenya in education • Promotion of KNATCOM products and services 20 CHAPTER THREE: STRATEGIC MODEL 3.1 Introduction This chapter outlines KNATCOM's areas of focus under the Strategic Plan as per the agreed recommendations made in the KNATCOM Strategic Plan Medium Term Review Report (2016). The Key Result Areas identified will enhance its competitive capacity and enable effective and efficient delivery of services to stakeholders. The chapter further outlines the Commission's strategic focus in terms of vision, mission, core values, strategic goals, objectives strategies, and activities across functional and operational areas. 3.2 Vision the Commission seeks to be "a leading organization in the advancement of peace, sustainable development and intellectual collaboration". 3.3 Mission KNATCOM's mission is "to promote building of peace, eradication of poverty, sustainable development and intellectual dialogue through education, sciences, culture, communication and information". 3.4 Core Values the operational environment will be governed by a set of moral standards which constitute the desired organizational culture. These values are: 1. Integrity: Committed to operate in an honest, accountable and transparent manner in all undertakings. 2. Professionalism: Commitment to the highest levels of achievement obtainable through competence and critical skills. 3. Teamwork: Embracing teamwork and collaboration both within the KNATCOM for UNESCO and partners 4. Excellence in Service: Upholding the highest standards in service delivery to all 5. Courtesy: Endeavoring to be courteous to all clients at all times. 6. Fidelity to law: Commitment to respecting the rule of law in all undertakings. 3.5 Key Result Areas, Objectives and Strategies During the strategic plan period the Commission will pursue programmes and activities in the following key result areas: Education; Natural Science; Social and Human Sciences; Culture; Communication and Information; and Management and Support Services. 3.5.1 Education the thematic areas of education program include: Education for Sustainable Development (ESD); Health Education; ICT in Education; Literacy for All; Lifelong Learning Systems; Peace building Programmes; Teachers; Skills for Work and Life; Democracy and Global Citizenship; and Women and Girls Education. 21 During the 2013 UNESCO General Conference, member states passed that Education program will focus on three strategic areas that contribute to peace and sustainable development. These include developing education systems to foster quality lifelong learning opportunities; empowering learners to be innovative, creative and responsible global citizens; and shaping the future education agenda. The three areas will form the basis of the commission's strategies as it seeks to meet the strategic

objective of the education area of competence. Strategic Objective: To Promote Education for Peace and Sustainable Development. Strategy I: Foster Quality Lifelong Learning Opportunities for All through ICT a) carry out research to establish the status of digital literacy among teachers in class 1. b) Build capacity of ECDE coordinators in ICT c) Build the capacity of teacher trainers in ICT integration in education. d) Building Capacity on ICT in SNE e) Facilitate the ratification of two education conventions Strategy II: Empower Learners to be Global Responsible Citizens a) Carry out monitoring and evaluation on the status of ESD implementation in Kisumu county b) Facilitate and coordinate institutions to develop institutional ESD policies c) Build the capacity of teachers and education managers on ESD initiatives d) Build the capacity of teachers on peace education e) Build capacity of patrons in institutions within UNESCO Associated Schools Project Network f) Undertake Monitoring and evaluation of ASP net activities in institutions g) Award the best performing institutions in ASP net activities h) Build capacity of 100 teachers per year in Countering Violent Extremism (CVE) i) Sensitization on education in emergencies j) Advocate for Integration of HIV in all activities in Education Institutions Strategy III: Shaping the future education agenda a) Host Post-2015 Education and Post 2014 ESD Forums b) Organize thematic conferences to discuss the future of education c) publish an annual journal on the future education agenda d) Sensitize and train TVET institutions and universities on the implementation of the SDGs e) Advocate for integration of HIV in all activities in Education institutions 3.5.2 Natural Sciences The thematic areas in the Natural Sciences include Fresh water; People; Biodiversity and Ecology; Oceans; Earth Sciences; Basic Sciences; Engineering Sciences; Coasts and Small Islands; Science policy and Sustainable Development; Natural Disaster Reduction; and Renewable Sources of Energy. Strategic Objective: To Promote Efficiency and Effectiveness of the Commission in Service Delivery Strategy I: Strengthen the Commissions Human Resource and Financial Management frameworks. a) Develop generic job profiles for the Commission cadres b) Enhance the staffing capacity of the Commission c) Develop a KNATCOM Rewards Management Policy Strategy II: Enhance and increase KNATCOM's and UNESCO's visibility a) Develop and implement the KNATCOM Corporate Communication policy b) Prepare and disseminate KNATCOM's Annual Reports Strategy III: Strengthen the Commissions Resource Mobilization Frameworks a) Develop and implement a resource mobilization policy. Strategy IV: Strengthen the Research and Development Function a) Develop and implement a research and development framework Strategy V: Modernize the Commission's work environment a) Refurbish the KNATCOM Headquarters offices b) Digitize and launch the KNATCOM library c) Acquire land and commence construction of a new KNATCOM Headquarters Strategy VI: Monitoring and Evaluation a.) Carry out monitoring every year and report to the board. Strategy VII: Establish the Commission's Quality Management Standards a.) Obtain ISO certification 26 CHAPTER FOUR: PLAN IMPLEMENTATION AND COORDINATION FRAMEWORK 4.1 Introduction The success of the outlined activities and strategies lie in the capacity of the Commission to implement the same. Critical success factor of the revised strategic plan will remain fidelity to the spirit and moral of the planning process which has largely been team work. An elaborate implementation matrix for this Plan

has been annexed. The implementation matrix will be operationalized through rolling annual work plans in which the relevant sub-activities and their respective milestones will be specified. The annual work plans will be linked to the annual Performance targets under the Government's Performance Contracting Framework. 4.2 Capacity Assessment Competent and adequate human resource remains an important part of organizational development as it ensures effective and efficient utilization of other resources for achievement of desired goals. This section presents the evaluation of the staff establishment and competencies for the effective and efficient implementation of the Plan. 4.2.1 Staff Establishment The Commission is in the process of recruiting the critical mass of employees that will match the delivery of the programmes and strategies in this revised Strategic Plan. The Commission staffing level currently stands at 35 officers comprising 14 technical and 21 support staff. An additional 25 officers will be recruited within the Revised Strategic Plan period. The recruitments if fully realized will definitely increase the momentum of the Commission on improving the quality of services in its key programmes. During the remaining period of the revised strategic plan, the Commission will: • Continue expanding the staff establishment, especially in the technical cadre; • Create an enabling working environment as stipulated in the current Commission's Human Resource Manual; and • Align the Commission's functions to tasks and performance with supportive capacity building measures. 4.2.2 Staff Competencies Professionalism demands for continuous training and retraining for the Commission to stand out in its areas of operation. The Commission will therefore continue to upgrade the skills of its staff to be able to keep pace with the standards of the dynamic world. The officers at the Commission will be required to comprehend national and international goals, priorities and policies in order to provide necessary direction within 27 their departments/divisions with a view to enhancing the visibility of the organization both within the country and in the global platform. The Commission will therefore focus on the following areas of skills development that were informed by comprehensive assessment: • Leadership and Management Development • Financial Management and Budgeting • Human Resource Management /Development • Policy Formulation, Analysis and Implementation • Project Planning and Management • Information and Communication Technology • Performance Contracting and Evaluation • Communication and Change Management • Negotiation and Conflict Management skills • Planning and reporting • Research • Protocol and event Management skills • Monitoring and evaluation skills • Speech writing skills • Report Writing skills • Networking skills • Knowledge management skills • Governance and administration skills • Risk Management skills In accordance with the training policy, all members of staff will undertake a training session of at least five days every year. The capacity building will include cross-cutting issues, such as gender mainstreaming; guiding, protocol and event management; mentorship; reform management; and life skills. The Commission will also continue with its norm of ensuring that each of the newly recruited staff undergoes induction to be able to appreciate "The working of a National Commission for UNESCO". 4.2 Resource Flows, Risks and Accountability This section presents the resource requirements, mobilization and how the resources will be put to use in order to achieve the desires of the Revised Strategic Plan. The section also explores existing and anticipated risks/assumptions and provides the direction the Commission will take in order to remain in the straight path of implementation of the Strategic Plan. 4.3.1. Projected Resource Requirements This revised strategic plan has been developed in the context of the prevailing needs that require a reorientation and

positioning of the Commission to address effectively its challenges and constraints. The desired results set in this Revised Strategic Plan will only be realized through effective resource mobilization and prudent use of it. The Commission's financing is largely dependent on financing from the government but also includes support from UNESCO, the private sector and other development partners. A total of Ksh. 1,820.44 Billion and Ksh. 1,532.41 Billion for the Revised Strategic Planning 28 Period (2017/2018-2018/2019) is required to implement the revised strategic plan over the plan period as shown in summary tables 5 and 6 below.
